The step under review	*[5.1.1.4. Enhance accountability of court presidents and chief prosecutors in the functioning and management of courts and prosecution offices, including by introducing case processing monitoring, performance analyses of courts and prosecution offices, and reports on budget and staff needs.]*
Baseline	*Written and physical reporting of Courts presidents in a quarterly basis in KJC (2023); Written and physical reporting of chief prosecutors in a quarterly basis in KPC (2023*
Deadline of the step	[*June 2026*]
Actual results	**The Kosovo Prosecutorial Council**, through its bodies, has drafted the Forms of the reporting mechanism of the Chief Prosecutors divided according to the level of prosecutions: 1. A form for the Appellate Prosecution 2. A form for the Special Prosecution 3. A form for the basic prosecutions The reason for dividing these forms in this way is due to the level of cases handled by each of these prosecution offices and due to the different legal specifications and competencies. In this regard, on March 17, 2026, the Chairperson of the Kosovo Prosecutorial Council sent a request for reporting to all Chief Prosecutors, where the relevant reporting forms were attached to them and the relevant reporting instructions were provided. Reporting was requested for the activities of 2025. Within the deadline set for reporting, all chief prosecutors submitted their reports, completed with relevant information, to the Kosovo Prosecutorial

	Council.[1][2][3][4][5][6][7][8][9]
	
	These reports, among others, include:
	
	• Performance of the prosecution regarding the handling of cases at work and those received
	• The manner of handling cases and proceeding in court
	• Court decisions regarding the acts of prosecutors
	• Performance of individual prosecutors regarding the handling of cases they have at work
	• Comparative aspect of the prosecution's performance in the last 3 years regarding the handling of cases
	• Competences and responsibilities of the chief prosecutor of the prosecution regarding:
	  Implementation of the mandatory instruction of the Chief State Prosecutor regarding the mandatory review of the case as well as the number of cases reviewed
	  Number of appeals of the parties against the decisions of prosecutors and how they were decided
	  Number of appeals of the parties for disciplinary matters against prosecutors and how they were processed
	  Number of decisions for the recognition of complex cases
	  Data regarding all actions regarding the seizure and confiscation of property
	  Protection of victims
	  Assessment of performance of prosecutors
	  Number of cases when chief prosecutors have taken over the prosecution function in a specific case assigned to a subordinate prosecutor's office, with the prior consent of the Chief Prosecutor
	  Number of cases when they have given written instructions with the aim of implementing legality, increasing efficiency and unique implementation of legislative practices
	  Budget and staff needs
	
	In addition, all prosecution offices send their respective annual reports to the Office of the Chief State Prosecutor and the State Prosecutor' annual report is drafted.[10] The annual report of State Prosecutor for 2025 was approved in the

	KPC meeting of June 15th, 2026 with the Decision KPC/No. 341/2026.[11] Moreover, in order to advance the accountability process of Chief Prosecutors, the Committee on Budget, Finance and Administration of Prosecution Offices, with the Decision of 28 April 2026 established a Working group for Drafting the unified forms for the annual reporting of Chief prosecutors.[12] The Committee with the working group held a workshop with all chief prosecutors of prosecution offices in May 2026 and updated the reporting forms, where from now on the form for reporting of the Office of the Chief State Prosecutor has also been drafted, reports on financial investigations, the use of CMIS, etc. have been established.[13] Furthermore, these forms will be uploaded as templates in the CMIS and each time during the reporting the Chief Prosecutors will use the statistical data from CMIS. **The Kosovo Judicial Council** pursuant to Regulation No. 17/2024 on the Internal Organization and Functioning of the Courts of the Republic of Kosovo[14], Chapter III – Administration and Management of the Court, Article 10, paragraph 4, emphasises that Presidents of the Courts are required, in cooperation with supervising judges, judges, and administrative officials, to prepare the Court Annual Work Plan, including the Case Management Plan, no later than the end of January of the current year. The Annual Work Plan shall set forth objectives aimed at enhancing the efficiency of case management, as well as any other matters required by the Kosovo Judicial Council[15]. In order to ensure uniformity in the format and structure of court work plans, Annex No. 5 – Court Work Plan Template forms is included. Furthermore, the President of the Court shall submit to the Kosovo Judicial Council a written quarterly and annual report concerning the performance and activities of the court, the implementation of the Council's strategies and other normative acts, the identification of challenges and problems encountered by the court, and proposals for concrete measures to address and resolve such issues. In addition to submitting written quarterly reports, the Presidents of the Courts are required to present and discuss these reports in person during the meeting of the Kosovo Judicial Council, providing an overview of the court's performance, progress in implementing the Annual Work Plan, developments in case management, challenges encountered, and measures undertaken to address identified issues. Following review and approval by the Council, the report shall

	Budget needs KPC Based on Article 7 paragraph 1.10 of Law No. 06/L-056 on the Kosovo Prosecutorial Council, the KPC is responsible for the preparation, submission and supervision of the budget of the State Prosecutor and the Prosecutorial Council. KPC manages the annual budget for the Kosovo Prosecutorial Council and the State Prosecutor independently and is responsible for overseeing expenditures, allocating funds, maintaining accurate and current accounts, and conducting financial audits. On an annual basis, the KPC prepares the budget request for the following year and early estimates for the next two years. The planning of the Budget Request is based primarily on the Strategic Plan, the Work Plan, the Medium-Term Expenditure Framework, and the needs of the prosecutorial system, namely the KPC and the State Prosecutor. All organizational units of the Council and the State Prosecutor identify needs and send all requests to the Department for Budget and Finance of the Secretariat of the KPC (SKPC). All requests are reviewed with the Director of the SKPC and included in the Budget Request, which request includes budget planning for the entire prosecutorial system. The Budget Request is processed in the Committee for Budget, Finance and Administration of Prosecutions. After reviewing the request, the Committee approves the request and the same is sent for approval to the Council. The Council reviews the Budget Request and after recommendations, if any, the same is approved by the Council. After approval by the Council, the Budget Request is sent to the Ministry of Finance, Labour and Transfers according to the deadlines set by the Budget Circular of the respective year. In the budget hearings, organized by the Ministry of Finance, Labour and Transfers, representatives from the KPC present the Budget Request and all justifications for all additional requests of the Council. The budget request includes in detail the current situation of the prosecutorial system, the assessment and justification of the needs for staff, services, supplies and investments based on strategic objectives and the budget planning according to budget programs and economic categories in tabular form. The budget request for 2026 and early forecasts for 2027-2028 was approved by the KPC on June 26, 2025, with decision KPC/No. 485/2025 and was forwarded to the Ministry of Finance. The KPC budget request for 2026 was for €27,670,196, while the approved amount was €19,621,593. The budget request

	exceeds the approved budget limits by 41.02%.[18][19] The KPC budget for each year is determined by the budget law approved by the Assembly and according to the budget law, budgetary changes are made within the annual KPC budget depending on the needs of the prosecutorial system. **Budget needs KJC** Pursuant to Law No. 06/L-055 on the Kosovo Judicial Council, the Council bears institutional responsibility for the preparation of the judiciary's annual budget. Article 17 of the Law provides that the KJC shall prepare its annual budget in accordance with the legal framework governing public financial management and accountability. This provision reflects the Council's role in safeguarding the functional and financial independence of the judiciary through direct involvement in the budget formulation process. The budget preparation process is supported by the Secretariat of the KJC, which functions as the Council's administrative and professional body. In accordance with Article 34, paragraph 1.3 of the Law, the Secretariat is responsible for preparing a consolidated budget proposal for the judiciary, based on the guidance and priorities set by the Council. This mechanism ensures that budget planning reflects the operational needs of the courts as well as the strategic objectives of the judicial system. The Council reviews the Budget Request and, following any recommendations, approves it. After approval by the Council, the Budget Request is submitted to the Ministry of Finance, Labour and Transfers, in accordance with the deadlines established in the annual Budget Circular. Following its review and approval, the proposed budget is also submitted to the Assembly of the Republic of Kosovo. Article 11, paragraph 2.5 of the Law authorises the Chairperson to present to the Assembly the budget prepared by the Council, including expenditures related to both the Council and the courts. This statutory arrangement provides the judiciary with an institutional channel through which it articulates and defends its budgetary requirements within the broader state budget process. The budget request provides a detailed overview of the current situation of the judicial system, including the assessment and justification of staffing needs, services, supplies, and capital investments, based on strategic objectives and budget planning according to budget programmes and economic categories. For the year 2026, the Kosovo Judicial Council requested a total budget of €53,900,928, while the approved allocation from the Budget of the Republic of Kosovo amounts to €38,514,055.13. This represents a reduction of €15,386,872.87, or approximately 28.55% less than the submitted budget

request[20].

Staff needs KPC

Based on Article 7, paragraph 1.20 of Law No. 06/L-056 on the Kosovo Prosecutorial Council, the KPC is responsible for the supervision and administration of prosecution offices and their staff. In this regard, the KPC, through the Secretariat, prepares on an annual basis the Personnel Plan, which is prepared based on the provisions of Regulation No. 04/2024 on Personnel Planning[21]. Initially, all heads of administration of organizational units of the prosecutorial system were requested to submit their plans for the necessary staff for each prosecution office. All this data is included in the Personnel plan as well as in the Budget Request. Through this plan, it is aimed to ensure adequate staff, with the knowledge, skills and competencies necessary for the sustainable functioning of the institution and for the provision of high-quality services. The personnel plan includes vacant positions, positions created under new legal/sublegal acts, positions in the recruitment process, the number of pending retirements and the total number of staff requested by Budget request. This plan is presented to the Committee on Budget, Finance and Administration of Prosecution Offices, a standing committee of the KPC.

For the year 2026, the General Director of the Secretariat of KPC approved this plan on 17 April 2026, with decision DPSKPC/No. 157/2026 and on 23 April 2026 forwarded it as a Notification to the Committee on Budget, Finance and Administration of Prosecution Offices.[22][23]

Staff needs KJC

Based on Article 7 of the Law on the Kosovo Judicial Council, the KJC is responsible for the administration, management, and supervision of the judicial system, including courts and their staff. In this regard, the KJC, through its Secretariat, prepares on an annual basis the General Personnel Plan for judges and judicial administration staff, as part of the institutional planning process and the preparation of the Budget Request. The personnel planning process is based on the applicable acts of the KJC, including the regulations on internal organization and the systematization of job positions, as well as relevant instructions and decisions of the KJC. Initially, all courts and departments within the KJC Secretariat submit their staffing needs for each court and the Secretariat itself. All received data are consolidated into the General Personnel Plan, which also serves as the basis for the preparation of the Budget Request for the judicial system. The personnel plan includes existing vacant positions,

	positions, positions in the recruitment process, as well as the number of expected retirements and the overall staffing needs according to the budget request. This plan is reviewed and processed by the relevant structures of the KJC, including the Committee on Budget, Finance, and Administration. For the year 2026, the General Personnel Plan has been approved through relevant decisions of the KJC Secretariat and has been forwarded to the relevant committee as part of the institutional and budget planning process[24]. Furthermore, each court has its own approved organogram, as well as internal regulations on organization and systematization of job positions, which define the organizational structure and the distribution of responsibilities within the court[25]. As part of the budget planning process, a total of two hundred and fifty-one (251) additional positions were requested for the judiciary, of which thirty-seven (37) positions are for judges, one hundred and sixty-six (166) positions are for professional associates, and forty-eight (48) positions are for administrative and support staff, including new positions created based on secondary legislation for the reorganization of the judicial system administration. However, none of these positions were approved by the Assembly and the Government in the 2026 budget. The number of unfilled positions is one hundred and sixty-two (162), of which: seven (7) positions are for judges, thirty-one (31) positions are for professional associates, and twenty-four (24) positions are for administrative and support staff. Of this number, eighty-eight (88) administrative and support staff positions are in the recruitment process. During 2026, eighty-two (82) officials are expected to exercise their right to retirement, of whom eighteen (18) are judges.

Executive summary

The State Prosecutor (SP) is a constitutional, independent, impartial institution responsible for the investigation and prosecution of suspected perpetrators of criminal offenses. The State Prosecutor carries out his mandate based on the Constitution and the legislation in force, within the structure and competencies determined by the legislation in force.

The work of the State Prosecutor is transparent through the publication of work reports, information reports and news on various cases that reflect the work of the prosecution offices. However, the publication of the work report for 2025 is done with the aim of providing detailed and comprehensive work data, to inform the public opinion with the results of the work of the prosecution offices and other activities, including the challenges that the SP has faced during this period of time.

The report provides general information on the work of the State Prosecutor, including the number of prosecutors. It also reflects the criminal reports - inherited, incoming in work and those conducted by the prosecution offices at all levels of the prosecutorial system, the relevant departments of the prosecution offices included and the submitters of these reports, including comparisons with the previous year. In this regard, the number of criminal reports incoming for adult perpetrators, juvenile perpetrators and unknown perpetrators of criminal offenses is also reflected.

In the reporting period, the State Prosecutor, in fulfilling his mandate, has also faced numerous challenges, such as:organization of work and human resources, the process of filling vacant positions for prosecutors, the number of cases inherited from previous years, increasing professionalismas well as other challenges that have affected the results of the work of the SP.

Despite these challenges that have emerged during this period, the State Prosecutor has managed to demonstrate high performance.

WORK PLAN OF THE KOSOVO JUDICIAL COUNCIL - 2026

WORK PLAN 2026

entry

The Kosovo Judicial Council Work Plan for 2026 has been drafted in full compliance with the seven strategic goals set out in the KJC Strategic Plan for the period 2026–2028, as well as in harmony with other strategic documents and the legal framework in force that regulate the organization and functioning of the judicial system in the Republic of Kosovo. This plan represents the basic operational document for the start of the implementation of the Strategic Plan 2026–2028 and aims to strengthen the independence, efficiency, quality, transparency and accountability of the judicial system, in order to increase public trust and improve access to justice.

The actions and activities envisaged in this plan are based on the strategic priorities of the KJC and reflect the recommendations arising from the Functional Review Process of the Rule of Law in Kosovo, as well as the recommendations of local and international institutions that monitor and evaluate the functioning of the judiciary. The plan has also been drafted on the basis of the experience gained from the implementation of previous work plans, as well as the recommendations received during the previous year, with the aim of addressing the identified challenges and advancing the overall performance of the judicial system.

Special attention in this plan has been paid to the strategic pillar of Administrative Justice, which aims at the institutional and functional strengthening of the Department for Administrative Affairs, namely the Administrative Court, in accordance with the Law on the Administrative Court and with the standards of the rule of law. Through this pillar, the KJC is committed to creating the necessary organizational, personnel and infrastructural prerequisites for the full functioning of administrative justice, with the aim of ensuring effective judicial protection of citizens' rights in relation to public administration and increasing efficiency in the handling of administrative disputes.

In addition to the activities set out in this plan, the organizational units and commissions of the KJC shall also implement regular operational activities, in accordance with the respective implementation plans, which constitute an integral part of this plan. The implementation plans of the units, departments and offices shall be submitted to the KJC, respectively the Department for Legal Affairs, within thirty (30) days from the approval of the Work Plan, following a unified methodology and format and in accordance with the pillars and actions set out in this framework plan.

During the implementation of the Work Plan for 2026, the Kosovo Judicial Council, depending on new needs and priorities that may arise, may review and supplement this plan. For the effective implementation of strategic and operational objectives, the organizational units and commissions within the KJC will cooperate and coordinate continuously, with the ultimate goal of providing qualitative, efficient and accessible judicial services to the citizens of the Republic of Kosovo.

The **Kosovo Judicial Council (KJC)**, pursuant to Article 108 of the Constitution of the Republic of Kosovo, Article 7 paragraph 1 subparagraphs 1.1, 1.12, 1.22 and 1.25 of Law No. 06/L-055 on the Kosovo Judicial Council, Article 11 paragraph 12, Article 13 paragraph 3, Articles 17 and 18, and Article 49 paragraph 2 of Regulation No. 02/2020 on the Organization and Internal Activities of the Courts of the Republic of Kosovo, at its 272nd meeting held on 30 November 2021, hereby issues the following:

DECISION

I. The Presidents of the Courts are obliged to submit to the Kosovo Judicial Council the minutes of court collegium meetings, including branch collegium meeting minutes received from supervising judges, together with the quarterly report.

II. This Decision shall enter into force on 30 November 2021.

Reasoning

At its meeting held on 30 November 2021, the Kosovo Judicial Council reviewed the issue of court collegium meeting minutes and their submission to the KJC.

During the review of this matter, the KJC took into consideration the fact that, pursuant to Article 17 paragraph 2 of Regulation No. 02/2020 on the Organization and Internal Activities of the Courts of the Republic of Kosovo, court/branch collegiums examine work-related matters and the activities of the court, results achieved during the previous period, judges' caseloads, the number of resolved and unresolved cases by judge, possibilities for improving working methods, as well as other issues of importance to the work of the court/branch.

Therefore, the Council assessed that, in order to be informed of concerns or potential problems faced by judges and to address them in a timely manner, as well as to ensure the efficient

COURT PRESIDENT'S REPORT

First Quarter – January-March 2026

GJA.no.60/2026

April, 2026

Preface

The Basic Court in Mitrovica and its branches, during this reporting period as well, have demonstrated high work efficiency, with clear and planned objectives, while remaining committed that during the upcoming periods the work within this institution will continue to be carried out in the spirit of essential values, towards strengthening the foundations of an independent, qualitative, accountable, and professional judiciary, by ensuring secure and equal access to justice for all and by working towards strengthening citizens' trust in relation to the justice institutions.

The Basic Court in Mitrovica, despite conducting the work process with reduced human resource capacities due to the well-known circumstances, the work results demonstrate very good commitment, taking into account the specifics of this court, the management of which presents a challenge in itself, which even during this quarter has been managed satisfactorily thanks to the commitment of the judges and the Court staff, who despite the fact that they have been overloaded with work, have ranked the Basic Court in Mitrovica at a higher level of transparency and efficiency.

During this quarterly period as well, the Basic Court in Mitrovica has been at the service of justice and close to its citizens in providing efficient and prompt services, while ensuring equal treatment for all without distinction.

This Work Report reflects the work and commitment of the judges and staff of this Court who have strongly preserved and maintained this institution together with its branches functional, with the aim that during this year this institution will rank with high work results and the implementation of the strategic plans approved by the Judicial Council of the Republic of Kosovo.

Acting President of the Basic Court Mitrovica

26. Objectives of the Basic Court Mitrovica for the Year 2026.....39

Introduction

The Basic Court in Mitrovica during the first quarter of the year 2026 has demonstrated commitment despite being faced with a number of challenges which have been part of the work process in the Court.

For this quarter, the Court adhered to the Annual Work Plan of the Court regarding the organization of work and the needs that the Basic Court in Mitrovica currently has, as well as in compliance with the strategic documents approved by the KJC.

The Basic Court in Mitrovica during this quarter has demonstrated high efficiency in the completion of cases, which is confirmed by the data that will be presented in the content of the report and with the tables regarding the work of each Department, division, and Branch of the Court.

The Court has paid particular importance to the implementation of the strategic plans approved by the Judicial Council of the Republic of Kosovo, the work regulations, and administrative instructions.

Therefore, based on Article 14 paragraph 2 subparagraphs 2.4 and 2.5 of Law No. 06/L-054 on Courts and supported by the Regulation on the Internal Organization and Activity of the Courts of the Republic of Kosovo, the Acting President of the Basic Court Mitrovica presents the Work Report of the Basic Court Mitrovica for the first quarter of the year 2026.

1. Objectives of the annual work plan of the Courts

1.1. Organization of the work of the Basic Court in Mitrovica and its branches

The Basic Court in Mitrovica exercises its activity in two separate facilities in the North and South of the city of Mitrovica, in which facilities the respective departments and divisions are divided, which constitutes a specific feature for our Court in relation to other Courts.

Such division, although presenting a challenge, has not prevented the Basic Court in Mitrovica from exercising its activity without obstacles and in a very transparent manner, including the Branches of the Court in Skenderaj and Vushtrri, whereas the Branches in Zubin Potok and Leposavic are covered by the Basic Court in Mitrovica both in the Criminal Division as well as the Civil and Misdemeanor Division since the end of the year 2022.

Regarding the organization of the work of judges at the Basic Court Mitrovica, the Work Plan for the year 2026 has been implemented, where all judges who have acted within the respective departments and divisions have been determined, working conditions have been ensured for the judges, with challenges in the Civil Department of this Court due to the renovation of the facility in South Mitrovica, as well as in the Serious Crimes Department due to the insufficient number of judges, and during this quarter this Court completed the quarter with only one trial panel, however considering the current conditions, actions have been undertaken in the engagement and appointment of judges who have met the legal conditions to serve in the Serious Crimes Department as well as in the Juvenile Department, and from the month of April cases have already been assigned in support of the Serious Crimes Department and the Juvenile Department, with full assessment that the results in the second reporting period the efficiency will be higher than that in the first quarter.

1.2. Administration of the Court and Responsibilities

The Basic Court Mitrovica, during this period of time, has supported its work and activity on the Court Work Plan for the year 2026, and throughout this quarter the work has been carried out without obstacles, working conditions have been created and duties and responsibilities have been assigned for all employees, with challenges at the facility in the south as a result of its renovation, which is expected to be completed during this year. The Acting President of the Court, during this

period as well, has conducted the daily administration of the Court, in accordance with the rules and procedures determined by the Council, by organizing and coordinating the functioning of the Court, whereas the administration of the Court has been supervised by the Administrator.

The assignment of cases to each judge, as mentioned also in the previous reports, has been carried out proportionally through the SMIL program, as determined by the Regulation on the Internal Organization of the Court and the Regulation on the use of SMIL. In the preliminary procedure in the Serious Crimes Department, the General Department – Criminal Division, and the Juvenile Department, the assignment of cases has been carried out according to duty shifts to each judge in certain time periods according to the agreement of the judges, likewise in the Misdemeanor Division the cases have been received according to duty shifts by each judge, including the Branches.

The professional associates, legal officers, and clerks have provided special support not only to the judges but to the entire Court in general, by offering their contribution with all professional capacities, and this is reflected very well also by the monthly reports which they have submitted to the Acting President of the Court and the Administrator, likewise also by the evaluations made by the judges for the professional associates and legal officers, it is clearly reflected that they are satisfied with the commitment they have shown and the professional assistance they have provided and not only that.

During the first reporting period for the year 2026, the regular working meetings of the judges of the Serious Crimes Department, the General Department – Civil and Criminal Division, were held, who presented the achievements for each department, the challenges they faced, and the objectives intended to be achieved within the year 2026, and these were addressed to the Acting President of the Court, who convened and held the regular quarterly meeting – collegium, in which the achievements, challenges, and objectives for the upcoming phases were discussed.

Regarding the efficiency in the completion of cases, the results related to this issue will be elaborated below, also reflecting statistics in tabular form extracted from the electronic case management system SMIL.

The Basic Court in Mitrovica and its branches, according to the Strategic Plans approved by the KJC, during this quarter as well have paid importance to the completion of prioritized cases according to these strategies. A challenge has been the work within the Serious Crimes Department due to the trial panels, where the Basic Court in Mitrovica during this quarter has functioned with only 4 judges, consequently with only one trial panel, however this does not diminish the excellent performance of the judges, who have acted in full compliance with the Strategic Plan and the Regulations in force, committing themselves to the implementation of the plan and the increase of the performance of the Basic Court Mitrovica.

Visible results have also been achieved in the General Department – Criminal and Civil Division, where the performance and commitment of the judges and Court staff has been maximal, in achieving the objectives of the strategic plan, and the results achieved in this Department are good also for this quarter, which indicates that despite the difficulties the work results have not been lacking.

The civil division of this Court together with its branches has also managed during this quarter to achieve satisfactory results, always with the aim that the reduction of cases be a continuous process for the benefit of the Court's work, and in the service of efficiency and high institutional responsibility.

The Basic Court in Mitrovica during this quarter has also faced challenges within the Misdemeanor Division, with a very high workload of requests received during this reporting period, however the engagement also of other judges with cases has yielded very good results, demonstrating high efficiency in the completion of cases.

It should be emphasized that also during this reporting period the cases have been treated according to their arrival at the Court, legal priorities have been respected as determined in cases such as detention cases, domestic violence cases, corruption cases, and family relation cases from the civil field, as well as those cases foreseen by the strategic plans approved by the KJC.

2. Results Achieved in the First Quarter of the Year 2026 in the Departments and Divisions

2.1.1. Initially, we present the efficiency of the Basic Court in Mitrovica, including the Branches in Leposavic and Zubin Potok, in relation to the cases received and those completed. The efficiency has been very high during this reporting period due to the fact that during this reporting period we received 1435 cases, whereas 2590 cases were completed, with an efficiency rate of **180%.**

2.1.2. The Branch in Vushtrri during this reporting period received 578 cases, whereas it completed 1110 cases, with an efficiency rate of 192%; the explanations of this efficiency of the Branch in Vushtrri are clarified on pages 34 to 38.

2.1.3. The Branch in Skenderaj during this reporting period received 271 cases, whereas it completed 308 cases, with an efficiency rate of 113%; the explanations of this efficiency of the Branch in Vushtrri are clarified on pages 29 to 32.

In overall figures, the Basic Court in Mitrovica together with its four (4) Branches has received a total of 2284 cases, whereas it has completed 4008 cases, with an efficiency rate of 175.5%, respectively 1724 more completed cases than received cases. This is the highest efficiency of the first reporting period (I) that we have ever had, an extraordinarily promising efficiency for such results also in the upcoming periods.

Below we continue to clarify for each Department, Division, and Branch of the Court the demonstrated efficiency;

2.2. Serious Crimes Department, General Department – Criminal Division, and Juvenile Department

2.2.1. Serious Crimes Department

In the Serious Crimes Department, in judicial review, the rate of case resolution in relation to the cases received for this quarterly period is 269%; 16 cases were received whereas 43 cases were completed, while the number of active cases during this period was 473 cases. During this reporting period, the Basic Court Mitrovica – Serious Crimes Department has 430 pending cases remaining. The progress in the reduction of cases in this department, together with the newly received cases, has been on a continuously positive course at least in recent years, and the trend is

promising for a further reduction of the number of cases in this department, so that by the end of the year the number, despite the workload, will be even lower, however from April 2024, we also have one additional trial panel in the assignment of cases, from which we expect higher efficiency.

In the Serious Crimes Department, regarding cases in preliminary procedure, these have been assigned to judges according to duty shifts. During the quarterly reporting period, this department had approximately 156 active cases, whereas 52 of them were resolved, and during this reporting period, out of the 156 cases in preliminary procedure, 58 of them were received during the period January – March 2026. The efficiency of cases in preliminary procedure depends on the engagement of investigations by the State Prosecutor, while the judges in each case undertake actions in accordance with legal priority.

2.2.2. Juvenile Department

In the Juvenile Department, during this quarter we have had a positive trend in relation to the cases received and completed, and the judge of this department has shown good and professional commitment, with unconditional support also from the professional associate and the legal officer, which has resulted in statistical data showing that during this period this department reached a high percentage in the ratio between received and resolved cases, and this department had a percentage of 100%, such that during this period this department received 19 cases, whereas it resolved 19 of them, and at the end of this quarter this department has 112 pending cases.

Regarding the preliminary procedure in this department, there were 94 active cases whereas 22 cases were resolved, thus 72 cases remain pending. Regarding duty shifts in preliminary procedure, this Department also had the support of the Judges of the Serious Crimes Department.

2.2.3. General Department – Criminal Division

In Judicial Review, this department during this reporting period had a total of 1317 active cases, and during this period resolved 258 cases, whereas at the end of this reporting period 1059 cases

remained pending, with a case resolution rate in relation to the received cases of 222%. This is the highest efficiency we have had in this Division; the engagement of the judges is at a very high level, likewise also professional, taking into account that they still cover the Branches in Leposavic and Zubin Potok and a considerable number of cases from the Branch in Skenderaj.

Regarding the Preliminary Procedure in this division, the beginning of this reporting period started with 207 cases, whereas during this period 54 cases were received, with a total of 261 active cases. During this period, 41 cases were resolved, whereas 220 cases remain pending. The efficiency of cases in preliminary procedure depends on the engagement of investigations by the State Prosecutor, while the judges in each case undertake actions in accordance with legal priority.

The data elaborated above are reflected as follows:

2.4. General Department – Civil Division

2.4.1. Basic Court Mitrovica – General Department – Civil Division

The Civil Division during this quarter has faced commitment and good work results, despite the challenges it has.

In the Contested Matters field, at the beginning of this reporting period this Court had approximately 5359 active cases, whereas it received 396 such cases, with a total number of 5755 active cases, of which during this quarter it resolved 979 cases, whereas at the end of this reporting period 4775 cases remain pending, with a resolution rate in relation to the received cases of **247%.**

In the Non-Contested Matters field, at the beginning of the reporting period this division had 137 pending cases, and during this reporting period 47 cases were received, with a total number of 184 active cases, whereas 39 cases were resolved, with 145 cases remaining pending at the end of the reporting period, with a resolution rate in relation to the received cases of 83%.

In the Enforcement field, the Basic Court Mitrovica during this quarter had the following situation: The active cases during this reporting period were a total of 784 cases, whereas 143 cases were resolved, thus 641 cases remained pending, with a case resolution rate in relation to the received cases of **152%.**

2.4.2. Misdemeanor Division

During this reporting period, this Division was also supported by judges from the criminal field, and during this quarter it had the following situation:

At the beginning of the reporting period there were 998 active cases, 440 cases were received, with a total number of 1438 active cases. During this period, 631 cases were resolved, whereas this quarterly period closes with 807 pending cases, with a case resolution rate in relation to the received cases of **143%.**

Regarding cases of the nature of Procedural Costs, the Basic Court in Mitrovica had the following situation: At the beginning of the reporting period January – March 2026, the Court had approximately 416 pending cases of this nature, whereas during this quarterly period 88 cases of this nature were received, bringing the total number of cases of this nature to 504 cases relating to procedural costs. During this reporting period, approximately 213 cases of this nature were resolved, whereas at the end of this reporting quarter, 291 cases remain pending, with a case resolution rate in relation to the received cases of **242%.**

19. Execution of Criminal Sanctions

In the field of execution of criminal sanctions, as a result of prior engagements and with the aim of executing judicial decisions, the Basic Court in Mitrovica – Branch in Vushtrri is now in a very good condition, currently with only 53 cases. All of these include legal actions such as orders, domestic and international arrest warrants, as well as international wanted notices.

20. Mediation

In the field of mediation, the Basic Court in Mitrovica – Branch in Vushtrri during the period January – March 2026 had 19 pending cases. During this quarter, a total of 30 mediation cases were received, whereas 24 cases were successfully resolved through mediation, and 13 cases are still in the mediation process.

21. Publication of Court Hearings

The publication of court hearings is a legal obligation; therefore, continuous efforts are being made to ensure that the schedule of court hearings is accessible to all interested parties for those hearings that are public. Judges, when scheduling hearings, ensure that they are set through the electronic system and automatically published in the hearing schedule on the official Court website.

22. Publication of Judicial Decisions

Regarding the publication of judicial decisions, it should be noted that judges are continuously reminded of their obligation regarding the publication of judicial decisions. For this quarter, the Basic Court in Mitrovica – Branch in Vushtrri has published a total of 405 judicial decisions.

23. Administrative Services

In the first quarter of 2026, more than 1000 citizens requested services at the Basic Court in Mitrovica – Branch in Vushtrri. Among the most frequently requested services was the issuance of certificates from the criminal records registry, with approximately 944 citizens being served during this quarter, followed by requests for apostille stamps, with which 178 citizens were served. During this quarter of 2026, 14 criminal-related requests were submitted, including requests for deletion from criminal records and early release requests.

24. Open Judiciary Days – Meetings with Citizens

The first quarter of 2026 was marked by a significant number of activities carried out by the Office of the

President of the Court. During this period, a series of open meetings with citizens were held, where citizens had the opportunity to become closely acquainted with the work and activities of the Court, as well as to express their concerns regarding possible dissatisfaction with the services of this Court and its procedures.

The citizens were received by judges with extensive academic and professional experience, who responded to all their questions and concerns.

26. Objectives of the Basic Court Mitrovica for the Year 2026

The Basic Court in Mitrovica, in the current circumstances, with this level of engagement aims to fully implement its Work Plan and the Strategic Plans approved by the Kosovo Judicial Council (KJC) during the year 2026. The progress of the first three quarters is extremely promising for full implementation of the Work Plan, demonstrating high efficiency and results that exceed the planned targets, while respecting the legal obligations we have as a Court and as judges in an individual capacity.

Special attention will be given to cases with legal priority, cases older than two years, and by the end of the year the aim is to have a lower number of pending cases, ensuring that such cases are processed and all necessary actions are undertaken towards their resolution. Furthermore, the Court aims to achieve very good results in the overall functioning of its work during this year, working towards a more efficient administration and faster services for all citizens, ensuring high transparency and timely services, thereby increasing citizens' trust in the institution.

REPUBLIKA KOSOVA – REPUBLIC OF KOSOVO

GJYKATA THEMELORE NË FERIZAJ

OSNOVNI SUD U PRIZRENU – BASIC COURT OF FERIZAJ

COURT PRESIDENT'S REPORT

First Quarter – January-March 2026

1. Implementation of the Court's Annual Work Plan

1.1 Organization of the work of the court

In order to achieve the objectives of the court's work plan, at the beginning of 2026, the work plan of the court and its branches was drafted, which plan preceded the discussion with the heads of the relevant departments and the supervising judges of the branches, where we envisaged strengthening the professional capacities of judges, professional associates and administrative staff. Also during this period, we had meetings with the heads of departments, and with judges of the relevant divisions, where the results, challenges and efficiency of resolving cases and finding alternative and efficient ways of resolving cases were discussed.

1.2 Court administration and responsibilities

Within the framework of the administration of the Court and its branches, and with the aim of increasing responsibility and accountability, through the 2026 work plan, each official has been defined and systematized according to the structure of the administration, in the position in which they are planned to be engaged, including professional associates who have been assigned to judges, clerks in certain areas and legal officers with whom judges are assigned to work. Although we have a shortage of filling certain positions, there is also a shortage of courts' messengers' positions, where we are currently operating with one messenger and two security guards who were temporarily assigned to perform the duties of messengers.

1.3 Implementation of strategies and legislation

Implementation of strategies and legislation in the Basic Court in Ferizaj, where the work plan also defines the objectives arising from these documents. We are now in the first quarter and the judges, according to the work plan are oriented towards the completion of cases that are older than 2 years, and part of the time and work of the judges has been oriented towards this direction, within the framework of the strategies, since the number of incoming cases has been large and has influenced the percentage and the final result, even though the judges have already scheduled in the second quarter and in the following periods to focus on handling cases according to strategic plans.

1.4 Monitoring and reporting

Judges have reported on a regular basis on their work, the report on completed cases, on cases that fall within the framework of strategic plans, and this has been done continuously by monitoring work reports, completed cases and the manner of resolution.

2. Implementation of the KJC Strategic Plan

2.1 Independent, efficient and transparent judiciary

In order to achieve this objective, and in order to increase trust in an independent, efficient and transparent judiciary, the publication of court hearings and decisions has continued, and the president and vice president of the court have held regular meetings with citizens, and all requests for meetings with the president have been addressed and directed to the judges of the cases.

2.2 Organization and management of work

The Basic Court in Ferizaj has implemented its work plan regarding the organization and management of the work in the court, so that through this plan the organization of the court, departments, divisions in the court and its branches have been determined. The duties of each administration official have also been defined.

2.3 Quality, accountability and professionalism

Regarding quality, accountability and professionalism, this objective is continuous and aims to be continuously improved, namely the quality and professionalism of judges through training, roundtables that affect the training of judges, while accountability through continuous supervision and monitoring of the work of judges, where the same report to the Statistics Officer every month, and are monitored by the president through the CMIS system.

2.4 Access to justice

According to the work plan, the court has implemented the strategic plan for improving access to justice, providing equal services to all citizens. The use of digital technology, where court hearing schedules are published online, judgments are published, various announcements are made, and meetings are held with court staff officials regarding equal access to parties receiving services in court.

2.5 Public trust and satisfaction

In order to increase public trust and satisfaction, the Office for Information and Communication with the Media during the second quarter has received 15 requests for Access to Public Documents, in the Basic Court in Ferizaj together with its branches 937 court decisions have been published. 88 requests for information received from the media and various civil society organizations submitted via official e-mail have been reviewed and handled. 1 disciplinary decision has been published, as well as 8 written press releases have been published.

2.6 Technology in the service of justice

Regarding technology and its use in order to increase efficiency or improve access to justice, the CMIS system is now operational and in use in all procedures in the court and its branches. We have an improvement in the skills of court officials in using this system.

3. Communication Strategy

The Office of Information and Media Communication, in collaboration with the Office of the President, has ensured that the public is informed about the work of the court through announcements, communications and various information that the parties, the media and civil society have had.

4. Other strategies and plans

The Basic Court in Ferizaj and its branches have defined in their work plan the implementation of strategies and plans approved by the KJC as their main objective.

5. Implementation of the judges' norm

Monitoring the workload of judges remains a challenge for the Presidents of Courts, because there is no mechanism that will automatically calculate the monthly, quarterly or annual workload of judges through the CMIS system, and this is currently being done manually by the judges' offices and from time to time we receive reports on the workload of judges from the Statistics Office at the KJSC.

6. Trainings

Judges have participated in trainings planned and organized by the Academy of Justice, also judges from the Basic Court in Ferizaj have participated in roundtables organized by various local and international institutions, according to requests and invitations from the organizers but without affecting the assigned court work and sessions. All judges of the Basic Court in advance complete the training form, informing the president on the days they will be in training, which form is approved by the president and then is sent to the Academy of Justice.

COURT PRESIDENT'S REPORT
First Quarter – January-March 2026

Pursuant to Article 14, paragraph 2, subparagraph 2.5 of the Law on Courts and paragraph 5 of Article 11 of Regulation No. 02/2020 on the Internal Organization and Activities of the Courts of the Republic of Kosovo, the President of the Basic Court in Gjilan hereby submits the regular work report.

The regular work report of the Basic Court in Gjilan covers the reporting period from 1 January until 31 March 2026.

I. Introduction

The report of the Basic Court in Gjilan presents all statistical data for this period, the achievements, challenges, as well as the obstacles encountered during this period, including proposals for filling vacant positions foreseen by the organizational chart and remedial measures.

II. Structure of the Basic Court in Gjilan and its Branches

The Basic Court in Gjilan currently has 18 active judges, including the President of the Court. The Kamenica Branch has 3 active judges and two judges from the main court assigned to civil litigation cases. The Viti Branch has 6 judges, where one judge from the main court is engaged in civil litigation cases. Meanwhile, in Novobërdë, there is the Branch Supervisor who is also engaged in the main court; however, during this quarter, one additional judge was assigned to this branch for civil litigation cases and one judge from the Kamenica Branch was assigned to criminal and misdemeanor cases.

In the Serious Crimes Department, 4 judges were engaged during this quarter (one of whom retired in March), and all judges of this department are also assigned cases from the General Department – Criminal Division at the main court. Since the beginning of the year, they are no longer engaged in the court branches, as this has been foreseen in the Work Plan for this year.

One judge works in the Juvenile Department and, at the same time, is assigned criminal cases from the General Department, whereas in the General Department – Criminal Division, during this quarter only one judge worked and received cases. However, as stated above, pre-trial proceedings and case coverage are handled by judges from the Serious Crimes Department.

In the General Department – Civil Division, during this quarter cases were assigned to 7 judges, while 2 additional judges are also engaged in adjudicating civil cases, although they do not receive new cases.

In the General Department – Misdemeanor Division, two (2) judges were engaged during this quarter.

Branch of the Basic Court in Kamenica: This branch currently has 3 regular judges, including the branch supervisor. Two judges are assigned civil litigation cases, whereas the supervisor is assigned criminal and misdemeanor cases and, at the same time, adjudicates criminal and misdemeanor cases in the Novobërdë Branch as well. Four judges from the main court (Kaltrina Haliti, Liridona Haziri, and Bekim Salihu) are also engaged in this branch with civil litigation cases, as well as Judge Erlinda Elezi in pre-trial procedure cases.

Branch of the Basic Court in Viti: This branch currently has 6 regular judges. Three of them are assigned to the Civil Division, two judges to the Criminal Division, and one judge to the Misdemeanor Division, who also handles civil litigation cases but is not assigned new cases. At the beginning of the year, we carried out a redistribution of old cases in this branch, whereby cases were taken from three judges and assigned to two judges (Alush Sinani and Edona Zuzaki), the latter being a judge from the main court who, during the previous year and throughout this quarter, assisted this branch. During this quarter, in this branch we succeeded in ensuring that judges worked on cases received by the court during 2024 and 2025; therefore, almost all other cases older than these years, including cases from these two years, are under review, except for cases with procedural issues.

Branch of the Basic Court in Novobërdë: In this branch, we have the Branch Supervisor who adjudicates cases of the Civil Division, and during this quarter we also engaged one judge from the main court (Berat Spahiu) for civil litigation cases. Whereas, the cases of the General Department – Criminal and Misdemeanor Division from the Kamenica Branch are assigned to and adjudicated by Judge Valbonë Dërvodeli, while the President of the Court, Venhar Salihu, is engaged in pre-trial proceedings.

At the Basic Court in Gjilan, cases are assigned through the SMIL Program System, as determined by the Regulation on Court Activities.

General statistics

The Basic Court in Gjilan, together with its branches, achieved a case resolution efficiency rate of 102% during the first quarter (January–February–March). We consider this to be a very good level of efficiency; however, our efforts and commitment remain focused on increasing this percentage even further.

IV. Fulfilment of objectives

a) **Reduction of judges' caseloads and allocation of cases:** According to the Work Plan for this year, one of the objectives foreseen is the continuation of the trend toward equal distribution of cases among all judges, an objective that has also been achieved during previous years. Regarding the engagement of judges at the main court, almost all judges are satisfactorily engaged, whereas in the branches, particularly in the Viti Branch, there is room for significantly greater engagement than currently exists. During this quarter, we visited the branches, met with the judges, and requested that they increase their level of engagement considerably. We also requested that cases be scheduled according to order of priority, namely old cases, retrial cases, and cases with legal priority.

b) **Assignment of cases in the General Department, Civil and Criminal Division:** With regard to civil litigation cases, during this quarter we also achieved the key objective, whereby judges at the main court, in the Novobërdë Branch, and in the Kamenica Branch are working on cases received by the court during 2025, and all preparations have been completed for the scheduling of cases received during this quarter. Likewise, in the Criminal Division, cases received during 2025 and 2026 are being assigned. As regards the Viti Branch, as mentioned above, we carried out a redistribution, and now the judges of the civil field are working on cases received by the court during 2024–2025.

c) **Old cases, retrial cases, and cases with legal priority:** Regarding retrial cases and cases with legal priority, we have also achieved our objective in this regard, and in our court (including the branches) there is almost no case (except those with procedural issues) that has not been scheduled within the 30-day deadline as foreseen by legal provisions. As for legally prioritized cases, our court has already reached a standard whereby labour disputes, family disputes, and possession obstruction disputes are scheduled within a period of up to three months from the date of receipt by the court; however, during this quarter, these cases were scheduled almost immediately. As regards criminal cases, we have not encountered problems in their scheduling and processing, since the law grants priority to criminal matters.

d) **Serious Crimes Department and Juvenile Department:** All corruption and organized crime cases are under review by the judges of this department, and the trend of case resolution is positive (135%). At the same time, these judges are also burdened with cases from the General Department – Criminal Division. The situation is likewise stable in the Juvenile Department, where the efficiency rate for this quarter was 138%; however, this judge is also engaged in criminal cases of the General Department.

e) **Minor offense Division:** During this quarter, the situation in this division was more challenging compared to previous months; however, we engaged an additional judge from the Civil Division to cover part of this division's workload.

f) **Enforcement office:** In this office, there has been maximum engagement of the clerical staff during this quarter, and in all enforceable cases, the actions foreseen for their execution have been undertaken, including fines, substitutions in cases where fines have not been paid, submission of documentation to the Kosovo Correctional Service for the serving of sentences by convicted persons, issuance of orders to the Kosovo Police for the execution of sentences, and continuous reiteration of urgent requests for the enforcement of prison sentences, as well as many other actions aimed at executing as many cases as possible. The situation is very stable compared to the beginning of the mandate.

g) **Increasing the transparency of the court:** During this quarter, we also contributed to increasing transparency by receiving citizens, lawyers, representatives of NGOs, representatives of local institutions, and civil society in meetings. We received several requests for access to official documents, as well as inquiries from journalists, and responded to these requests within the prescribed deadlines. Furthermore, we made efforts to publish as many court decisions as possible, and during this quarter we published 848 court decisions.

V. Identification of problems faced by the court

Some of the challenges encountered during the period January–March 2026 are similar to those of the previous quarter; however, we have also faced additional challenges, which are listed below:

a) One of the challenges faced by this court during this quarter has been the cases in the Civil Division. Despite the fact that there has been a noticeable decrease in incoming cases, this division nevertheless remains the most burdened division in comparison with other divisions and departments, both at the main court and in the branches. The judges of the civil field working at the main court are heavily burdened with numerous hearings and are handling old cases, retrial cases, and cases with legal priority, while the team of professional associates finalizes cases arising from collective agreements. We consider that all of them cooperate effectively with one another, and this has resulted in the positive outcome achieved. During this quarter, compared to previous months, the Court operated with fewer judges; nevertheless, judges, professional associates, and other staff, particularly at the main court, have made an extraordinary contribution toward increasing efficiency. Another challenge has been the activation and engagement of certain judges in the branches, so that they become more engaged and compete with judges at the main court, considering that judges in the branches have the same supporting conditions as judges at the main court, particularly in the Viti Branch.

Furthermore, during this quarter we encountered challenges in the Serious Crimes Department and the General Department – Criminal Division, since two judges have already retired. We mainly faced problems in the establishment of judicial panels because, in addition to the retirement of one judge, another judge in this department has a spouse who serves as a prosecutor, and in all cases where that prosecutor initiates investigations or files indictments, the judge is excluded from adjudicating that particular case. Therefore, in the Serious Crimes Department, out of the three judges, only two receive such cases, in addition to the fact that one of these two judges has

acted in pre-trial proceedings. Consequently, we functioned with only three judges, which created a challenging situation; however, we undertook measures by assigning two additional judges to this department. Regarding the General Department – Criminal Division, we also undertook measures whereby, during these three reporting months, we assigned two judges from the Civil Division to handle and adjudicate cases of the Criminal Division, and we are continuously analyzing the situation and, depending on the need, we will engage additional judges.

b) Administrative staff, namely legal officers/legal secretaries: some of them are of advanced age and experience health problems, difficulties with the use of technology, and additionally we have a shortage of legal officers. Specifically, we have three judges without legal officers; however, they are supported by interns and partially by officers temporarily assigned from other judges, as well as by professional associates.

c) Regarding the administrative staff that has been employed, we encountered various problems in the organization of work during this quarter as well; however, by now all staff members respect the working hours, workplace, and work duties, and are maximally engaged in carrying out their duties, except for isolated cases.

d) For the Basic Court in Gjilan together with its branches, another issue remains the insufficient number of judges (we are covered only at the minimum level according to the organizational chart); however, fortunately, we are functioning and working intensively.

e) Another challenge concerning criminal cases is the shortage of prosecutors both at the main court and in the branches of Kamenica, Viti, and Novobërdë, where there is a pronounced lack of prosecutors. Regarding this issue, we have held several meetings with the Chief Prosecutor of the Basic Prosecution Office in Gjilan, who informed us that the situation cannot improve until the vacant positions within this prosecution office are filled. However, four prosecutors have now been appointed to this prosecution office, they are currently active, and we expect the situation to improve. During this quarter, we reached an agreement with the prosecution office whereby prosecutors from the Serious Crimes Department represent cases of the General Department and the court branches, with the aim of preventing the postponement of court hearings, which has also positively affected efficiency.

f) Regarding the SMIL System, as noted above, we have presented the statistics; however, these statistics are not entirely accurate concerning the workload of judges and the court in general. Continuously, together with the responsible persons from the Secretariat of the Kosovo Judicial Council (SKGJK), the SMIL officer, and IT staff, we have made efforts to eliminate these errors in the statistical reports and other related issues. Nevertheless, up to this moment, we have not succeeded in achieving 100% accuracy, and this undoubtedly presents difficulties in the daily work of the court. At the same time, the work performance expressed in percentages is actually higher than what is reflected in the system.

g) Regarding technology, we face a shortage of functional printers in the offices of both judicial and administrative staff, as well as in the registries. There are also continuous problems in the courtrooms, despite the fact that audio-visual equipment has now been installed in one courtroom of our court and computer equipment has been replaced in several others. However, on a daily basis we continue to receive numerous complaints regarding these issues, which we have addressed to the responsible persons, but to date no improvements have been made.

h) During this quarter, another identified challenge was the functionality of the Centralized Translation System within our Court. The use of this system has been limited due to the lack of technical knowledge among the relevant staff, as well as the lack of adequate technological equipment. In this regard, concrete steps have been undertaken to address the problem. Through the Court Administrator and the Translation Office, the organization of the necessary training sessions for the staff using this system has been requested. Likewise, it has been requested that the court be supplied with computers compatible with the system in question, in order to ensure its more efficient and uninterrupted functioning. The implementation of these measures is expected to have a direct impact on improving the quality of court translations, as well as accelerating the relevant administrative and judicial procedures.

VI. Proposal of Remedial Measures

We request from the Kosovo Judicial Council (KJC) and the Secretariat of the Kosovo Judicial Council (SKGJK) the recruitment of judges, professional associates, legal officers, and translators for this Court and its branches, by filling the unoccupied positions. In this way, the vacant positions will be completed, while we as a court will further increase efficiency and contribute even more to the general interest and to increasing public trust in the justice system. Furthermore, it is necessary to organize training sessions for the administrative staff and professional associates, particularly training in legal drafting and legal reasoning, as well as on various legal institutes.

VII. Achievements

During the first quarter of 2026, in each department, division, and branch there was a decrease in efficiency compared to the previous quarter, despite the fact that the engagement of all employees was not lacking. This is certainly related to the fact that during the month of January, the majority of judges and other supporting staff utilized their winter leave. Accountability and responsibility are increasing day by day on the part of judges, professional associates, and other staff, and we almost have no problems regarding compliance with working hours, workplace attendance, and work duties by all employees of this Court. Furthermore, the efficiency, accountability, and responsibility of all employees of this court continue to increase every day.

VIII. Conclusion

Based on the statistical data, we are satisfied; however, as stated above, we continuously make efforts, request, and discuss with judges and other administrative staff in order for them to be more effective. With regard to judges, we have continuously requested that they schedule and process as many cases as possible, schedule retrial cases and cases with legal priority, and handle cases based on the principle of the order in which they were received by the court. I believe that in the coming months there will be even greater results in the completion of cases. We will make even greater

efforts to assist the branches, as we have done thus far, with the aim of achieving the same standards regarding the scheduling and handling of cases as we have achieved at the main court and in some branches.

With regard to transparency, accountability, objectivity, impartiality, and independence, we continuously request and encourage judges to remain independent and impartial in the handling of cases, since increasing trust in the Basic Court in Gjilan and in the justice system in general is one of the main objectives, and this can only be achieved through serious and continuous work and engagement by all employees of this court.

President of the Basic Court in Gjilan,
Venhar Salihu _____

COURT PRESIDENT'S REPORT

First Quarter – January-March 2026

I.AGJ.nr.1/2026-28

Date: 23 April 2026

TO THE KOSOVO JUDICIAL COUNCIL OF THE REPUBLIC OF KOSOVO

REPORT ON THE WORK OF THE BASIC COURT AND ITS BRANCHES IN DRAGASH AND SUHAREK

Pursuant to Article 14, paragraph 2, subparagraph 2.5 of the Law on Courts, I hereby submit the report for the first quarter (january– march) of 2026.

Allow me to begin this report by informing the Kosovo Judicial Council (KJC) that, during the first quarter, the Basic Court in Prizren recorded an increase in efficiency and performance in case resolution, achieving over 100% efficiency across all departments and divisions. At the same time, there has been a significant decrease in the number of active and pending cases, indicating clear signs that throughout 2026 the number of active cases is expected to decline substantially at this pace and that cases will be adjudicated within a reasonable period of time.

From an organizational perspective, there have been several reallocations of judges based on caseloads and the need for engagement within specific divisions.

Two (2) judges who completed the one-year training phase at the Academy have been assigned to the Civil Division, while one (1) judge has been reassigned to the Criminal Division. The Criminal Division now consists of six (6) judges, and six (6) judges are assigned to the Department for Serious Crimes.

One (1) female judge is currently undergoing training at the Academy and will be assigned to a division according to institutional needs.

During the first quarter, the Civil Division undertook additional efforts by registering all cases that had been pending, while all final and enforceable cases that met the requirements for archiving were archived.

A working group was also established for the preliminary review of contentious cases.

Following a reorganization process, the Basic Court in Prizren has achieved a work pace that is producing positive trends in terms of results, efficiency, organization, and the allocation of work.

Among other activities, as President of the Court, on designated days we organize “Open Days,” during which we meet with citizens and interested parties. Their concerns and requests are addressed and handled in cooperation with judges and support staff.

During this quarter, the President of the Court held separate meetings with judges from each department and division, as well as with the heads of administrative offices. On 2 February 2026, a meeting was held with judges of the General Department – Criminal Division, during which the judges were informed of the transfer of Judge Lavdim Makshana to this division. Discussions were also held regarding the decision pursuant to which Judge Lavdim Makshana would be assigned 70 cases from each judge of the Criminal Division. In addition, the agenda included judges’ statistical reports for 2025 and various other matters.

On 16 March 2026, a meeting was held with judges from the Department for Serious Crimes, the Juvenile Department, and the General Department – Criminal Division. The discussions focused on the work report, the reorganization of professional associates, and various other issues.

On 17 March 2026, a meeting was held with judges from the General Department – Civil Division. The topics discussed included the work report, the transfer of cases to the Administrative Court, the reorganization of professional associates, and various other matters.

On 19 March 2026, a meeting was held with judges from the General Department – Minor offence Division, during which the work report, work organization, and various other issues were discussed.

Also on 19 March 2026, together with the Court Administrator, a meeting was held with the Enforcement Office and the judge responsible for enforcement matters, during which various issues related to the proper functioning of that office were discussed.

Furthermore, on 6 March 2026, together with the Head of the Legal Support Office, a meeting was held with the court’s professional associates. During this meeting, the associates’ work reports for the period January–February 2026 were discussed, as well as the reorganization of work, the reassignment of professional associates, and various other matters.

On 2 April 2026, during the first quarter, the regular plenary meeting was held with all judges of the Court. The agenda of this plenary meeting included the general work report of the Court and its judges for the first quarter of 2026, the work plan for the second quarter, as well as various other matters that were discussed with the judges.

Court Performance – Departments and Divisions Expressed as an Efficiency Rate in Percentage

During the first quarter of 2026, the Court as a whole achieved stable results and continued to demonstrate good efficiency performance based on the percentage of cases received and cases resolved.

Expressed and presented as percentages, the efficiency rates are as follows:

Basic Court of Prizren

Department for Serious Crimes – Case resolution rate: 80% (24 cases resolved)

Report on the Publication of Judgments

The publication of judicial decisions is now both a duty and a legal obligation, which the Basic Court in Prizren fulfills in accordance with the applicable administrative instructions.

During the period January–February–March, a total of 1,184 judicial decisions were published.

Basic Court in Prizren – 890 decisions;
Basic Court of Prizren, Suharekë Branch – 247 decisions;
Basic Court of Prizren, Dragash Branch – 47 decisions.

On average, the Basic Court in Prizren publishes between 350 and 450 decisions per month, depending on the efficiency of case resolution.

All judicial decisions issued from March onward are processed and published in accordance with the new Administrative Instruction on the Publication of Judicial Decisions.

Engagement of Professional Associates

Regarding the work of professional associates, they submit their monthly work reports to the Head of the Legal Support Office at the end of each month. Following the entry into force of the Guideline on the Workload Standards of Professional Associates, the reports have been submitted based on calculations made in accordance with that guideline. In this regard, we have created a comprehensive scoring table containing the results achieved by each professional associate. Furthermore, together with this report, we have attached the corresponding scoring table.

During the second quarter of this year, a shortage of professional associates is expected, as two of them have been selected as judges and are awaiting appointment by decree, one professional associate has been promoted to the Supreme Court, while three other professional associates are currently on maternity leave.

Execution of Judgments in Civil and Criminal Proceedings

The President of the Court directly supervises the execution of criminal court judgments, and the efficiency of these offices exceeds 100%. The Office for the Execution of Criminal Sanctions and the Civil Enforcement Office continuously submit monthly reports on their work and activities to the President of the Court. These reports are incorporated into the regular quarterly reports submitted to the Kosovo Judicial Council and approved at KJC meetings.

Basic Court of Prizren
Criminal Enforcement

During the first quarter, the Office for the Execution of Criminal Sanctions received 20 prison sentences for execution and executed 26 sentences, while 76 active cases remained pending. With regard to fines, 104 fines were received, 133 monetary penalties were executed through payment, and 25 fines were converted into and executed as imprisonment sentences. A total of 329 active cases remained pending.

Civil Enforcement

During the first quarter, the Enforcement Office received 391 cases, executed 292 cases through payment, while 3,037 active cases remained pending.

Enforcement of Minor offence Sanctions

During the first quarter, this office received 146 fines, executed 117 fines through payment, while 61 sanctions became time-barred.

Basic Court – Suharekë Branch

Execution of Imprisonment Sentences: At the beginning of the reporting period, 16 cases were carried over, 4 new cases were received, and 2 imprisonment sentences were executed. A total of 18 cases remained in the enforcement procedure, with all necessary actions undertaken by the Court. During this period, no case became time-barred.

Execution of Fines: At the beginning of the reporting period, 87 cases were carried over, 39 new cases were received, 35 cases were resolved, and 91 cases remained unenforced.

Judicial Flat-Fee Costs: At the beginning of the reporting period, 583 cases were carried over, 63 new cases were received, 33 cases were resolved, and 573 cases remained unenforced.

Minor offence Cases: At the beginning of the reporting period, 211 cases were carried over, 110 new cases were received, 54 cases were resolved, and 267 cases remained unenforced.

Basic Court – Dragash Branch
Criminal Enforcement

During the first quarter of 2026, the Office for the Execution of Criminal Sanctions at this branch of the Court received 15 cases, executed 11 cases, while 73 active cases remained pending.

Civil Enforcement

During the first quarter, there were 62 active cases at the Dragash Branch, of which 2 were resolved.

Additionally, during this quarter, 18 cases were resolved and 252 cases remained active (including enforcement cases based on authentic documents, enforcement documents, court costs, and all other categories of cases).

Report on the Cancellation/Postponement of Court Hearings

Since September 2024, the Court has published 100% of its court hearings on the KJC website, thereby overcoming the technical obstacles that had previously existed. All judges' offices have been instructed to follow the same practice by scheduling hearings in a timely manner and recording them in the SMIL system.

According to data obtained from the SMIL system for the Basic Court in Prizren and its branches in Suharekë and Dragash, the number of hearings scheduled in resolved cases is as follows:

Out of 2,611 scheduled hearings, 352 hearings were cancelled or postponed, representing 13%.

According to the processed data, the main reasons for the cancellation or postponement of hearings were the failure of defendants to appear (in criminal cases), the absence of parties in proceedings (in civil cases), the failure of summoned witnesses to appear, or postponements requested by the parties. A very small percentage of postponements resulted from the absence of defense counsel or prosecutors, as well as other reasons related to official duties.

Department for Serious Crimes – 102 hearings scheduled, 22 postponed/cancelled.

Juvenile Department – 59 hearings scheduled, 3 postponed/cancelled.

Criminal Division – 731 hearings scheduled, 130 postponed/cancelled.

Civil Division – 947 hearings scheduled, 69 postponed/cancelled.

Basic Court of Prizren – Suharekë Branch

Criminal Division – 162 hearings scheduled, 70 postponed/cancelled.

Civil Division – 524 hearings scheduled, 51 postponed/cancelled.

Basic Court of Prizren – Dragash Branch

Criminal Division – 43 hearings scheduled, 5 postponed/cancelled.

Civil Division – 43 hearings scheduled, 2 postponed/cancelled.

January - March 2026

CA.no. 1388/26

16 April 2026

WORK REPORT OF COMMERCIAL COURT

(Period 1st of January - 31 March 2026)

Based on Article 16, paragraph 2, point 2.5 of the Law on the Commercial Court, President of the Commercial Court of the Republic of Kosovo presents the Ist Quarter Work Report for the period of 2026 year (1 January – 31 March 2026).

Commercial Court of Kosovo, through this Report, presents in a summarized manner the work of the Court for the Ist Quarter Work Report of 2026 year by presenting challenges during this reporting period both in the professional and administrative aspects, with an aim of presenting volume of the completed work, as well setbacks and challenges, whether in the judicial or administrative procedural aspect likewise in logistics which may have impeded the work process.

Commercial Court on 19 December 2025 has drafted Annual Work Plan of Judges and Administration of Commercial Court for 2026 year, having an aim to address judicial matters as efficient as possible, and in order to handle and resolve them as soon as possible and within a justifiable period of time.

Through the annual plan of the Court have been appointed Judges and Head of Departments who will adjudicate in the First Instance Chamber, among others, through this plan has been defined organization of work in the First Instance Chambers; Second Instance Chambers; organizing work of the judicial administration, functions, assignment of cases, working hours, code of conduct, scheduling main trials and publication of their schedule, publication of Judgements and Rulings, planning meetings of the Court's panel of Judges and of the Court administration, implementation of Electronic Case Management Information System – CMIS; trainings on the use of Information Technology, Legal Unit, etc.

Commercial Court of Kosovo, during this reporting period has completed its professional work process with eighteen (18) Judges, six (6) of them adjudicating in the Second Instance Chambers, whereas twelve (12) Judges are assigned to the First Instance Chambers.

The current number of Judges assigned to the Commercial Court, respectively in the First Instance Chambers and the Second Instance Chambers is considered sufficient for the most efficient and effective resolving of cases during the current period of the present year. This, as well by taking into account the fact that cases of the Fiscal Department and of the Department for Administrative Matters upon the functionalization of Administrative Court shall be transferred to the jurisdiction of the present Court.

Therefore, considering competencies of Commercial Court and an increasing trend of received cases and of those under its jurisdiction, which during this reporting period are registered to be 5,764 cases of the Department for Commercial Matters and General Department is assessed that current capacities are in accordance with an existing workload and enable more sustainable management of the cases.

Challenges and difficulties that the Court has faced and is facing, even during this Quarter, since the Court has become functional in August of 2022 year are related to the shortcoming of spaces in order to perform official tasks.

Office of the President of the Court

President of the Court, in order to organize the work of the Court and its complete functionality, likewise judicial functions of the Court Departments, during this reporting period has held meetings with the Judges of the Court, Head of Court Departments and, as needed, special meetings were held with Judges, entire this with an aim to increase efficiency of the Court's work.

During this period, President of the Court has held numerous meetings with stakeholders' whose activities may have an impact in terms of increasing efficiency, but also increasing credibility of public opinion in general in the judicial system.

In relation to the disciplinary decisions for Judges, during this reporting period, the competent authority of Commercial Court has recorded three (3) requests on the initiation of disciplinary proceedings.

Office of the President of Commercial Court, during this period January - March 2026 has decided on 44 requests on the exclusion of Judges and 247 decisions on the re-assignment of Judges. *(number of decisions for re-assignment of Judges is as a result of shortcomings in CMIS, where all submissions received by the Court during this period at the time of uploading in the CMIS have changed the name of a Judge who was assigned to the case according to its automatic allocation by re-assigning another Judge, as well appointment of new Judges to the Second Instance Chambers, the figure of 247 is for decisions and not for the cases).*

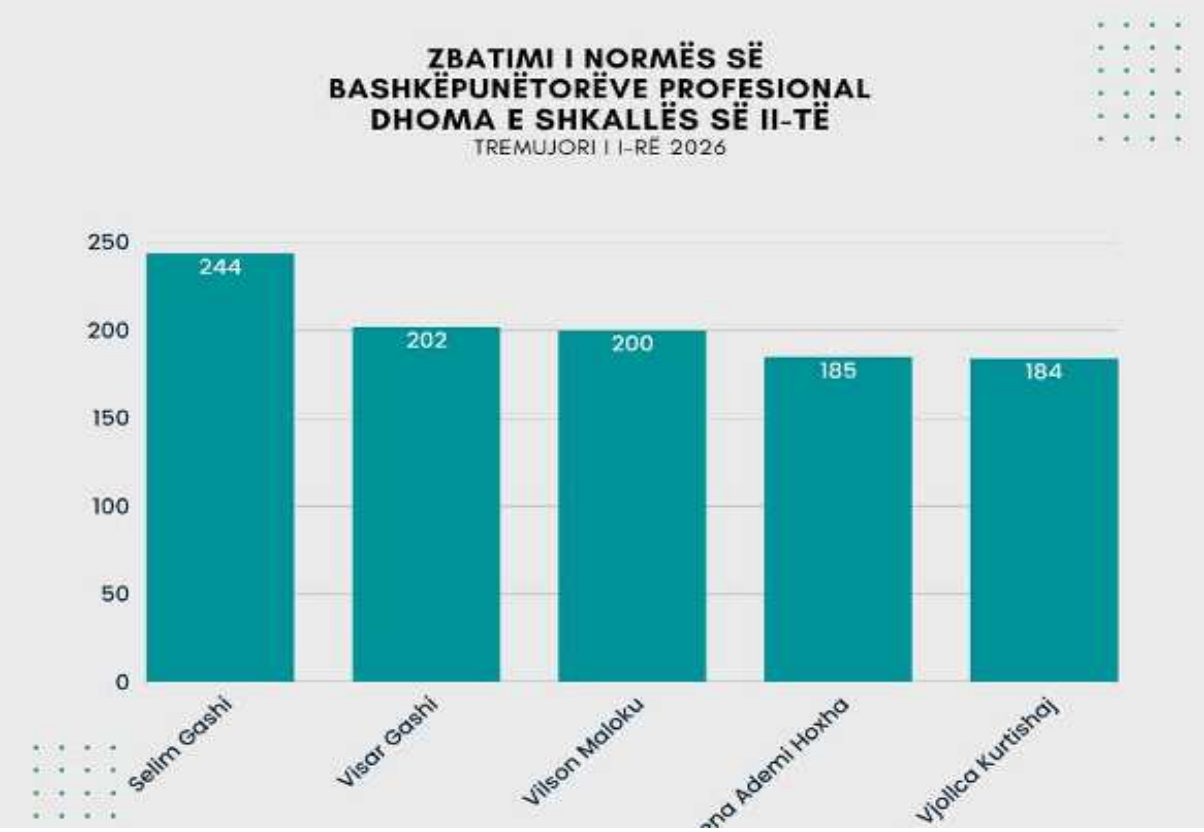
Monitoring report on the implementation of the work norm of Judges and Professional Associates

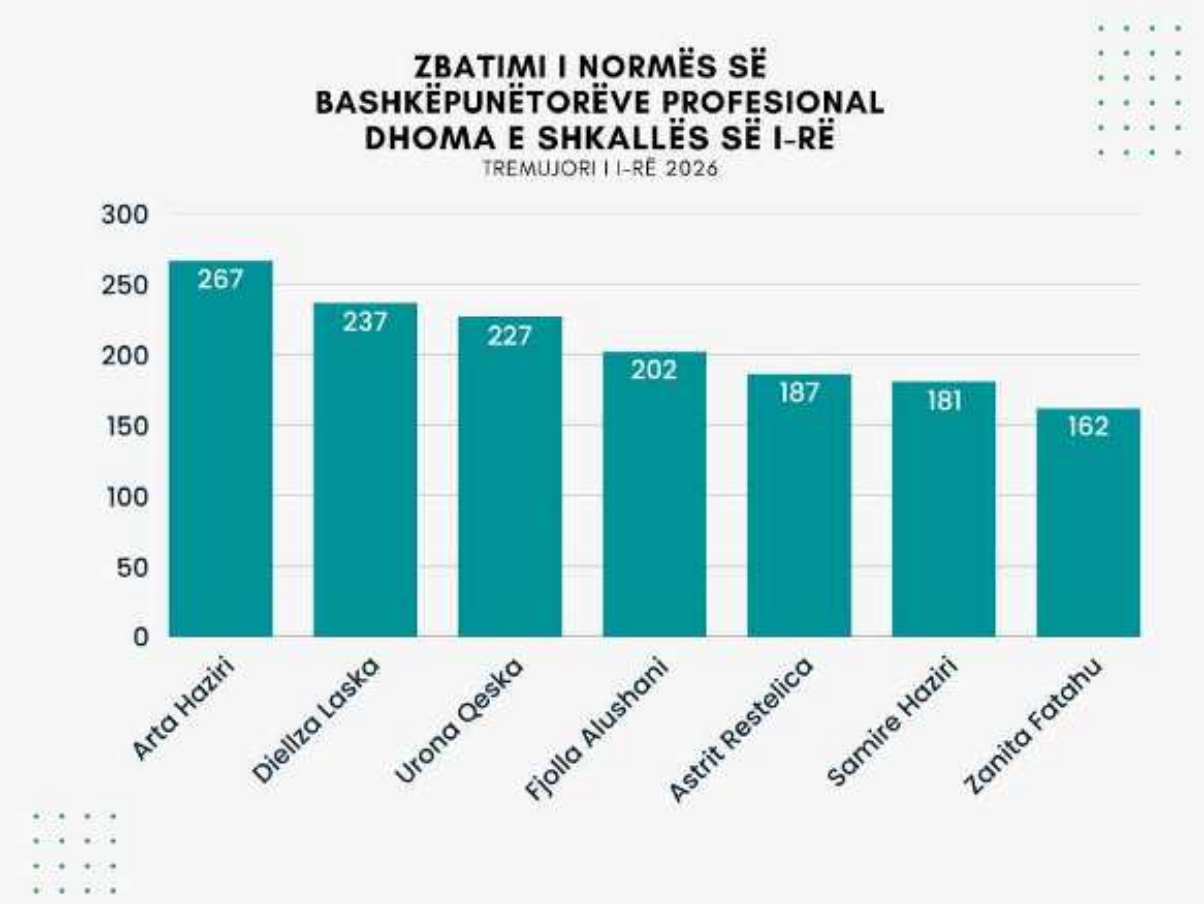
President of the Court, based on the KJC Regulation No. 03/2023 on the work norm of Judges, Article 22, paragraph 1 of this Regulation, individually presents reports of Judges' of the Second Instance Chambers and of Judges' of the First Instance Chambers of the Commercial Court.

This report, presented in graphic form is an overview of the monitoring of implementation of the Work Norm of Judges for the period of the Ist Quarter of 2026 year.

[***Translator's note***: *Text inside above Charts is not editable*]

President of the Court, based on the KJC Instruction 01/532 on the Norm of Professional Associates, Article 23, paragraph 1 of the mentioned Instruction, through this Report, also individually presents Reports of Professional Associates of Commercial Court, as foreseen by this Instruction.





[***Translator's note***: *Text inside above Charts is not editable*]

Administration

Judicial administration of Commercial Court with the current capacities by which operates is managed on the grounds of principles of professionalism. Administration, namely Office of the Administrator of the Court during this period has successfully carried out necessary activities regarding management of administrative staff. Administration is managed from Administrator of the Court, Kushtrim Gashi.

During this reporting period Administrator of the Court has held numerous meetings with Court officials regarding allocation of work tasks and responsibilities, transfer of several officials from one position to another in order to fill-up vacant positions according to the Court's organogram, to be covered by actual officials in order to not have stagnation in the Court's work and activities, and in order to provide services to the Parties within the foreseen period of time. In the present period the recruitment procedure for the Revenue Officer and Certifying Officer has been successfully completed.

Public information – Transparency

Commercial Court of Kosovo has established a good practice of regular communication with the media and public. Quarterly and annual reports have been made public and accessible to all interested Parties, thus increasing credibility and transparency of the Court.

The public has been regularly informed about the work and activities of the Court, whether through statements for media, various interviews or through official communication, as well through social network. In the first quarter of this year Court has published 1,294 court decisions in the judicial web site.

In addition, Office for Information has continuously published through the judicial portal and social networks the schedule of court sessions, various announcements in relation to the work of the Court or other activities which have enabled public to have simpler access to the work of the Court.

Only during this reporting period, 760 Court sessions scheduled to be held during this quarter in the First Instance Chambers have been published in the web site.

Nevertheless, during this reporting period, Court has received and reviewed 33 requests on access to official documents/information which have been handled within the prescribed period of time.

Implementation of ICT/CMIS programme

Commercial Court in this quarter has continued with all necessary steps from the admission to the handover of a case to implement through an Electronic Case Management Information System (ICT/CMIS).

At the beginning of this reporting period, Court, respectively each Judge's office has continued with the process of equalizing physical and electronic files. During this period, updated lists of registered cases which have not been transferred from the Basic Courts were also submitted, the same list has been forwarded to officials of CMIS in SKJC, in order to complete the necessary actions for the transfer of the case, as well through CMIS. This situation and negligence on the part of the Basic Courts, despite continuous requests from the Commercial Court of Kosovo has caused unjustifiable delays and is continuously obstructing efficient functioning of the Court.

Nevertheless, all cases completed during the period when the Court was functioning without CMIS system, which were registered in the previous year according to the lists forwarded from the officials of CMIS which are not uploaded in the CMIS, the same ones have been verified, number of the physical case and number of CMIS is retrieved, the same lists were forwarded to the First Instance Judges in order to file the case in CMIS as resolved, and during this period the process of uploading decisions has also been completed, except in the cases where have occurred issues of a technical nature.

Commercial Court of Kosovo has also identified cases that were not submitted or received on time in CMIS for which was necessary to follow the steps starting from admission, registration, assignment or reassignment of a Judge, and in the cases when they have been resolved, also uploading the decision, verification of cases that are recorded as registered twice but with different file numbers, as well cases that have been resolved by the Basic Courts, but are erroneously registered as cases of the Commercial Court.
Regarding the use of manual registers on registering the cases, Court during this period of time has managed to record all the data required and determined according to these registers in the physical register approved by KJC and at the same time electronically in CMIS.

Regarding the use/implementation of CMIS in the Second Instance Chambers, Court during this period has also encountered obstacles, whether in the registration of cases, allocation, reassignment, exclusion of Judges and other issues that obstacle the work process, whereas in this regard continuous notifications have been made by KJC and SKJC.

Legal Unit

Legal Unit, during this reporting period has conducted its duties in support of the professional work of the Judges of the Commercial Court, by conducting legal research and analysis, assisting in the drafting of reports, decisions and other legal matters for the Judges and the Court. During this reporting period, Legal Unit has assisted in 1,000 court decisions and other procedural acts.

Logistics and finance

In relation to logistic matters, during the Ist Quarter situation appears to be good. Whilst, regarding financial matters in the Commercial Court an issue has been absence of staff in the Budget and Finance Office and we had to authorize additional work to the officials of the Basic Court of Prishtina in order to carry out budgetary obligations.

Statistics

Based on the annual work plan of Commercial Court, as well Strategy for Improvement of Access to Justice, Efficiency and Prioritization of Cases within the Judicial System, as well based on the opinions of the Advisory Committee on Judicial Ethics, Court has reviewed with priority resolving of cases that are required to be handled with priority, as foreseen with applicable the laws.

During this period, Commercial Court has reviewed and completed a considerable number of various commercial cases.

During this reporting period Court has inherited 10,658 cases from the previous period, has received 1,577 ongoing cases, has resolved 1,363 cases, whereas 10,872 cases remained pending. The rate of completed cases for this period is 86%.

Second Instance Chambers

In the Second Instance Chambers are engaged six (6) judges. Second Instance Chamber is composed from six (6) Panels and each of the Second Instance Panels has a Presiding Judge of the Panel and members Judge.

[***Translator's note***: *Text inside above Chart is not editable*]

Conclusion

In conclusion, I assess that the Ist Quarter of Commercial Court has been successful in terms of dividing duties and work responsibilities, both in technical and professional aspects. Based on the annual work plan, Judges have been assigned or reassigned to the relevant Departments, entire cases have been registered in the Court's manual registers, and the process of registering of all cases in the CMIS system has also been finalized, equalization of physical files with electronic ones, inactivation of cases and their archiving, and from the second quarter of the present year all actions shall be carried out through this system, while technical errors that may occur during this process shall be eliminated.

It is necessary to once again mention the fact that we have to increase our capacities and in the shortest possible period of time to fill all vacant positions, as specified in the Court's organogram.

We do expect that in 2026 year with the full commitment of all Judges in the relevant Departments a positive result will be recorded both in terms of resolving the number of cases, likewise in increasing efficiency and effectiveness of Commercial Court.

However, Commercial Court is constantly working with dedication in order to provide instant justice to all Parties, despite the challenges, however, this is an indication of a commitment of all employees at the Commercial Court.

GJYKATA E APELIT

APELACIONI SUD – COURT OF APPEALS

COURT PRESIDENT'S REPORT

First Quarter – January-March 2026

Implementation of the Court's first quarter Work Plan January–March 2026:

Objective 1: Organization of Court Operations:
During the first quarter of 2026, with regard to the reduction of old cases, the Court of Appeals, in accordance with the Strategic Plan, finalized the old cases from the year 2022, which consequently contributed to the reduction of old cases by resolving a considerable number of them. The work performance norm of professional associates was achieved in accordance with their engagement under the Court's Work Plan throughout this reporting period.

Objective 2: Court Administration and Responsibilities:
During the first quarter of 2026, this court published 2,316 court decisions on its official website, while compared to the first quarter of 2025, this represents an increase of 268 published decisions during the same period. All of this was carried out with the aim of increasing transparency, public access to justice, and strengthening citizens' trust in the judicial system. The court is currently implementing Administrative Instruction No. 01/2025 on the Publication of Court Decisions.

Objective 3: Implementation of Strategies and Legislation:
The Court of Appeals has continuously ensured the scheduling of productive hearings and their implementation in accordance with the schedule, such that immediately after being scheduled by the judges' offices, they were also published on the court's website, specifically under the dedicated hearings schedule section. During the first quarter of 2026, a total of 307 hearings were published, while compared to the first quarter of 2025, this year 66 more hearings were published, with the purpose of encouraging citizens and interested parties to participate in public hearings, as well as facilitating easier public access to justice. During this quarter, 11 hearings were postponed at the request of the parties' defense counsels, due to their engagement in other representations at the same time and date, because the correct address could not be found, and in one case due to the appointment of a lawyer ex officio by the Kosovo Bar Association.

During the period January–March 2026, for all physical case files received, all actions were simultaneously recorded in the electronic case management system (SMIL), except for cases not supported by the system.

Objective 4: Monitoring and Reporting:
During this period, with regard to the implementation of the early case scanning plan, the court appointed one professional associate, who carried out the registration and completion of cases falling within this field.

During this quarter, the Court of Appeals succeeded in registering all cases that fulfilled the conditions for archiving within the court. However, following this first-quarter period of 2026, the court remained without an archive officer, as the respective officer was selected to serve at the Supreme Court.

Implementation of the Strategic Plan of the Kosovo Judicial Council:

Strategic Pillar 1 – Independent, Efficient, and Transparent Judiciary:
This pillar was implemented by the Court of Appeals through the provision of statistical data from the Case Management Information System, from the Case Tracking Mechanism, through the provision of information on cases and procedural actions within this court, as well as through communication with citizens, regarding which we have outlined our activities below. Within the framework of fulfilling their duties, the court staff demonstrated efficiency in their work, which is documented in their individual reports and relevant evaluations.

Strategic Pillar 2 – Organization and Management of Court Operations:
The Court of Appeals implemented its Work Plan also with regard to the organization and management of work within the court, whereby through this plan the organization of the court, the respective offices, departments, and divisions within the court was determined. Furthermore,

the duties and responsibilities of each employee of the Court of Appeals were also defined, by systematizing and organizing them in accordance with the needs and requirements of the court.

Strategic Pillar 3 – Quality, Accountability, and Professionalism of the Judiciary:
With regard to quality, accountability, and professionalism, continuous efforts are being made to achieve this objective and to further enhance it on an ongoing basis, namely through improving the quality and professionalism of judges by means of trainings organized by the Academy of Justice in cooperation with the Kosovo Judicial Council, as well as through meetings within the court with professional collegiums, which contribute to advancement and the enhancement of quality. Accountability, on the other hand, is pursued through the continuous supervision and monitoring of judges' performance.

Strategic Pillar 4 – Access to Justice:
Through the publication of hearings on its official website, this court has aimed to encourage citizens and interested parties to participate in public hearings, with the purpose of providing easier public access to justice, as well as through the continuous publication of court decisions, materials, and other court-related data.

Strategic Pillar 5 – Public Trust and Satisfaction:
Increasing public trust in the court has been pursued through accurate and coherent public information, regular updates regarding the court's performance, and the publication of awareness-raising video materials on the court's website and on the social media platform Facebook, concerning the services provided by this court, as well as other matters of public interest. Furthermore, this objective has been achieved through the regular publication of disciplinary and judicial decisions, as well as through the presentation of the court's activities. Within the framework of this pillar, the court's website also provides the possibility for evaluating court services, enabling citizens who have received services from the court to share their experiences.

Strategic Pillar 6 – Technology in Support of Functioning and Access to Justice:

With regard to this pillar, the court's website contributes to access to justice through the possibility for parties to search for pending cases, which is also interconnected with the e-Kosova platform, enabling them to monitor the status of their cases and identify the procedural stage in which their cases are currently located.

KJC Communication Strategy:
The Court of Appeals has consistently devoted special attention to the implementation of this Strategy, focusing on increasing transparency, promoting the work of the court, and strengthening public trust in the judicial system through regular and coherent communication with citizens, the media, and civil society. On a regular monthly basis, this court communicates with citizens, and during the first quarter of 2026 it received approximately 357 requests for access to information and requests for access to public documents, to all of which it responded, while approving 12 requests for access to public documents and issuing 12 decisions regarding the approved requests. On a monthly basis, the court publishes statistical data regarding its performance on its website and on the social media platform Facebook, including the court's general reports and the individual performance reports of its judges.

Furthermore, within the framework of promoting and presenting the activities of this court, during the period January–March 2026, the court prepared and published a total of 13 announcements/activities on its website (in both official languages) and on the social media platform Facebook, with the aim of applying proactive communication with the media and civil society regarding processes of public interest. The Information and Media Communication Office of the Court of Appeals updated data on its official website, including changes in the judges' section due to frequent movements, whether through their promotion to the Supreme Court or transfers from the Basic Courts of Kosovo to the Court of Appeals, monthly statistics published graphically, decisions, calls for voluntary trainees, meetings of the President of the Court and participation in various activities, as well as other activities which were also published on the social media platform Facebook.

During the period January–March 2026, six disciplinary decisions were published, issued by the President of this court as the competent authority for the review and handling of complaints

submitted by natural and legal persons, while 2,316 judicial decisions and 307 hearings were also published.

Other Strategies and Plans:

During the first quarter of 2026, due to the promotion and commencement of duties of three judges, cases were assigned to them accordingly, whereby cases were distributed to one judge from the civil division and to two judges from the criminal division. Corresponding reallocations were also carried out in the SMIL system for the same judges, in accordance with the Court's Work Plan for 2026.

Implementation of Judges' Work Norms, with Special Emphasis on Individual Reporting Regarding Failure to Meet the Norm:
Monitoring judges' work norms remains a challenge for Court Presidents, due to the absence of a mechanism that would automatically calculate the monthly or annual work norms of judges. Currently, this process is being carried out manually by the judges' offices. Therefore, the identification and calculation of judges' work norms is expected to be ensured through the SMIL system, which would automatically calculate points based on the cases completed by judges. At the same time, physical case files and procedural actions must correspond identically with the SMIL system in order to enable the calculation of points through the system, since, based on the current practice, judges calculate their points themselves according to the previous method of submitting work norms.

Participation of the President of the Court and Judges in Trainings, Specifying the Capacity in Which They Participated, Except in Cases of Exemption from Training Attendance:
The President and several judges of this court are engaged with the Academy of Justice in the Initial Training Program for newly appointed judges, as well as in trainings provided for professional associates. These trainings are supported by the Kosovo Judicial Council and the Academy of Justice. In addition to serving as trainers, they have also participated in the capacity of trainees in events and roundtables organized by various local and international institutions.

Number of Postponed Hearings – Specify the Reasons for the Postponement of Hearings:
During this quarter, 11 hearings were postponed. The reasons included one case where the notification was not sent to the correct address, one case due to the appointment of defense counsel ex officio, and the remaining cases upon requests by the parties' defense counsels, who were engaged in other representations at the same time and date.

Number of Fines Imposed and Other Measures Taken (Specify the Type of Measure) for the Failure of Court Hearings by Parties and Other Participants in the Procedure:
No fines or other measures were imposed due to the failure of court hearings.

4	Implementation of the Kosovo Judicial Council Strategic Plan:		Actions taken regarding the objectives of the strategic plans:	Number of cases conducted according to the sub-objectives of the Strategy for Improving Access to Justice:		
5	Judicial strategy	Strategic Pillar 1 – Independent, efficient and transparent judiciary				
		Strategic pillar 2. Organization and management of the work of the court				
		Strategic Pillar 3 - Quality, accountability and professionalism of the judiciary				
		Strategic Pillar 4: Access to Justice				
		Strategic Pillar 5: Public Trust and Satisfaction				

		Strategic Pillar 6: Technology in support of the functioning and access to justice		
6	KJC communication strategy		During the first quarter, the Basic Court in Pristina published on its website and official Facebook account the activities of the Court, including meetings of the President of the Court, announcements regarding the announcements or assignments of security measures and promotions of judges. A total of 24 announcements and 13 activities were published on the official Facebook page of the Basic Court in Pristina. During this period, in accordance with the Administrative Instruction on Anonymization and Publication of Judgments, the Public Information Office continued the publication of anonymized judicial decisions - a total of 1955 anonymized judicial decisions were published on the website of the Kosovo Judicial Council (KJC). During this reporting period, the court received and processed 10 requests for Access to Public Documents, while 201 requests for access to information were processed.	
7	Other strategies and plans			
8	Implementation of the norm by judges with special emphasis on reporting on individual failure to comply with the norm by the judge.		The President of the Court, based on the KJC Regulation No. 03/2023 on the work norm of judges, Article 22 paragraph 1 of this Regulation, on a quarterly basis presents individual reports of judges of the Basic Court in Pristina and its branches. Considering that CMISI does not provide an opportunity to see the achievement of points for judges, monitoring of the realization of the norm is done manually according to the possibilities by the President of the Court.	
9	Participation in training for the president and judges, specifying the quality of participation, except in cases of exclusion from attending the training.		During the reporting period, judges and the court president participated in a number of professional activities, workshops, conferences and trainings, both at the local and international levels. These activities included the participation of judges Amar Hoxha, Fiton Haklaj and Dardan Hoxha in professional workshops; judge Bujar Ahmeti in conferences and round tables related to domestic violence, the KRCT, the Supreme Court, the GLPS and in training on terrorism issues; and judge Medije Bytyçi in conferences and as a panelist in KRCT and ILEA activities. Also, judge Shaban Prekalla participated in the IKL focus group, while judge Fatime Dërmarku participated in a round table. Other activities included the participation of judges Genc Hoxha and Bujar Ahmeti in working groups, as well as judge Kreshnik Kaçiu in professional training. The President of the Court participated in the working group on the joint declaration of commitment, in the workshop on the advancement of the CMIS system, in the conference on the standards of the European Court of Human Rights together with 15 judges of the Basic Court in Pristina, as well as in the Masterclass program organized by the British Embassy, where judges Donika Shala Abdyli, Leon Përlaska and Albert Haliti also participated.	
10	Number of postponed sessions. Specify the reasons for the postponement of the sessions.		During the period, 286 criminal hearings were postponed at the Basic Court of Pristina- BRANCHES for various reasons, such as the failure to appear of the defendant, witness, lawyer or defense attorney, the absence of the prosecutor, as well as due to the defense attorney's proposal to postpone the hearing, ex officio postponements and other obstacles. While in the civil field, 188 hearings were postponed due to the fact that the defendant or plaintiff were not summoned in a regular manner, the impossibility of delivering the summons to the defendant due to an unknown address, the failure of the expert to appear and other obstacles.	
11	Number of fines imposed and other measures (type of measure taken) for failure of court hearings, parties and other participants in the procedure.		According to information received from judges, no fines were imposed during this period.

13.Logistics	During the first quarter of 2026, the Basic Court in Pristina, together with the branches in Podujeva, Lipjan, Fushë Kosovë, Drenas and Gracanica, has carried out continuous logistical activities in order to ensure the efficient and uninterrupted functioning of judicial services. During this period, regular supply of official and printed materials was ensured, and maintenance of technical equipment, official vehicles and technological systems was carried out, including security systems (cameras), elevators and lighting. Within the framework of the internal organization, offices in building A were assigned for the needs of the Administrative Court, and transfers of judges and administrative staff to different work spaces were carried out, in order to optimize the use of space and meet organizational needs. Also, several technical problems in the heating, air conditioning and lighting systems were identified. Regarding these issues, in the last week of March, the intervention of the operator responsible for technical maintenance began, after prior notification of the problems identified in the building of the Palace of Justice. The Basic Court in Pristina and its branches have had in use a total of 11 (eleven) official vehicles, owned by the Kosovo Judicial Council (KJC), which have been used to support the functioning of judicial services. The supply of fuel for vehicles and heating systems has been carried out in accordance with operational requirements and needs. All logistical expenses have been reported to the Kosovo Judicial Council (KJC) on a quarterly basis and have been managed in accordance with the budget planning and operational needs of the Basic Court in Pristina.

	Implementation of the court's annual work plan:		Actions taken regarding the objectives of the annual work plan of the courts:	
		Objective 1: Organizing the work of the courts	In the Basic Court of Mitrovica, the organization of work is determined in the Annual Work Plan for 2026. The organization of the work of judges and administration will be led by the Acting President of the Court and the Administration, while the Basic Court in Mitrovica operates under such circumstances, while the organization of the work of the Court Branches in Vushtrri, Skenderaj, is led by supervising judges. As for the branches in Zubin Potok and Leposaviq, they will continue to be supervised by the Acting President of the Court this year, and the work at these branches will be carried out by the judges and staff of the Basic Court in Mitrovica, both in terms of resolving court cases and administrative services. Regarding the organization of the work of judges at the Basic Court of Mitrovica, the Work Plan for 2026 has been implemented, where all judges who have acted in the relevant departments and divisions have been determined, working conditions have been provided for judges, with challenges in the Civil Department of this Court due to the renovation of the facility in South Mitrovica. Regarding the management of administrative work, the Administration, together with the assistant administrators, have held meetings as specified in the work plan for 2026, while the administration has had regular meetings with the heads of offices, in which the efficiency and avoidance of possible obstacles in the implementation of the work plan have been discussed. In accordance with the Work Plan, legal officers are engaged in the judges' offices, in the Department for Serious Crimes, the General Department and the Department for Juveniles. Regarding the organization of work in the court branches, it should be noted that the Court Branches in Leposaviq and Zubin Potok are covered by the judges and administrative staff of the Basic Court in Mitrovica, while the Court Branches in Vushtrri and Skenderaj are structured in accordance with the Work Plan for 2026. 3	Objectives of the annual work plan of the courts:	Objective 2: Court administration and responsibilities:	Internal Organization of the Court and the Regulation on the Use of CMIS. In preliminary proceedings in the General Department - Criminal Division, Serious Crimes Department and Juvenile Department, the allocation of cases was done according to custody to each judge in certain periods of time according to the agreement of the judges, as well as in the Minor Offense Division, cases were accepted according to custody to each judge. It should be noted that in this third reporting period, cases were handled according to their arrival at the Court, with the exception of cases that have legal priority, such as cases with pre-trial detention, cases of domestic violence, cases of corruption and cases of family relations from the civil field, as well as those cases that are also foreseen in the strategic plans approved by the KJC. In the first reporting period for 2026, regular working meetings were held by the Judges of the General Department and the Serious Crimes Department, of the Civil Division, who presented the achievements of each department, the challenges and objectives that are intended to be achieved within 2025 and addressed the same to the UD. The President of the Court, who has convened and held the regular meeting - the quarterly collegium in which the achievements, challenges and goals for the following phases were discussed. Regarding the efficiency of completing cases, the results regarding this issue are presented in the 3-monthly report of the Court's work, in tabular form extracted from the electronic case management system CMIS. In accordance with the Work Plan for 2026, the Basic Court in Mitrovica also implements the holding of court sessions with audio recording, so that judges constantly report on the holding of sessions with audio recording technology. Also, all sessions that are held are initially scheduled through the CMIS System, to which the minutes of their holding are also uploaded. Regarding staff training, it is a procedure that is carried out continuously in accordance with the Plan of the Judicial Council in coordination with the Academy of Justice. Regarding the performance of professional associates, they send a monthly work report every month, and also a quarterly report every three months, which results in the maximum commitment of professional associates in carrying out their work duties and the professional support of the judges of this court. 		Strategic Pillar 1 – Independent, efficient and transparent judiciary	In order to implement the strategies approved by the Kosovo Judicial Council and the implementation of the work plan for 2026, with the aim of judicial independence, efficiency and transparency, now through the CMIS system, the allocation of cases to judges is done automatically and in a balanced manner. The transparency of the judiciary is constantly increasing, and this is achieved through the publication, initially of judgments, which constitutes one of the priorities in the implementation of the work plan and strategy of the KJC, through which citizens are acquainted with the work of the Court. Among other actions aimed at an independent, efficient and transparent judiciary, there are also open meetings that the Acting President of the Basic Court holds with citizens, for which citizens are notified through various platforms, both on the website and on social networks.	At the Department Division, during th according to the str only 19 cases of th cases were receive nature have been re
		Strategic pillar 2. Organization and management of the work of the court	Professional associates and legal officers have provided professional support not only to the judges but to the entire court in general, offering their contribution with all professional capacities, and this is reflected quite well in the monthly reports that they have submitted to the Acting President of the Court, as well as the assessments made by the judges for the professional associates, it is noted that the same are satisfied with the commitment they have had and the professional assistance they have provided and not only. The allocation of cases by work to each judge, as mentioned in the previous reports, was done proportionally through the CMIS program, as determined by the Regulation on the Internal Organization of the Court and the Regulation on the Use of CMIS. In preliminary proceedings in the General Department - Criminal Division, Serious Crimes Department and Juvenile Department, the allocation of cases was done according to custody to each judge in certain periods of time according to the agreement of the judges, as well as in the Minor Offense Division, cases were accepted according to custody to each judge. It should be noted that in this third reporting period, cases were handled according to their arrival at the Court, with the exception of cases that have legal priority, such as detention cases, domestic violence cases, corruption cases and civil family relations cases, as well as those cases that are also foreseen in strategic plans approved by the KJC. 		During the first quarter, the judges continued their work in the departments assigned according to the Annual Work Plan of the Court, while in the Civil Division, a verification of the redistribution of cases (year-end 2025) was conducted among all divisions, with the aim of balancing the workload among judges in order to increase	Reduction of cases according to the strategic plan for access to justice 2022-2025	20%	
			Reduction of old cases	20%	

3	Objectives of the annual work plan of the courts:	Objective 1: Organizing the work of the courts	efficiency in the adjudication of all cases. During this quarter, the Court also received new judges, who are currently continuing their practical training in the field of criminal law. For this month, they have generally been engaged in regular duty assignments and with a small number of regular cases from Department I of the General Criminal Division. The professional associates continued to perform the duties assigned to them, while the restructuring envisaged in the work plan did not take place, as two professional associates who were expected to be transferred from the beginning of March 2025 to the Court's branch in Malisheva remained at the Court's main seat. Within the Court, there is a shortage of administrative staff, particularly in the positions of IT officer–operator, Serbian language translator, logistics officer, and archivist, which may be supplemented if the transfer of an employee from one branch to another becomes possible. The Court branch in Malisheva is lacking a legally required receptionist position, which has so far been covered by staff members performing the same duties. In the Court branch in Rahovec, by decision of the Kosovo Judicial Council (KJC), two security officers were transferred from the Basic Court branches to the positions of driver and mail clerk; however, they have not yet received official appointment decisions for these positions.	Realization of the work norm of professional associates	100%	100%
		Objective 2: Court administration and responsibilities:	In accordance with the KJC Secretariat's staff training plan, the Court and its branches ensured the attendance of all staff members at training sessions, both newly recruited employees and existing personnel. The Court continued to ensure that the accuracy of data entered into SMIL and its consistency with the physical case files remained at an appropriate level. The timely publication of decisions, in accordance with the relevant Instruction, was continuously monitored, and regular consultations were held with the official responsible for this task regarding any delays and the identification of obstacles. During this period, the branches in Malisheva and Rahovec were monitored by the Court's headquarters from 18:00 until the following morning. At the Court's headquarters, an agreement was reached with the Police Station to provide physical assistance in securing the Court premises. Under this arrangement, a police officer assists the security personnel every day from 09:00 until 15:00. Since the beginning of this quarter, the security officers have raised the standards of screening and inspection for all citizens and parties accessing Court facilities and receiving Court services, with particular emphasis on individuals participating in court hearings. Efforts are also underway to conclude similar agreements for the Court branches in Rahovec and Malisheva.	Increasing the quality of decision-making, respectively reducing the number of cases	20%	
				Increase in the number of published decisions	30%	20%
				Increasing the number of block sessions	30%	
		Objective 3: Implementation of Strategies	The strategic plans of the Kosovo Judicial Council (KJC) continue to be implemented, and judges are regularly instructed during meetings to ensure their proper implementation. The Court has implemented the legislation governing the use of official languages in all cases presented during this quarter, despite the resignation of the Court's translator. Nevertheless, alternative arrangements have been made to ensure the availability of interpretation services for the parties.	Scheduling sessions and reducing the number of postponed and canceled sessions	20%	20%
				Increasing data quality in relation to case registration and case completion by harmonizing the electronic file with the physical file with all procedural actions undertaken	95%	90%

		and Legislation:		Correct entry of court decisions in the Criminal Records Register	100%	100%
		Objective 4: Monitoring and Reporting	The implementation of the KJC's strategic acts is continuously monitored, and judges are required to submit regular reports on their efficiency and on the reasons for any failure to achieve the expected level of efficiency. The Court continuously requests reports from department heads and supervising judges regarding the current situation, any delays encountered, and the areas requiring additional effort and attention. The Court maintains records in the SMIL system of all postponed or unheld hearings and the reasons for their non-convening, for which explanations are requested from the respective judges. Corruption cases continue to be monitored and are treated with special attention to ensure their timely resolution. Particular attention has been devoted to the Civil Division at the Court headquarters and at the Malisheva branch. Since January, judges have been submitting monthly reports on the number of cases completed (including their type and age), as well as the number and types of hearings scheduled. This is done for the purpose of monitoring the handling of priority cases, with particular emphasis on older cases. Regular meetings are held with office managers to identify deficiencies and challenges. Likewise, meetings are held with supervising judges and department heads to review and address the findings contained in their reports.	Implementation of the Procedural Justice Plan	100%	100%
				Complete registration of all cases in the archive	100%	96%
4	Implementation of the Kosovo Judicial Council Strategic Plan:		Actions taken regarding the objectives of the strategic plans:	Number of cases conducted according to the sub-objectives of the Strategy for Improving Access to Justice:		
		Strategic Pillar 1 – Independent, efficient and transparent judiciary	The publication of court decisions continues on an ongoing basis, including the publication of hearings on the Court's official website and on the electronic display board within the Court building. Furthermore, the Public Information Office regularly issues communications regarding decisions rendered by the Court.			
		Strategic pillar 2. Organization and management of the work of the court	During the first quarter, we remained in anticipation of the recruitment procedures for the referred positions. The shortage of an IT officer and a Serbian-language translator continues to be of particular concern, as these positions are highly needed.			

5	Judicial strategy	Strategic Pillar 3 - Quality, accountability and professionalism of the judiciary	During the first quarter, judges made efforts to reduce the backlog of old cases; however, the level of efficiency could not reach the desired standard due to the redistribution of cases and the transfer of a judge. Work has continued on the handling of urgent cases, such as security measure cases, pre-trial detention matters, domestic violence cases, and other cases requiring urgent treatment, in accordance with the decision of the Kosovo Judicial Council (KJC). During the first quarter, at the Malisheva branch, due to the transfer of a judge from the branch to the Court's headquarters, a significant reduction was observed in the number of cases assigned to the Court. Within this period, 1,237 cases were completed (the number was calculated based on the reports of professional associates), and it is noteworthy that a substantial number of these cases were resolved. As a result, only a small number of unresolved cases remain at this branch.	
		Strategic Pillar 4: Access to Justice	In accordance with this strategy, judges treat these cases as a priority.	During this first quarter of 2026, 1 corruption case was completed.
		Strategic Pillar 5: Public Trust and Satisfaction	Through the Public Information Office, equal treatment and public information regarding the work of the Court are ensured. Cooperation has been maintained with non-governmental organizations that monitor the work of the courts and the publication of court decisions on official websites, including the publication of court decisions, press releases, and responses regarding cases under consideration. All such actions are carried out in accordance with the law.	
		Strategic Pillar 6: Technology in support of the functioning and access to justice	Criminal judges continue to conduct hearings using audio recording systems, and there has also been an increase in the number of hearings conducted through videoconferencing. Compared to previous years, the number of such hearings has increased significantly. The Court has installed a videoconferencing system in Hall No. 1, which, due to its capacity, is used for hearings involving a larger number of participants as well as for all hearings requiring a videoconference connection.	
6	KJC communication strategy		The communication strategy of the Kosovo Judicial Council (KJC) is being implemented continuously, with the Public Information Office placing special emphasis on relations with the public and the media in order to increase transparency. During the first quarter, the Public Information Office carried out the following activities: it issued 4 media communications, prepared 32 responses, notifications and replies to the media, NGOs, local and international monitoring organizations, lawyers, and other interested parties. A total of 9 notifications regarding various court activities were published on the Court's official Facebook page. Nine requests for access to public documents were received, of which 4 were approved and 1 was rejected. A total of 1,710 judgments and judicial acts were published, as well as 1 disciplinary decision.	

7	Other strategies and plans	All strategies and plans adopted by the Kosovo Judicial Council have been implemented by the Court.
8	Implementation of the norm by judges with special emphasis on reporting on individual failure to comply with the norm by the judge.	Judges report on the fulfillment of performance standards, and there is continuous communication with judges regarding the reasons for any failure to meet those standards. During this quarter, a considerable number of cases were resolved, and ongoing efforts continue to be made to urgently address older cases, alongside other cases that have legal and strategic priority.
9	Participation in training for the president and judges, specifying the quality of participation, except in cases of exclusion from attending the training.	During the first quarter, the President of the Court continuously participated in training sessions, conferences, and roundtables organized by the Kosovo Judicial Council and other organizations. The same also participated in the training of the Court Performance Report Directorate of the Basic Court in Gjakova. In addition, through the KJC, the Academy of Justice, and other organizations, judges participated in various training activities. The Basic Court in Gjakova has continuously ensured that judges from all departments and divisions participate in these trainings, depending on the subject matter being addressed.
10	Number of postponed sessions. Specify the reasons for the postponement of the sessions.	During the first quarter, according to the SMIL program, 516 hearings were recorded as postponed at the Court's headquarters and its branches. According to the data in SMIL, the postponement of hearings in criminal cases was mainly due to the non-appearance of defendants, witnesses, and lawyers. In civil cases, the principal reasons for postponements were the failure to properly summon the defendant, the plaintiff, the inability to locate the plaintiff's correct address, and, in a smaller number of cases, other procedural obstacles raised by the parties.
11	Number of fines imposed and other measures (type of measure taken) for failure of court hearings, parties and other participants in the procedure	There were no cases in which security measures had to be imposed due to the postponement of hearings.

13.Logistics	During the first quarter, we received regular supplies of printed materials, paper, fuel, and other necessities from the KJC Secretariat. However, there remains an ongoing problem with printers and toner cartridges, which hinder and slow down work processes. This issue has also been identified at the Court branch in Rahovec, where considerable concern has been expressed regarding this matter.									

14. Payment Certification Office	With regard to the Certification Office, all cases are certified in a timely manner and within the prescribed deadlines. During the first quarter of 2026, a total of 276 pages were certified.
15. Court cooperation with national and international non-judicial entities	We maintain continuous cooperation with all domestic and international institutions with the aim of ensuring the more efficient functioning of the Court, including the Prosecution Office, the Police, the OSCE, EULEX, UNDP, and NGOs that monitor the work of the courts. During this reporting period, the President of the Court also held a meeting with representatives of the Group for Legal and Political Studies (GLPS), who presented their projects and discussed opportunities and methods for cooperation with the Court.
16. Court president's Office	During this quarterly reporting period, the President of the Court held meetings with representatives of various institutions, including: Mr. Ylli Bokshi, representative of the Regional Office of Advocates; Mr. Mark Kaqinari, lawyer; Mr. Bekim Avdijaj, representative of the Human Rights Office; and representatives of KDI – Better Governance for Justice. During these meetings and interviews, discussions focused on advancing institutional cooperation and improving the functioning of the justice system. The President of the Court also visited all Court branches in Gjakova and Rahovec during this quarter in order to identify the challenges they face in carrying out their work. In addition, the Office of the President continuously addressed other issues, such as requests for international legal assistance and various submissions. The President also commended the transparency of the Court and held meetings with citizens who had the opportunity to express concerns regarding cases pending before the Court, including complaints and requests submitted to the judges assigned to those cases. During the first quarter, the President also approved 49 requests for meetings with citizens, of which 54 were completed, while 5 requests were not approved because they concerned criminal cases for which information could not be provided by the President, or because the parties had not been notified. Furthermore, during this first quarter, two meetings were held with citizens within the framework of the "Open Days" initiative, during which they were able to obtain information regarding the work and functioning of the Court.
17. Enforcement Office	The execution of cases has continued, and efforts have been made to ensure that these cases are processed without delay. During this quarter, the Enforcement Department (EDJ) received 45 cases and completed 34 of them. The Minor Offences Department (PED) received 21 cases and completed 24. Meanwhile, during the first quarter overall, 149 cases were received and 119 of them were resolved.

KOSOVO JUDICIAL COUNCIL

REPORT ON WORK COMPLETED

I. From general management:

1	Court Jurisdiction:				Appellate Division in Mitrovica
	Court of Appeal				
	Operates in the city of:	Departments:		Divisions:	
	Pristina	1	General Department	Criminal, civil, minor offense	
		2	Juvenile Department		
		4	Administrative Department		
		5	Serious Crimes Department		
		6	Special Department		

II. Implementation of strategic plans, regulations and other acts adopted by the Council

2	Preparation and submission of the court's annual work plan to the KJC		Date of submission to the KJC:	Date of approval by the KJC:		
	Implementation of the court's annual work plan:		Actions taken regarding the objectives of the annual work plan of the courts:	Percentage of completed goals:		
					Percentage set by the KJC	**Percentage achieved**
		Objective 1: Organizing the work of the courts	In the first quarter of 2026, The Court of Appeals, in terms of reducing backlogs, according to the Strategic Plan, has completed the backlogs of 2022, which has also contributed to the reduction of backlogs, with a significant number of them being resolved. The workload of professional associates has been achieved in relation to their commitment according to the Court's Work Plan, during this reporting period.	Reduction of cases according to the strategic plan for access to justice 2022-2025	20%	30%
				Reduction of old cases	20%	20%
				Realization of the work norm of professional associates	100%	100%
		Objective 2: Court administration and responsibilities:	During the first quarter of 2026, this court has published 2316 judicial decisions on its official website, while if we compare it with the first quarter of 2025, it turns out that this year 268 more decisions have been published in this period, all with the aim of increasing transparency, public access to justice and strengthening citizens' trust in the judicial system. This court is now implementing Administrative Instruction No. 01/2025 on the publication of judicial decisions.	Increasing the quality of decision-making, respectively reducing the number of cases returned for retrial	20%	20%
				Increase in the number of published decisions	30%	50%
				Increasing the number of block sessions	30%	30%

3	Objectives of the annual work plan of the courts:	Objective 3: Implementation of Strategies and Legislation:	The Court of Appeals has continuously taken care of scheduling productive hearings and their implementation according to plan, so that the same ones that have been scheduled by the judges' offices have also been published on the court's website, specifically in the special section of the hearing schedule. In the first quarter of 2026, a total of 307 hearings were published, while if we compare it with the first quarter of 2025, we can see that this year 66 more hearings were published, with the aim of encouraging citizens and interested parties to participate in public hearings, as well as creating easier public access to justice. Meanwhile, during this quarter, 11 hearings were postponed, and that at the request of the parties' defense attorneys, as they were engaged in other representations, at the same time and on the same date, due to the fact that the exact address was not found and one case due to the appointment according to the official duty of the lawyer by the KCA. During the period January - March 2026, for all physical files received, all actions were simultaneously recorded in the electronic file (CMIS), except for cases that the system does not support.	Scheduling sessions and reducing the number of postponed and canceled sessions	20%	20%
				Increasing data quality in relation to case registration and until the completion of cases by harmonizing the electronic file with the physical file with all procedural actions undertaken	95%	95%
				Correct entry of court decisions in the Criminal Records Register	100%	/
		Objective 4: Monitoring and Reporting	During this period, regarding the implementation of the plan for early scanning of cases, the court has appointed a professional associate, where the same has made the evidence and conclusion of the cases that belong to this field. The Court of Appeals, during this quarter, has managed to register all the cases that have met the conditions for archiving within the court. Now after this period of the first quarter of 2026, the court is without the archive officer since the same has been selected in the Supreme Court.	Implementation of the Procedural Justice Plan	100%	100%
				Complete registration of all cases in the archive	100%	100%
4	Implementation of the Kosovo Judicial Council Strategic Plan:		Actions taken regarding the objectives of the strategic plans:	Number of cases conducted according to the sub-objectives of the Strategy for Improving Access to Justice:		
5	Judicial strategy	Strategic Pillar 1 – Independent, efficient and transparent judiciary	This pillar has been implemented by The Court of Appeals through the provision of statistical data from the case management information system, from the Case Tracking Mechanism, through the provision of information on cases and procedural actions within this court, as well as through communication with citizens, for which we have mentioned our activities as follows. The court staff, in the context of fulfilling their duties, have shown efficiency in their work, which is documented in their individual reports and in the relevant assessments.			
		Strategic pillar 2. Organization and management of the work of the court	The Court of Appeals has implemented its Work Plan regarding the organization and management of the work in the court, so that through this plan the organization of the relevant court offices, departments and divisions in the court has been determined. The tasks and responsibilities of each employee in The Court of Appeals have also been determined, systematizing and organizing them according to the needs and requirements of the court.			
		Strategic Pillar 3 - Quality, accountability and professionalism of the judiciary	Regarding quality, accountability and professionalism, in this regard, the commitment to achieve this objective is continuous and aims to continuously increase, namely the quality and professionalism of judges through training organized by the Academy of Justice in cooperation with the KJC and meetings within the court with professional collegiums which influence the advancement and increase of quality, while accountability aims to be achieved through continuous supervision and monitoring of the work of judges.			
		Strategic Pillar 4: Access to Justice	Through the publication of hearings on the official website, this court has aimed to encourage citizens and interested parties to participate in public hearings, with the aim of providing easier public access to justice, as well as through the continuous publication of decisions and other court materials and data.			

		Strategic Pillar 5: Public Trust and Satisfaction	The aim is to increase public trust in the court through accurate and coherent information to the public, updating data on the court's performance, and publishing awareness-raising video materials on the court's website and on the Facebook social network, regarding the services provided by this court, as well as other issues of public interest. This point has also been achieved through the regular publication of disciplinary and judicial decisions, as well as through coverage of the court's activities. Within this pillar, there is an opportunity on the court's website to evaluate court services, which enables the exchange of experiences of citizens who have received services from the court.
		Strategic Pillar 6: Technology in support of the functioning and access to justice	In relation to this pillar, the court's website contributes to access to justice, through the search for cases in process by the parties, which is also linked to the e-Kosova platform, allowing them to track the status of their cases and at what stage of the procedure they are.
6	KJC communication strategy		The Court of Appeals always pays special attention to the implementation of this Strategy, with a focus on increasing transparency, promoting the work of the court and strengthening public trust in the judicial system, through regular and coherent communication with its citizens, the media and civil society. On a regular monthly basis, this court communicates with citizens, where during the first quarter of 2026 it has received about 357 requests for access to information and requests for access to public documents, has responded to all of them, while it has approved 12 requests for access to public documents by issuing 12 decisions on the approved requests. On a monthly basis, it publishes statistical data on the performance of the court, on the website and on the social network Facebook, including general reports of the court and individual reports of its judges. Also, in the framework of promoting and reflecting the activities of this court, during January-March 2026, it has compiled and published on the website (in both official languages) and on the social network Facebook a total of 13 communications/activities, with the aim of applying proactive communication with the media and civil society for processes that are in the public interest. The Office for Information and Communication with the Media of The Court of Appeals has updated data on its official website, including changes in the judges' column, due to frequent movements, either with their advancement to the Supreme Court or transfer from the Basic Courts of Kosovo to The Court of Appeals, monthly statistics published in a graphical format, decisions, competitions for voluntary interns, meetings of the president and participation in various activities, as well as other activities that have also been published on the social network Facebook. During the months of January - March 2026, 6 disciplinary decisions were published, which were taken by the president of this court, as the competent authority in reviewing and handling complaints from natural and legal persons, as well as 2316 court decisions and 307 hearings.
7	Other strategies and plans		During the first quarter of 2026, due to the advancement and commencement of work of three judges, cases were assigned to them, which resulted in the division of cases for the judge from the civil field, and two judges from the criminal field, where reassignments were also made with CMIS for the same according to the court's work plan for 2026.
8	Implementation of the norm by judges with special emphasis on reporting on individual failure to comply with the norm by the judge		Monitoring the norm of judges remains a challenge for the Presidents of Courts, because we do not have a mechanism that would automatically calculate the monthly or annual work norm of judges and this is currently being done manually by the judges' offices, so that the identification of the norm of judges is expected to be ensured by the CMIS system, which would automatically calculate the points according to the cases completed by the judges, but at the same time, the files and physical actions must be identical with CMIS, in order to calculate the points through the system, because based on current practice, judges calculate the points themselves according to the old method of submitting the norm.
9	Participation in training for the president and judges, specifying the quality of participation, except in cases of exclusion from attending the training.		The President and several judges of this court are engaged in the Academy of Justice, in the Initial Training Program for Young Judges and training provided for professional associates. The trainings are supported by the KJC and the Academy of Justice. In addition to being trainers, they have participated as trainees in organizations or round tables from various local and international institutions.
10	Number of postponed sessions. Specify the reasons for the postponement of the sessions.		During this quarter, 11 hearings were postponed, the reasons for one case were because the notice was not sent to the correct address, one case due to the appointment of a defense attorney according to official duty and other cases at the request of the parties' defense attorneys, as the same were engaged in other representations, at the same time and on the same date.
11	Number of fines imposed and other measures (type of measure taken) for failure to attend court hearings, parties and other participants in the procedure		No fines or measures have been imposed for failing to attend court hearings.

			Reduction of old cases	20%	20%

3	Objectives of the annual work plan of the courts:	Objective 1: Organizing the work of the courts	Istog Branch retired during this reporting period. The President of the Court held a Collegium meeting with the judges, during which discussions focused on the organization of work in accordance with the 2026 Work Plan, potential challenges and work-related issues encountered during the first quarter of the year, court statistics, postponed hearings and the reasons for such postponements, as well as the performance and efficiency of professional associates. During this quarter, three new professional associates commenced their employment and were assigned to the branches of the Basic Court of Peja.	Realization of the work norm of professional associates	100%	100%
		Objective 2: Court administration and responsibilities:	The Court remains committed to the full and accurate implementation of the CMIS (Case Management Information System), and regular checks are continuously conducted to ensure the consistency between electronic case files and physical case files. During this quarter, judges, particularly those serving in the Serious Crimes Department, continued coordinating their schedules to ensure the scheduling of consecutive hearings and thereby facilitate the efficient handling of cases. Furthermore, the recording of data in the criminal records system continued, as did the practice of conducting block hearings, especially by judges of the Serious Crimes Department.	Increasing the quality of decision-making, respectively reducing the number of cases	100%	
				Increase in the number of published decisions	20%	20%
				Increasing the number of block sessions	30%	25%
		Objective 3: Implementation of Strategies	At the Collegium meeting, the President of the Court instructed all judges to fully implement the strategic plans of the Kosovo Judicial Council (KJC) and to undertake all actions arising from the obligations set forth within those strategies. The Court has diligently implemented the legislation governing the use of official languages in all cases processed during this quarter. In addition, records relating to corruption and organized crime cases continue to be maintained and regularly reported.	Scheduling sessions and reducing the number of postponed and canceled sessions	20%	15%
				Increasing data quality in relation to case registration and case completion by harmonizing the electronic file with the physical file with all procedural actions undertaken	95%	95%

		and Legislation:		Correct entry of court decisions in the Criminal Records Register	100%	100%
		Objective 4: Monitoring and Reporting	Judges report on the achievement of objectives set out in their respective action plans to the President of the Court. Professional associates submit monthly reports to the Head of the Legal Support Office, which are subsequently forwarded to the President of the Court and include information on completed tasks and activities. Legal officers submit weekly reports containing data on the number of hearings held, postponed, and failed. The Court management reports to the Court Administrator on a monthly basis, while the Administrator submits periodic reports to the President of the Court. The President of the Court maintains continuous oversight to ensure that all functions and procedures are carried out in a coordinated and efficient manner, with the aim of improving the Court's overall performance and productivity. The implementation of the KJC's strategic acts is regularly monitored by the President of the Court, and judges are required to provide regular reports regarding their efficiency and the reasons for any failure to achieve the expected level of efficiency. The Court continuously requires reports from department heads and supervising judges concerning the current situation within their respective departments, including any existing backlogs and areas requiring additional attention and effort. Through the CMIS system, the Court maintains records of all hearings that were not held, together with the reasons for their postponement or non-conduct, and explanations are requested from the responsible judges. The Court also continuously maintains statistical records on newly registered corruption cases as well as cases that have been completed.	Implementation of the Procedural Justice Plan	100%	100%
				Complete registration of all cases in the archive	100%	100%
4	Implementation of the Kosovo Judicial Council Strategic Plan:		Actions taken regarding the objectives of the strategic plans:	Number of cases conducted according to the sub-objectives of the Strategy for Improving Access to Justice:		
		Strategic Pillar 1 – Independent, efficient and transparent judiciary	The publication of court decisions continues on an ongoing basis, including the publication of hearings on the Court's official website and on the electronic display board within the Court building. Furthermore, the Public Information Office regularly issues communications regarding decisions rendered by the Court.	Total: 768 judgments published.		
		Strategic pillar 2. Organization and management of the work of the court	During the first quarter, we remained in anticipation of the recruitment procedures for the referred positions. The shortage of an IT officer and a Serbian-language translator continues to be of particular concern, as these positions are highly needed.			

5	Judicial strategy	Strategic Pillar 3 - Quality, accountability and professionalism of the judiciary	During the first quarter, judges made efforts to reduce the backlog of old cases; however, the level of efficiency could not reach the desired standard due to the redistribution of cases and the transfer of a judge. Work has continued on the handling of urgent cases, such as security measure cases, pre-trial detention matters, domestic violence cases, and other cases requiring urgent treatment, in accordance with the decision of the Kosovo Judicial Council (KJC). During the first quarter, at the Malisheva branch, due to the transfer of a judge from the branch to the Court's headquarters, a significant reduction was observed in the number of cases assigned to the Court. Within this period, 1,237 cases were completed (the number was calculated based on the reports of professional associates), and it is noteworthy that a substantial number of these cases were resolved. As a result, only a small number of unresolved cases remain at this branch.	The number of cases older than two (2) years resolved during the reporting period is as follows: General Criminal Cases – Preliminary Procedure: 0 cases; General Criminal Cases – Trial Proceedings: a total of 209 cases; Serious Crimes – Preliminary Procedure: 0 cases; Serious Crimes – Trial Proceedings: 5 cases; Juvenile Criminal Cases – Preliminary Procedure: 0 cases resolved; Juvenile Criminal Cases – Trial Proceedings: 0 cases resolved; Contested Civil Cases: 758 cases resolved; Non-Contested Cases: 42 cases resolved; Enforcement Cases: 11 cases resolved; Misdemeanor Cases: 10 cases resolved. The total number of cases returned for retrial was 15. The total number of cases concluded due to the statute of limitations was 107. The total number of final and enforceable judgments that remain unexecuted was 675 cases.
		Strategic Pillar 4: Access to Justice	In accordance with this strategy, judges treat these cases as a priority.	During this reporting period, the Court handled one (1) corruption-related case involving five (5) defendants under Article 414 of the Criminal Code of the Republic of Kosovo (CCRK). The same case was returned for retrial.
		Strategic Pillar 5: Public Trust and Satisfaction	Through the Public Information Office, equal treatment and public information regarding the work of the Court are ensured. Cooperation has been maintained with non-governmental organizations that monitor the work of the courts and the publication of court decisions on official websites, including the publication of court decisions, press releases, and responses regarding cases under consideration. All such actions are carried out in accordance with the law.	During this reporting period, the Court received and processed six (6) requests for access to official documents, as well as thirty-four (34) requests for information.
		Strategic Pillar 6: Technology in support of the functioning and access to justice	Criminal judges continue to conduct hearings using audio recording systems, and there has also been an increase in the number of hearings conducted through videoconferencing. Compared to previous years, the number of such hearings has increased significantly. The Court has installed a videoconferencing system in Hall No. 1, which, due to its capacity, is used for hearings involving a larger number of participants as well as for all hearings requiring a videoconference connection.	The Court remains committed to: Improving equal access to justice; Increasing transparency and accountability; Strengthening institutional capacities; and Modernizing services through the use of technology.
6	KJC communication strategy		The Kosovo Judicial Council's Communication Strategy is being actively implemented. Through the Information Office, special importance is given to relations with the public and the media, with the aim of increasing public trust and enhancing transparency. During this quarter, the Information Office conducted 34 communications and responses to media outlets and non-governmental organizations (NGOs), issued 7 press releases, processed 6 requests for access to public documents, and published 10 announcements on the website of the Basic Court of Peja regarding meetings and developments within the Court.	

7	Other strategies and plans	The Court implements all strategies and action plans adopted by the Kosovo Judicial Council (KJC).
8	Implementation of the norm by judges with special emphasis on reporting on individual failure to comply with the norm by the judge.	Judges regularly report on the fulfillment of their performance targets, and continuous communication is maintained with judges in order to ensure the most efficient achievement of performance standards.
9	Participation in training for the president and judges, specifying the quality of participation, except in cases of exclusion from attending the training.	Throughout this quarter, judges attended the necessary training programs in accordance with the training schedule of the Justice Academy.
10	Number of postponed sessions. Specify the reasons for the postponement of the sessions.	During the first quarter, a total of 1,498 hearings were scheduled in the Criminal Department of the Basic Court of Peja and its branches. Of these, 908 hearings were held, while 590 were unsuccessful. Among the unsuccessful hearings, 330 failed due to the absence of the defendant, 91 due to the absence of the prosecutor, and 169 due to other reasons. With regard to the Civil Department, a total of 1,532 hearings were scheduled during this quarter. Of these, 1,218 hearings were held, while 314 were unsuccessful. Among the unsuccessful hearings, 33 failed due to the absence of the respondent/defendant, while 281 failed due to other reasons.
11	Number of fines imposed and other measures (type of measure taken) for failure of court hearings, parties and other participants in the procedure

13.Logistics	During the first quarter of 2026, the Logistics Unit processed and registered six (6) delivery notes in the e-Asset system for consumable supplies and prepared 343 individual issue slips for staff members relating to consumable materials. The Unit also contributed to the 2025/2026 Inventory Process at the Basic Court of Peja through activities such as locating asset barcodes, conducting inventory transfers based on requests from the relevant commission officials, and carrying out the physical disposal of assets, which is currently in the process of being reconciled with the e-Asset system..									

14. Payment Certification Office	During this period, the Payment Certification Office received a total of 558 expenditure requests. Of these, 543 expenditures were certified/approved, while 15 expenditures were cancelled or returned for correction, amounting to a total value of EUR 110,963.96. The breakdown by month is as follows: January: Received: 0; Certified: 0; Cancelled/Returned for Correction: 0; Value: EUR 0.00 (the budget had not yet been allocated); February: Received: 284; Certified: 270; Cancelled/Returned for Correction: 14; Value: EUR 65,825.65; March: Received: 274; Certified: 273; Cancelled/Returned for Correction: 1; Value: EUR 45,138.31. As always, all expenditures were certified and approved within the legally prescribed deadlines.
15. Court cooperation with national and international non-judicial entities	To ensure effective and professional operations, the Court maintains continuous cooperation with domestic and international institutions, including the Prosecution, the Police, the Organization for Security and Co-operation in Europe (OSCE), and the European Union Rule of Law Mission in Kosovo (EULEX), thereby supporting the coordination and oversight of judicial processes.
16. Court president's Office	The Office of the President of the Court has continued to operate efficiently by responding to concerns and requests submitted by third parties. It has also handled cases related to International Legal Assistance and has efficiently provided the assistance requested by foreign authorities. During the reporting period, seven (7) disciplinary complaints were submitted, of which five (5) were rejected, while two (2) were dismissed by the competent authority. The respective decisions have been published on the Court's website.
17. Enforcement Office	During this quarter, the Enforcement Office received 107 cases. Of these, 52 cases related to imprisonment sanctions and 70 cases related to fines. A total of 25 imprisonment enforcement cases and 87 fine enforcement cases were completed, resulting in 112 completed cases overall. Misdemeanor Enforcement Cases: Inherited cases: 718; Newly received cases: 79; Resolved cases: 152, of which 85 were concluded due to the statute of limitations; Pending cases: 645. 		During the first quarter, judges continued their work in the departments designated under the Court's Work Plan. In the Civil Division, reviews were conducted regarding the redistribution of cases (at the end of 2025) among the judges of this division, with the aim of balancing workloads among judges and increasing the efficiency of handling old cases. During this quarter, two new judges joined the Court. They are currently undergoing a three-month practical training program in the criminal field. During this practical training period, they have been assigned minor offense cases as well as a certain number of regular cases from the	Reduction of cases in accordance with the Strategic Plan for Access to Justice 2022–2025: 20%	20%	
			Reduction of old cases: 20%.	20%	

Remark

According to calculations, the reduction of old cases and cases according to the Strategy has been at an unsatisfactory level.

3	Objectives of annual work plan of courts:	Objective 1: Organization of Court Operations	General Department, Criminal Division. Professional associates continued their work in their designated areas of responsibility, carrying out rotations as provided for in the Court's Work Plan. The two professional associates who had been transferred to the Branch of the Court in Malishevë in mid-November 2025 were returned to the Court's main seat at the end of March 2026. At the Court's main seat, with regard to administrative staff, there is a shortage of an IT officer/operator, a Serbian-language translator, a logistics officer, and an archivist. Efforts have been made to cover these positions, where possible, with officials from the Court branches. Meanwhile, the Court branch in Malishevë lacks a legal officer and a receptionist, and these positions are currently being covered by personnel from other positions until they are filled. In the Court branch in Rahovec, pursuant to a decision of the Kosovo Judicial Council (KJC) regarding the monitoring of branches of the Basic Courts, two security officers were transferred—one to the position of driver and the other to the position of maintenance officer/caretaker. However, they have not yet received their formal appointment decisions for these positions.	Achievement of the professional associates' workload norm.	100%	100%	
		Objective 2: Court Administration and Responsibilities:	In accordance with the training plan of the Secretariat of the Kosovo Judicial Council (SKC/KJC) for staff, the Court and its branches ensured the participation of all personnel in training activities, including both newly recruited staff and existing employees. The Court has continued to ensure that the accuracy of data entered into the SMIL system and its consistency with the physical case files remain at the required standard. The timely publication of decisions in accordance with the relevant Instruction has been continuously monitored, and regular consultations have been held with the official responsible for this task regarding all delays and the identification of obstacles. During this period, the branches in Malishevë and Rahovec were monitored by the Court's main seat from 18:00 hours until the following morning. At the Court's main seat, an agreement was reached with the Police Station for physical assistance by the Police in securing the Court premises. Under this arrangement, one police officer assists the Court's security personnel every day from 09:00 to 15:00. Since the beginning of this quarter, security officers have increased the standard of screening and inspection of all citizens and parties who access and receive services within the Court facilities, with particular attention given to those participating in court hearings. Efforts are also underway to establish a similar agreement for the Court branches.	Improvement of the quality of decision-making, respectively the reduction of the number of cases remanded for retrial;	20%		Cases returned for retrial are being handled and judges are implementing the recommendations of higher courts
				Increase in the number of published decisions;	30%	20%	1710 decisions have been published.
				Increase in the number of block hearings.	30%		Judges are making efforts to Schedule block hearings. During this quarterly there was a number of postoponed cases
		Objective 3: Implementation of Strategies and Legislatio:	The strategic plans of the Kosovo Judicial Council continue to be implemented on an ongoing basis. Judges are instructed at every meeting to ensure their proper implementation. The Court has implemented the legislation concerning the use of official languages in all cases presented during this quarter, despite the resignation of the Court's translator. Nevertheless, appropriate arrangements were made to secure translation services for the parties whenever needed.	Planning of court hearings and reduction of the number of postponed and cancelled hearings;	20%	20%	
				Improvement of the quality of data relating to case	95%	90%	

		Objective 4: Monitoring and Reporting	The implementation of the KJC strategic acts is monitored, and judges are required to report regularly on efficiency and the reasons for not achieving efficiency. The court continuously requests reports from department heads and supervising judges on the current situation, if there are any bottlenecks and areas where more work needs to be done. The court keeps records according to the SMIL program for all missed sessions and the reasons for not holding them, for which judges are required to respond. Corruption cases continue to be monitored and treated with special attention to ensure that cases are completed on time. Special attention has been paid to the civil area of the headquarters and the Malisheva branch, where judges have been reporting on a monthly basis, since January, on the number of completed cases (their type and age), the number and type of assigned sessions, all of this in order to monitor the treatment of priority cases with special emphasis on old cases. Regular meetings are held with heads of offices to identify shortcomings and challenges, as well as meetings with supervising judges and heads of departments to address and address the findings from their reports.	Full registration of all cases in archive	100%	96%
4	Implementation of the Strategic Plan of the Kosovo Judicial Council		Actions Undertaken in Relation to the Objectives of the Strategic Plans	Number of Cases Resolved under the Sub-objectives of the Strategy for Improving Access to Justice:		
5	Judiciary strategy	Strategic Pillar 1 – An Independent, Efficient and Effective Judiciary	Judicial decisions continue to be published on a regular basis. Court hearings are also published on the Court's website and displayed on monitors within the Court building. Furthermore, the Information Office issues press releases regarding decisions rendered by the Court.			
		Strategic Pillar 2 – Organization and Management	During the first quarter, the Court remained in anticipation of the recruitment procedure for two court clerks/referents. The lack of an IT Officer and a Serbian-language translator continues to be a matter of concern, as both positions are highly necessary for the proper functioning of the Court.			
		Strategic Pillar 3 – Quality, Accountability and Professionalism of the Judiciary	During the first quarter, judges made efforts to reduce the number of old cases; however, efficiency could not reach the desired level, partly due to the redistribution of cases within the civil field. Work was undertaken to address urgent cases, including those involving security measures, detention matters, domestic violence cases, and other urgent cases, in accordance with the decision of the Kosovo Judicial Council (KJC). During the first quarter, at the Court Branch in Malishevë, following the transfer of two professional associates from the Court's main seat, a significant reduction was observed in the number of cases arising from the Collective Agreement. Within these three months, a total of 1,237 cases were completed (the figure is based on the reports of the professional associates). Consequently, the number of such cases in this branch was substantially reduced, leaving only a small number of unresolved cases.			
		Strategic Pillar 4	In accordance with this strategy, judges treat these cases as a priority.	During the first quarter of 2026, one corruption case was completed.		
		Strategic Pillar 5 – Public Trust and Satisfaction	The Information Office ensures equal treatment and public information regarding the work of the Court. Cooperation has continued with non-governmental organizations that monitor the work of the courts and inform the public through the maintenance of the official website, publication of judicial decisions, issuance of press releases, and responses to requests for information. All of these actions have been undertaken with the aim of increasing transparency and strengthening public trust in the judiciary.			
		Strategic Pillar 6 – Technology in Support of Judicial Functioning	Judges in the criminal field conduct hearings using audio recording systems. In addition, the use of video-link hearings in specific cases is becoming increasingly frequent. As previously reported, Courtroom No. 1 is also equipped with a video-recording system. Due to its capacity, this courtroom is used for hearings of significant importance and for hearings requiring video-link connections.			
	KJC Communication Strategy		The Communication Strategy of the Kosovo Judicial Council is being implemented through the Court's Information Office, with particular emphasis on public and media relations in order to increase public trust and transparency. During the first quarter, the Information Office carried out the following activities:			

6		Issued 4 press releases; Prepared 32 information notices, announcements, and responses for media outlets, NGOs, domestic and international monitoring organizations, lawyers, and other interested parties; Published 9 announcements and various Court activities on the social media platform Facebook, as well as on a judge's profile; Received 5 requests for access to public documents, of which: 4 requests were approved; 1 request was rejected; Published a total of 1,710 judicial judgments and rulings; Published 1 disciplinary decision.
7	Other Strategies and Plans	The Court implements all strategies and plans developed and adopted by the Kosovo Judicial Council on an ongoing basis.
8	Implementation of Judicial Performance Standards, with Particular Emphasis on Reporting Individual Judges' Failure to Meet Performance Standards	Judges report on the fulfillment of their performance standards, and continuous communication is maintained with them regarding the reasons for any failure to meet those standards. During this quarter, a considerable number of cases were resolved, and ongoing efforts are being made to ensure the urgent handling of old cases, alongside other cases that have legal and strategic priority.
9	Participation of the Court President and Judges in Training Activities, Specifying the Quality of Participation, Except in Cases of Exemption from Attending Training	Throughout the first quarter, the President of the Court continuously participated in training sessions, conferences, and roundtable discussions organized by the Kosovo Judicial Council and other organizations. She also attended the presentation of the Annual Work Report of the Regional Police Directorate in Gjakova. Furthermore, following invitations from the Kosovo Judicial Council, the Academy of Justice, and other organizations for judges to participate in various training activities, the Basic Court in Gjakova continuously ensured the participation of its judges in such trainings, depending on the subject matter of the training. Judges from various departments and divisions were also present and actively participated.
10	Number of Postponed Hearings – Specify the Reasons for the Postponement of Hearings	During the first quarter, according to the SMIL system records, 516 hearings were recorded as postponed at the Court's main seat and its branches. According to the data recorded in SMIL, the reasons for postponement in criminal cases were mainly: Failure of the defendant to appear; Failure of witnesses to appear; and Failure of defense counsel/attorneys to appear. In civil cases, the reasons for postponement mainly related to: Improper service of summons on the defendant; Improper service of summons on the plaintiff; Failure to identify or locate the plaintiff's correct address. A smaller number of postponements occurred due to: Official duties; Requests submitted by the parties; and Other procedural obstacles.
11	Number of Fines Imposed and Other Measures Taken (Specify the Type of Measure) Due to the Failure of Court Hearings Caused by Parties and Other Participants in the Proceedings	There were no cases in which sanctions or other measures were imposed due to the failure or non-conduct of court hearings.

13.Logistics	During the first quarter, regular supplies of printed materials, paper, fuel, and other necessary items were provided by the Secretariat of the Kosovo Judicial Council (SKC/KJC). There are ongoing problems with printers and toner cartridges, which hinder and slow down work processes. This issue has also been identified in the Court Branch in Rahovec, whose staff have expressed significant concern regarding this matter.
14. Payment Certification Office	With regard to the Payment Certification Office, all matters are certified in a timely manner and within the prescribed deadlines. During the first quarter of 2026, a total of 276 payments were certified.
15. Cooperation of the Court with National and International Non-Judicial Entities	The Court maintains continuous cooperation with all domestic and international institutions with the aim of improving the functioning of the Court. Such cooperation includes the Prosecution Office, the Police, the OSCE, EULEX, UNDP, and various NGOs that monitor the work of the Court. During this period, the President of the Court also received representatives of the Group for Legal and Political Studies (GLPS), who presented their projects and discussed opportunities and methods for cooperation with the Court.
16. Office of the Court President	During this quarterly period, the President of the Court received representatives of various institutions, including: Mr. Ylli Bokshi, Representative of the Regional Bar Association Office; Mr. Mark Kaqinari, Ombudsperson; Mr. Bekim Avdijaj, Head of the Regional Investigation Office; Representatives of the Kosovo Law Institute (IKD) – Oath for Justice (Betimi për Drejtësi). Meetings were held to discuss the strengthening of institutional cooperation and the advancement of the functioning of the justice system. Following one such meeting, the President also participated in an interview conducted by the representatives of IKD. During this quarter, the President conducted working visits to the branches of the Basic Court in Gjakova, namely the branches in Rahovec and Malishevë, in order to observe their work firsthand and identify the challenges they face during the course of their activities. The Office of the President also continued its work on other matters, including cases involving international legal assistance and various official correspondence. In accordance with the principle of transparency, the President held weekly meetings with citizens, who were given the opportunity to express their concerns regarding cases pending before the Court. Their requests and complaints were subsequently forwarded to the judges responsible for those cases. During the first quarter, a total of 49 requests for meetings with the President were submitted. Of these: 44 meetings were held; 5 meetings were not held, as they concerned criminal cases for which information cannot be provided by the President, or because the parties failed to appear. Furthermore, during the first quarter, two meetings with citizens were organized within the framework of the “Open Days” initiative, during which participants had the opportunity to learn about the work and functioning of the Court.
17. Enforcement office	The enforcement of cases continued, and efforts were made to ensure that such cases were handled without delay. During this quarter: 45 EDGJ cases were received, and 34 were completed; 21 PED cases were received, and 24 were completed. In addition, in the field of misdemeanors, during the first quarter: 149 cases were received; 119 cases were resolved.

II. Implementation of strategic plans, regulations and other acts adopted by the Council

2	Preparation and submission of the court's annual work plan to the KJC		Date of submission to the KJC:	Date of approval by the KJC:		
	Implementation of the court's annual work plan:		Actions taken regarding the objectives of the annual work plan of the courts:	Percentage of completed goals:		
					Percentage set by the KJC	**Percentage achieved**
		Objective 1: Organizing the work of the courts	In the first quarter of 2026, the Court of Appeal, in terms of reducing backlogs, according to the Strategic Plan, has completed the backlogs of 2022, which has also contributed to the reduction of backlogs, with a significant number of them being resolved. The workload of professional associates has been achieved in relation to their commitment according to the Court's Work Plan, during this reporting period.	Reduction of cases according to the strategic plan for access to justice 2022-2025	20%	30%
				Reduction of old cases	20%	20%
				Realization of the work norm of professional associates	100%	100%
		Objective 2: Court administration and responsibilities:	During the first quarter of 2026, this court has published 2316 judicial decisions on its official website, while if we compare it with the first quarter of 2025, it turns out that this year 268 more decisions have been published in this period, all with the aim of increasing transparency, public access to justice and strengthening citizens' trust in the judicial system. This court is now implementing Administrative Instruction No. 01/2025 on the publication of judicial decisions.	Increasing the quality of decision-making, respectively reducing the number of cases returned for retrial	20%	20%
				Increase in the number of published decisions	30%	50%
				Increasing the number of block sessions	30%	30%

3	Objectives of the annual work plan of the courts:	Objective 3: Implementation of Strategies and Legislation:	The Court of Appeal has continuously taken care of scheduling productive hearings and their implementation according to plan, so that the same ones that have been scheduled by the judges' offices have also been published on the court's website, specifically in the special section of the hearing schedule. In the first quarter of 2026, a total of 307 hearings were published, while if we compare it with the first quarter of 2025, we can see that this year 66 more hearings were published, with the aim of encouraging citizens and interested parties to participate in public hearings, as well as creating easier public access to justice. Meanwhile, during this quarter, 11 hearings were postponed, and that at the request of the parties' defense attorneys, as they were engaged in other representations, at the same time and on the same date, due to the fact that the exact address was not found and one case due to the appointment according to the official duty of the lawyer by the KCA. During the period January - March 2026, for all physical files received, all actions were simultaneously recorded in the electronic file (SMIL), except for cases that the system does not support.	Scheduling sessions and reducing the number of postponed and canceled sessions	20%	20%
				Increasing data quality in relation to case registration and until the completion of cases by harmonizing the electronic file with the physical file with all procedural actions undertaken	95%	95%
				Correct entry of court decisions in the Criminal Records Register	100%	/
		Objective 4: Monitoring and Reporting	During this period, regarding the implementation of the plan for early scanning of cases, the court has appointed a professional associate, where the same has made the evidence and conclusion of the cases that belong to this field. The Court of Appeal, during this quarter, has managed to register all the cases that have met the conditions for archiving within the court. Now after this period of the first quarter of 2026, the court is without the archive officer since the same has been selected in the Supreme Court.	Implementation of the Procedural Justice Plan	100%	100%
				Complete registration of all cases in the archive	100%	100%
4	Implementation of the Kosovo Judicial Council Strategic Plan:		Actions taken regarding the objectives of the strategic plans:	Number of cases conducted according to the sub-objectives of the Strategy for Improving Access to Justice:		
5	Judicial strategy	Strategic Pillar 1 – Independent, efficient and transparent judiciary	This pillar has been implemented by the Court of Appeal through the provision of statistical data from the case management information system, from the Case Tracking Mechanism, through the provision of information on cases and procedural actions within this court, as well as through communication with citizens, for which we have mentioned our activities as follows. The court staff, in the context of fulfilling their duties, have shown efficiency in their work, which is documented in their individual reports and in the relevant assessments.			
		Strategic pillar 2. Organization and management of the work of the court	The Court of Appeal has implemented its Work Plan regarding the organization and management of the work in the court, so that through this plan the organization of the relevant court offices, departments and divisions in the court has been determined. The tasks and responsibilities of each employee in the Court of Appeal have also been determined, systematizing and organizing them according to the needs and requirements of the court.			
		Strategic Pillar 3 - Quality, accountability and professionalism of the judiciary	Regarding quality, accountability and professionalism, in this regard, the commitment to achieve this objective is continuous and aims to continuously increase, namely the quality and professionalism of judges through training organized by the Academy of Justice in cooperation with the KJC and meetings within the court with professional collegiums which influence the advancement and increase of quality, while accountability aims to be achieved through continuous supervision and monitoring of the work of judges.			
		Strategic Pillar 4: Access to Justice	Through the publication of hearings on the official website, this court has aimed to encourage citizens and interested parties to participate in public hearings, with the aim of providing easier public access to justice, as well as through the continuous publication of decisions and other court materials and data.			

		Strategic Pillar 5: Public Trust and Satisfaction	The aim is to increase public trust in the court through accurate and coherent information to the public, updating data on the court's performance, and publishing awareness-raising video materials on the court's website and on the Facebook social network, regarding the services provided by this court, as well as other issues of public interest. This point has also been achieved through the regular publication of disciplinary and judicial decisions, as well as through coverage of the court's activities. Within this pillar, there is an opportunity on the court's website to evaluate court services, which enables the exchange of experiences of citizens who have received services from the court.
		Strategic Pillar 6: Technology in support of the functioning and access to justice	In relation to this pillar, the court's website contributes to access to justice, through the search for cases in process by the parties, which is also linked to the e-Kosova platform, allowing them to track the status of their cases and at what stage of the procedure they are.
6	KJC communication strategy		The Court of Appeal always pays special attention to the implementation of this Strategy, with a focus on increasing transparency, promoting the work of the court and strengthening public trust in the judicial system, through regular and coherent communication with its citizens, the media and civil society. On a regular monthly basis, this court communicates with citizens, where during the first quarter of 2026 it has received about 357 requests for access to information and requests for access to public documents, has responded to all of them, while it has approved 12 requests for access to public documents by issuing 12 decisions on the approved requests. On a monthly basis, it publishes statistical data on the performance of the court, on the website and on the social network Facebook, including general reports of the court and individual reports of its judges. Also, in the framework of promoting and reflecting the activities of this court, during January-March 2026, it has compiled and published on the website (in both official languages) and on the social network Facebook a total of 13 communications/activities, with the aim of applying proactive communication with the media and civil society for processes that are in the public interest. The Office for Information and Communication with the Media of the Court of Appeal has updated data on its official website, including changes in the judges' column, due to frequent movements, either with their advancement to the Supreme Court or transfer from the Basic Courts of Kosovo to the Court of Appeal, monthly statistics published in a graphical format, decisions, competitions for voluntary interns, meetings of the president and participation in various activities, as well as other activities that have also been published on the social network Facebook. During the months of January - March 2026, 6 disciplinary decisions were published, which were taken by the president of this court, as the competent authority in reviewing and handling complaints from natural and legal persons, as well as 2316 court decisions and 307 hearings.
7	Other strategies and plans		During the first quarter of 2026, due to the advancement and commencement of work of three judges, cases were assigned to them, which resulted in the division of cases for the judge from the civil field, and two judges from the criminal field, where reassignments were also made with SMIL for the same according to the court's work plan for 2026.
8	Implementation of the norm by judges with special emphasis on reporting on individual failure to comply with the norm by the judge		Monitoring the norm of judges remains a challenge for the Presidents of Courts, because we do not have a mechanism that would automatically calculate the monthly or annual work norm of judges and this is currently being done manually by the judges' offices, so that the identification of the norm of judges is expected to be ensured by the SMIL system, which would automatically calculate the points according to the cases completed by the judges, but at the same time, the files and physical actions must be identical with SMIL, in order to calculate the points through the system, because based on current practice, judges calculate the points themselves according to the old method of submitting the norm.
9	Participation in training for the president and judges, specifying the quality of participation, except in cases of exclusion from attending the training.		The President and several judges of this court are engaged in the Academy of Justice, in the Initial Training Program for Young Judges and training provided for professional associates. The trainings are supported by the KJC and the Academy of Justice. In addition to being trainers, they have participated as trainees in organizations or round tables from various local and international institutions.
10	Number of postponed sessions. Specify the reasons for the postponement of the sessions.		During this quarter, 11 hearings were postponed, the reasons for one case were because the notice was not sent to the correct address, one case due to the appointment of a defense attorney according to official duty and other cases at the request of the parties' defense attorneys, as the same were engaged in other representations, at the same time and on the same date.
11	Number of fines imposed and other measures (type of measure taken) for failure to attend court hearings, parties and other participants in the procedure		No fines or measures have been imposed for failing to attend court hearings.

					Percentage defined by KJC	**Percentage achieved**
	Objikuar e planit strategjik për qasje në	Objective 1: Organizing the work of the Courts:	After discussions with the Head of Departments and branch supervisors on 13.01.2026, we have drafted the Work Plan for 2026, in which we have foreseen the strengthening of professional capacities of Judges, Professional Associates and of the administrative staff. a) Reducing the caseload of Judges and their case assignment: according to the Work Plan for this year, one of the objectives we have foreseen is to continue with the trend of equalizing all Judges with cases. Regarding the engagement, Judges in the center are almost all satisfactorily engaged and in some Branches with an exception of the Branch in Vitia where there is much more space that are in use – engaged, where in this quarter we have also visited Branches, met with Judges and	strategic plan for access to justice	20%	21.47%

		Objective 2: Administration of the Court and	In this first quarter, accountability and responsibility of Judges have been further increased, of Associates and of other staff, and we have almost no issues in relation to the schedule, place and work duties by all employees in this Court, and each day the efficiency, accountability and responsibility of all employees of this Court is increasing.	making, respectively reducing the	20%	ongoing
				Rritja e numrit të vendimeve të publikuara	30%	%

	Objektivat e planit vjetor te punes se gjykatave:	responsibilities:		Increasing the number of block sessions	30%	ongoing
		Objective 3: Implementation of Strategies and Legislation:	Implementation of strategies and legislation in the Basic Court in Gjilan, where the work plan also are defined objectives arising from these documents. We are now in the second quarter, and during this period Judges have been engaged in completing cases at the center and assisting those in the Branches in order to reduce the number of cases, in order to fully implement strategies approved by the KJC.	number of postponed and canceled	20%	ongoing
				completion of cases by harmonizing the electronic file with the physical file	95%	ongoing
				Correct registering the Court Rulings in the Criminal Records Registry	100%	100%
		Objective 4: Monitoring and Reporting	Judges and Professional Associates have reported on a regular basis on their work, the report on completed cases, on cases that fall within the framework of strategic plans and this has been done continuously by monitoring work reports, completed cases and the manner of their solvement.	Implementation of the Procedural Justice Plan	100%	ongoing
				Complete registration of all cases in the archives	100%	100%
4	Implementation of the Strategic Plan of Kosovo Judicial Council:		Undertaken actions regarding objectives of the strategic plans:	Number of the completed cases according to the sub-objectives of the Strategy for Improvement of Access to Justice:		
5	Judicial strategy	Strategic Pillar 1 – Independent, efficient and transparent Judiciary	Increasing transparency of the Court: Even in this quarter we have contributed in increasing transparency by hosting citizens, lawyers, NGO representatives, representatives of local institutions and of civil society. We have received several requests for access to official documents, questions from journalists, and we have responded to the requests within the deadline. We have also made efforts to publish as many Court decisions as possible, and this year we have published 848 Court Rulings.			
		Strategic pillar 2. Organization and management of the work of the Court	Basic Court in Gjilan has implemented its work plan regarding organization and management of the work in the Court, hence that through this plan the organization of the Court, departments, divisions in the Court and its branches have been defined. Duties of each administrative official have also been defined.			
		Strategic Pillar 3 - Quality, accountability and professionalism of judiciary	Regarding transparency, accountability, objectivity, impartiality and independence, we continuously require and encourage Judges to be independent and impartial in handling cases, since building the trust in the Basic Court of Gjilan and in the justice system in general is one of the main objectives and this can be achieved with serious and continuous work and commitment from all employees of the present Court.			
		Strategic Pillar 4: Access to Justice	According to the work plan, Court has implemented the strategic plan on improving access to justice, providing equal services to all citizens. The use of digital technology has included publishing online of Court hearing schedules, publishing of Judgements, various announcements, and holding meetings with the Court staff regarding equal access to Parties			
		Strategic Pillar 5: Public Trust and Satisfaction	In order to increase public trust and satisfaction, Office for Information and Communication with Media during the Ist quarter has received 7 requests on Access to Public Documents out of which 3 have been approved, 1 was rejected and 3 were notified to the Parties. 16 requests for information have been received from the media and various civil society organizations submitted through official e-mail have been reviewed and processed. 6 public announcements/notifications have been published.			
		Strategic Pillar 6: Technology in supporting functioning and access to justice	succeeded and it undoubtedly appears as an issue in the daily work of the Court, and at the same time the outcome of the work expressed in percentage is higher than what is actually presented to us in the system (as we mentioned in the preliminary procedure cases). Related to the technology, we have a lack of functional printers in offices with the staff (judicial and administrative), and there are also ongoing issues in the Courtrooms, despite the fact that audio-visual equipment has already been installed in one of our Courtrooms and computer equipment has been replaced in several others.			
6	KJC's Communication Strategy		Office of Information and Media Communication, in cooperation with the Office of the President, has ensured that the public is informed about the work of the court and its branches, through announcements, communiqués and various information that the parties, the media and civil society have hadZyra për Informim dhe Komunikim me Media, në bashkëpunim me Zyrën e Kryetarit ka siguruar që publiku të jetë i informuar për punën e gjykatës dhe degëve të saj, përmes njoftimeve, komunikatave dhe informacioneve të ndryshme që palët, mediat dhe shoqëria civile kanë nevojë			

7	Other strategies and plans	Basic Court in Gjilan and its Branches, Strategic Plans approved by the KJC have the continuous objective of their implementation.
8	Implementation of the norm by Judges with special emphasis on reporting on failure to comply with the norm by an individual Judge.	Monitoring the workload of Judges remains a challenge for the Court Preesident, because there is no mechanism that will automatically count monthly, quarterly or annual workload of Judges and this is currently being carried out manually by the Judges' offices.
9	Participation in training for the President and Judges by specifying the quality of participation, except in cases of exemption to attend trainings;	Judges have participated in trainings planned and organized by the Academy of Justice, likewise Judges from the Basic Court in Gjilan have participated in roundtables organized by various national and international institutions, according to requests and invitations of the organizers, but without affecting their assigned work and sessions.
10	Number of postponed sessions. Specify reasons for the postponement of sessions.	In the Basic Court in Gjilan, in the first quarter of 2026, a total of 3269 sessions were scheduled, out of which 2412 sessions were held, whereas 857 sessions were annulled. Reasons are various, but the most notable are absence of Parties and witnesses.
11	Number of fines imposed and other measures (type of undertaken measures) on failure of court hearings, Parties and other participants in the proceeding.	We did not have any case.

Objective 3: Implementation of Strategies and Legislation:	Court has fully implemented the Strategy for Improving Access to Justice, and all cases have been handled according to legal priority, respecting the time of their admission and the priority defined by the strategy and applicable laws.	Scheduling sessions and reducing the number of postponed and canceled sessions		
				the completion of cases by harmonizing the electronic file with		
				Rulings in the Criminal Records		
		Objective 4: Monitoring and Reporting	Based on internal monitoring and regular work reports, all cases during this reporting period are handled in accordance with applicable Regulations, monitoring of administrative work and reporting of the staff is conducted each month.	Implementation of the Procedural Justice Plan		
				Complete registration of all cases in the archives		
4	Implementation of the Strategic Plan of Kosovo Judicial Counci**l:**		Undertaken actions regarding objectives of the strategic plans:	Number of the completed cases according to the sub-objectives of the Strategy for Improvement of Access to Justice:		
		Strategic Pillar 1 – Independent, efficient and transparent Judiciary	Commercial Court of Kosovo on 22 December 2025 has drafted the Court's Work Plan for the year 2026. Based on the results of the work for this period, an annual plan of the Court for 2025 has been implemented despite the fact that the Court has operated at incomplete capacity, due to the failure to fill the number of positions of Judges, administrative and professional staff, as defined in the Organogram of the Commercial Court**,** but even with the failure to meet the conditions with the needed spaces for the development of official activity. Commercial Court, respectively Office of Case Management of both Chambers, during this period has filled the number of vacant positions by which has been facilitated the coping with the large number of inherited and received cases. Commercial Court, based on the hearing schedule published on the website has scheduled and held over 760 Court hearings during this period, whereas based on data provided by the Judges' offices, in all cases of canceled sessions this has occurred due to requests justified mainly by the Parties in the proceedings and not due to the absence of a Judge or other reasons in the Court. Public has been regularly informed about the work and activities of the Court, whether through media statements, various interviews, or through official communication, as well through social networks. In the I-st quarter of the present year, Court has published 1,294 Court Rulings on the judicial web portal.			
		Strategic pillar 2. Organization and management of the work of the Court	Upon organizing of the work of Judges and of Administration of the Court is headed by President of the Court, whereas in his absence organization of the work of Judges and of Administration is headed by the Deputy President of the Court, likewise Administrator of the Court. During this period, President of the Court has held regular meetings with Judges and with the Court staff.			

5	Judicial strategy	Strategic Pillar 3 - Quality, accountability and professionalism of judiciary	In all cases in which the Court has received invitations to attend trainings, whether from Academy of Justice or other institutions organizing trainings has appointed officials responsible for that area in order to attend them. President of the Court, based on the KJC Regulation No. 03/2023 on the norm of the work of Judges, Article 22, paragraph 1 of this Regulation, on a quarterly basis presents individually the Reports of Judges' of the Second Instance Chambers and of Judges' of the First Instance Chambers of the Commercial Court. Court, has in continuation raised concerns regarding delays in the delivery and return of receipts from the Mail and Pouch. Judges, in many cases have confronted failure of court hearings or postponements, as a result of Kosovo Post Office not returning the evidence of delivery, or delaying them. Court/Judges have implemented all opinions recommendated by the Advisory Committee on Judicial Ethics.
		Strategic Pillar 4: Access to Justice	All statistical reports in the Court have been identified and extracted manually, as the CMIS system has not yet generated all the data necessary for the presentation of concrete data for the Commercial Court.
		Strategic Pillar 5: Public Trust and Satisfaction	Court, respectively Office for Information of the Court has fully implemented the KJC Communication Strategy. During this period, great importance has been given to relations with the public and media in order to increase public trust, transparency and accountability, as well as access to justice that have been defined as strategic institutional pillars based on the KJC Communication Strategy. Public, continuously has been informed about developments and other activities in the Court, processes, procedures that are of special interest, and Court statistics having an aim to increase citizens' confidence in the efficiency of the justice system.
		Strategic Pillar 6: Technology in supporting functioning and access to justice	
6	KJC's Communication Strategy		Court has respected the KJC's Communication Strategy for the years 2025-2027. Based on this Strategy, President of the Court has as well appointed a media advisor.

7	Other strategies and plans	Commercial Court has implemented all KJC strategies.
8	Implementation of the norm from Judges with special emphasis on reporting on individual failure to comply with the norm of the Judge.	President of the Court, based on the KJC Regulation No. 03/2023 on the norm of work of Jjudges, Article 22, paragraph 1 of the present Regulation, on a quarterly basis presents individual Reports of Judges' of the Second Instance Chambers and of Judges' of the First Instance Chambers of the Commercial Court. During this period, Judges have met the norm foreseen with the applicable Regulation.
9	Participation in training for the President and Judges by specifying the quality of participation, except in cases of exemption to attend trainings;	During this period, President of the Court has participated as a regular trainer at the Academy of Justice, whilst Judges have participated in all regular trainings organized by the Academy of Justice or other institutions.
10	Number of postponed sessions. Specify reasons for the postponement of sessions.	During this reporting period, no unjustified postponements of hearings are registered. Postponements are mainly related to requests from the Parties, in the absence of Parties in the proceedings, or the failure to send invitations for hearings on time by the mail and pouch service.
11	Number of fines imposed and other measures (type of undertaken measures) on failure of court hearings, Parties and other participants in the proceeding.	No fines imposed during this reporting period are registered.

Annex I 28

I. Introduction

The 2026 budget request and early estimates for 2027-2028 include the needs of the prosecutorial system with the aim of ensuring the budget for the realization of the strategic objectives of the prosecutorial system.

The budget request is based on the Strategic Plan, the MTEF 2027-2028, as well as the needs of the prosecutorial system.

In order to include the general needs of the prosecutorial system in budget planning, all heads of the relevant units of the system were consulted.

According to the budget law, the Kosovo Prosecutorial Council (hereinafter the Council) has four (4) budget programs, as follows:

- Prosecutions and Administration (KPC, Office of the Chief State Prosecutor, Appellate Prosecution, as well as 7 (seven) basic prosecutions);
- Special Prosecution Office;
- Victim Protection and Assistance Unit; and
- Economic Crimes Unit.

The budget request includes the needs for four budget categories: salaries and allowances, goods and services, utility expenditures, and capital expenditures for each budget program.

This budget request also plans the Council's revenues based on the revenues collected in the last three years, as determined by the respective laws in force.

According to the needs assessment presented in this budget request, requests for budget increases are included in the category of wages and salaries, goods and services, and capital investments.

This budget request reflects the mission, current situation, strategic objectives, needs assessment for economic categories, as well as the budget foreseen for each economic category in each budget program.

The budget request for the period January-December 2026 and early estimates for the years 2027 and 2028 include the budget cost for all budget categories, presenting in a tabular form the cost of each budget category and budget program of the Council, as well as the budget cost summarized through the 2026 budget table and early estimates for the years 2027-2028.

II. MISSION

Strengthening the rule of law, increasing efficiency in fighting crime, and increasing the transparency of the prosecutorial system and equal access to justice for all citizens.

III. Current situation

1. Kosovo Prosecutorial Council

The Kosovo Prosecutorial Council (hereinafter the Council) is a constitutional and independent institution in the exercise of its functions, with the aim of ensuring an independent, professional and impartial prosecutorial system that reflects the multi-ethnic nature of the Republic of Kosovo and the internationally accepted principles of gender equality.

The Council manages the annual budget for the Kosovo Prosecutorial Council and the State Prosecutor independently and is responsible for overseeing expenditures, allocating funds, maintaining accurate and current accounts, and conducting financial audits.

The main constitutional and legal responsibilities of the Council are as follows:

- Ensures that prosecutors act independently, professionally and impartially in the performance of all prosecutorial functions;
- Decides on the organization, management, administration and supervision of the functioning of prosecutors' offices according to the law, including the number of prosecutors in each prosecutor's office;
- Recruits and proposes to the President candidates for appointment and reappointment as prosecutors and chief prosecutors, including the Chief State Prosecutor;
- Prepares, submits and supervises the budget of the State Prosecutor and the Prosecutorial Council;
- In cooperation with the Office of the Chief State Prosecutor, it develops prosecutorial policies and strategies for the effective fight against crime;
- Evaluates, promotes, disciplines, dismisses, transfers and provides support for the training of prosecutors;
- Develops standards for the recruitment, organization and announcement of the examination for the qualification of prosecutors;
- Approves sub-legal acts in order to implement its duties and responsibilities, in accordance with the legislation in force;

- Prepares an annual report on the activities and expenditures of the State Prosecutor and the Council, and reports to the public on the implementation of its objectives, which are specifically defined and based on measurable indicators.

The Council has fulfilled its legal mandate during 2024 through the organization of regular meetings, in which various decisions were made on the process of recruitment, transfer, advancement of prosecutors, disciplinary procedures and the process of evaluating the performance of prosecutors, as well as through the development of other activities of the Council's bodies.

In this regard, the Council has managed the annual budget dedicated to the Kosovo prosecutorial system, has been engaged in improving the infrastructural conditions for prosecutors and support staff, and has built the professional capacities of prosecutors and support staff, through cooperation, proposal, coordination and supervision of various trainings, mainly involving the Academy of Justice, but also local and international partners.

However, among the main activities of the Council throughout 2024, we can mention: the election of the chairperson and deputy chairperson of the Kosovo Prosecutorial Council, the recruitment processes of prosecutors, the selection of the chief prosecutors of the Appellate Prosecution Office and the basic prosecution offices of Prizren, Gjilan, Peja and Ferizaj, the performance evaluation, discipline, transfer, advancement of prosecutors and capacity development.

The Council's bodies have also developed various activities within the framework of the implementation of their mandate and in service of the proper functioning and progress of the prosecutorial system.

During 2024, the Council held twenty-one (21) meetings and made two hundred and forty-four (244) decisions within its scope of activity. These decisions relate to the recruitment, transfer and promotion of prosecutors, the appointment of chief prosecutors, and the discipline and performance evaluation of prosecutors, the administration of prosecutorial offices, budget management, the approval of strategic documents and work plans, the European integration process and other decisions pertaining to institutional cooperation.

In the framework of legal changes related to the prosecutorial system and the Work Plan for 2024, the Council has drafted and approved bylaws.

During 2024, the Council has approved ten (10) regulations, as follows:

1. Regulation No. 01/2024 on the Asset Recovery Office;
2. Regulation No. 02/2024 on the Mandate, Structure, Functioning and Organization of the OPAV;
3. Regulation No. 03/2024 on the Procedure for Recruitment, Admission, Appointment and Probationary Work for Employees in the Administration of the Prosecutorial System;

4. Regulation No. 04/2024 on Personnel Planning;
5. Regulation No. 05/2024 on the Disciplinary Procedure of Administrative Staff in the Kosovo Prosecutorial System;
6. Regulation No. 06/2024 on the Classification of Jobs in the Administration of the Prosecutorial System;
7. Regulation No. 07/2024 on the Appointment of the Chief State Prosecutor and Chief Prosecutors of Prosecution Offices;
8. Regulation No. 08/2024 on Transfer and Promotion of Civil Servants;
9. Regulation No. 09/2024 on the Establishment of Employment Relationships with Fixed-Term Contracts;
10. Regulation No. 10/2024 on the Evaluation of the Work Results of Administrative Staff;
11. The Council also approved the Guidelines for the Evaluation Panel.

The drafting of these bylaws was done with the involvement of committees and other auxiliary bodies of the Council and the Secretariat, as well as with the support of international partners.

The Council carries out its mandate through permanent committees and those established for a specific mandate – ad hoc. Below we will present the work of the committees during 2024.

The permanent functional committees of the Council are:

- Committee on Normative Issues;
- Committee on Budget, Finance and Personnel;
- Commission for the Administration of Prosecutions and
- Prosecutors' Performance Evaluation Committee.

All permanent committees that operate within the Council have their own rules of procedure and exercise their scope of activity in accordance with the legal and sub-legal acts in force. The committees have held various meetings according to the work plan.

Based on its legal powers, the Council also establishes ad hoc committees, with the aim of carrying out specific activities, where it determines their composition and scope of activity by a relevant decision.

In this context, during 2024, the following ad hoc committees functioned:

- Recruitment Committee;
- Review Committee;
- Commission for Transfer and Advancement of Prosecutors;
- Evaluation panel for the appointment process of chief prosecutors;

- Supervisory Commission for monitoring corruption and economic crime cases arising from the Strategic Plan of the Prosecutorial System 2022-2024.

Council Secretariat– Based on the normative legal acts of the prosecutorial system, the Secretariat is defined as an administrative body in support of the Council and its committees for the implementation of rules, regulations and policies related to the management, budget and administration of prosecutorial offices.

During 2024, various activities were carried out within the Secretariat by the director's office and departments, including developments in human resources, budget and finance, administration and general services, and information technology.

Prosecution Performance Review Unit– Based on legal powers, during 2024 it provided support to the Council in processes such as: recruitment, transfer and advancement of state prosecutors, performance assessment of state prosecutors, administration of prosecution offices, supervision and reporting on the work of prosecution offices, assessment of training needs of prosecutors and maintenance of records and databases on the work of prosecution offices.

1. State Prosecutor

The State Prosecutor is a constitutional, independent, impartial institution with a mandate and responsibility for the investigation and prosecution of perpetrators of criminal offenses, as defined by law.

The State Prosecutor in the Republic of Kosovo has the following organizational structure:

- The Office of the Chief State Prosecutor as the highest instance of the State Prosecutor, with competence in the entire territory of the Republic of Kosovo;
- The Appellate Prosecutor's Office as a second instance with jurisdiction over the entire territory of the Republic of Kosovo;
- The Special Prosecution Office as a specialized prosecutorial body with jurisdiction over the entire territory of the Republic of Kosovo;
- Basic Prosecutor's Offices spread across the territory of seven (7) regions of Kosovo.

The State Prosecutor (SP) during 2024 had a total of 150,204 criminal reports - cases (registers: PP, PPM, PPN, NJN, PPP, PA and ZKPSH cases).

From this number of subjects:

- 99,523,137 or 66.26% cases are inherited/carried over as unresolved cases from previous years; and
- 50,681 or 33.74% cases were accepted during 2024;

During this year, out of this number of cases:

- 45,481 or 30.28% of cases in progress during 2024 were resolved or processed by the competent bodies;
- 104,723 or 69.72% of all pending cases remain unresolved.

The efficiency of cases resolved during 2024 is:

- 5,200 fewer criminal reports were resolved than were received during the reporting period, or
- 10.26% fewer criminal reports than were received.

A total of 99,523 criminal cases were transferred from 2023 to 2024 across all departments and according to all prosecutors' registers. According to the registers for all types of criminal cases, the status of transferred cases is as follows:

- 11,311 criminal reports of major perpetrators (PP) of criminal offenses or 11.37%;
- 1,157 criminal reports of juvenile perpetrators (PPM) of criminal offenses or 1.16%;
- 72,573 criminal cases with unknown perpetrators (PPP) of criminal offenses or 72.92%;
- 14,027 various criminal cases (PPN/M) or 14.09%;
- 436 international legal assistance (ILA) cases or 0.44%;
- 0 cases in the Appellate Prosecutor's Office (AP) or 0.0% and
- 19 cases in the Office of the Chief State Prosecutor (OCSP) or 0.02%.

2. Challenges of the prosecutorial system during 2024

During the Council's activities for 2024, the main challenges were:

- Failure to complete the composition of the Council with two (2) non-prosecutors, since with the entry into force of the Law on the Prosecutorial Council in April 2019, neither the selection nor the technical procedures for announcing the competition are the responsibility of the Council;
- Insufficient budget to cover all obligations incurred;
- Attacks by other institutions with the aim of damaging public trust in the prosecutorial system;
- Lack of cooperation with other institutions to implement commitments from Joint Declarations and Commitments;
- Undertaking numerous activities to protect the independence of the Council and the State Prosecutor related to initiatives for legal changes;
- Failure to issue a decree for the Chief State Prosecutor;
- Resignation of prosecutors from the Serbian community;
- Resignation of a member of the Kosovo Prosecutorial Council from the ranks of the Kosovo Bar Association;
- Specialization of prosecutors in dealing with characteristic crimes (corruption, organized crime, economic crime and cybercrime);
- Failure to respect the principle of transparency through several media publications that directly damage public trust in the prosecutorial system;

- Physical infrastructure (expansion of the premises for the Council, the Office of the Chief State Prosecutor, purchase of land for the Mitrovica BP, and construction of the Prizren BP);
- Building the professional capacities of the prosecutorial system personnel.

IV. Strategic objectives

In order to implement the legal mandate, the three strategic pillars for the period 2025-2027 for the entire prosecutorial system of Kosovo, according to the Strategic Plan 2025-2027, approved by the KPC, are:

a. STRENGTHENING THE RULE OF LAW
b. EFFICIENCY IN FIGHTING CRIME
c. TRANSPARENCY AND ACCESS TO JUSTICE

a. STRENGTHENING THE RULE OF LAW

A professional, independent, transparent and accountable system is a cornerstone for the effective rule of law. Effective oversight and accountability in the exercise of public duties and functions of all employees of the prosecutorial system, without distinction, help to ensure that this system remains true to its goals and values. The prosecutorial system will continue to strive for the public to see the system as objective, impartial and protected from undue influence.

In this regard, the focus of the prosecutorial system will be on independence, accountability and ensuring adequate management and administration of the prosecutorial system.

Strategic objectives and activities for the strategic pillar of the prosecutorial system "STRENGTHENING THE RULE OF LAW" are reflected in the following table:

No.	Strategic objectives	Strategies/activities	Indicator	Annual targets

b. EFFICIENCY IN FIGHTING CRIME

An efficient judiciary and prosecution constitute an essential guarantee for upholding the rule of law and ensuring fair trials, according to Article 6 of the European Convention on Human Rights. The system will work in close cooperation with other domestic and international law enforcement institutions, ensuring a coordinated approach to combating criminal activities. The prosecution system also aims at sustainable support and easier access for victims. The Republic of Kosovo, as a new state and with the aim of European integration, is continuously evaluated thanks to its progress in the efficient fight, especially

of specific categories of criminal offenses. As a result, the prosecutorial system, through this strategy, has prioritized the fight against certain offenses, without excluding the increase in the efficiency of the system as a whole.

The main activities to achieve the objective "FIGHTING CRIME" are reflected in the following table:

No.	Strategic objectives	Strategies/activities	Indicator	Annual targets
1.	*The fight against complex crimes with a special focus on corruption and economic crimes*	• *Improving the quality of prosecution of complex criminal offenses and efficiently handling unsolved cases;* • *Increasing collegial, inter-institutional and international cooperation;* • *Advancing efforts for asset seizure and confiscation;* • *Protection of witnesses and whistleblowers.*	• *Trainings, meetings, reports, and the recruitment, promotion and transfer of prosecutors;* • *Drafting regulations, Study visits, Organizing conferences;* • *Promotion of practices;* • *Guides, conferences and cooperation with international agencies.*	*2025-2027*

c. TRANSPARENCY AND ACCESS TO JUSTICE

Increasing the transparency of the prosecutorial system is a necessity of the time, in order to create a stronger connection with the public and build lasting trust in the justice we provide. Proactive publication, responding to requests for access to system documents, and enhancing cooperation with organizations that monitor the work of the prosecutorial system are vital for strengthening institutional integrity, aiming for an environment where transparency is not seen as an obligation, but as an opportunity.

The main activities for achieving the objective "TRANSPARENCY AND ACCESS TO JUSTICE" are reflected in the following table:

No.	**Strategic objectives**	**Strategies/activities**	**Indicator**	**Annual targets**
1.	*Transparency through proactive publication and access to documents*	• *Strengthening the mechanisms responsible for updating the web portal with necessary documents;* • *Improving access to documents and information in the prosecutorial system.*	• *Drafted protocols;* • *Reports, conferences and campaigns.*	*2025- 2027*

V. Assessment and justification of needs for staff, services, supplies and investments based on strategic objectives

Based on Law No. 08/L-322 on the Budget of the Republic of Kosovo for 2025, the Council has been allocated 969 positions and a budget of €18,913,922 for four budget programs and four economic categories of the budget.

Meanwhile, with the budget circular 2026/01, the Council was allocated 969 positions, as well as a budget of €19,621,593, for the four budget programs and four economic categories of the budget. The positive change compared to the 2025 budget was made in salaries and allowances, where salaries and allowances increased by €1,007,671. For goods and services, the budget remained the same as in 2025, while capital investments were reduced by €300,000.

Based on the needs of the prosecutorial system, preliminary assessments, analyses and identification of needs have been made for which an increase in the budget and an increase in the number of staff are required for the entire prosecutorial system.

According to the estimates made, the increase in the number of prosecutors and staff is planned to be 2027 additional positions compared to 2025. With Circular 2026/01, the number of staff compared to 2025 remains the same.

1. Needs for additional prosecutors and supporting staff

In order to achieve the Council's objectives, reflected in Chapter IV of the budget request, the Council needs additional staff as well as an increase in the budget for the category of salaries and wages.

According to the 2025 Budget Law for the Council, a total of 969 positions have been approved, of which 209 positions are allowed for prosecutors. The same number remains within the budget limits set by Budget Circular 2026/01.

Based on the needs assessment and analysis of the current situation in the entire prosecutorial system, the Council and State Prosecutor still needs additional positions, both for prosecutors and for administrative staff.

Completing the necessary number of staff directly impacts the increased efficiency and fulfillment of the legal mandate of the Council and the State Prosecutor.

The need to increase the number of administrative staff has also been determined by legal changes and the internal reorganization of the administration of the prosecutorial system.

In order to ensure the proper functioning and fulfillment of the current legal mandate of the Council and the State Prosecutor, it is necessary to increase the number of prosecutors and the number of administrative staff according to this planning reflected below.

1.1. Increasing the number of prosecutors

With the 2025 Budget Law, 209 positions for prosecutors have been approved for the prosecutorial system. However, assessing and analyzing the current situation and the number of cases, the State Prosecutor's Office, for 2026, requires 31 prosecutors, respectively thirty-one (31) more prosecutors than there are currently.

The current number of prosecutors does not meet the needs of the prosecutorial system and as a result, additional positions for state prosecutors are required for 2026, with the aim of advancing the level of prosecuting and combating crimes in the country, ensuring the implementation of the legal functions of the State Prosecutor, with a special focus on increasing the rate and quality of cases, on the one hand, and achieving the strategic objectives of the State Prosecutor on the other.

The Special Prosecution Office has jurisdiction over the entire territory of the Republic of Kosovo. The new legal amendments with the Law on the Special Prosecution Office have increased the powers of this prosecution office. The additional number of prosecutors is necessary and would increase the efficiency in handling cases in this prosecution office, based on the increased powers under the law as well as its special powers, for the most serious criminal offenses such as: fighting organized crime, counter-terrorism offenses, money laundering, with a special focus on handling war crimes, etc.

The Appellate Prosecution Office has jurisdiction over the entire territory of the Republic of Kosovo and the current number of prosecutors needs to be increased in order to increase efficiency and effectiveness in implementing the mandate and legal functions of the prosecution office, taking into account the legal amendments to the Criminal Procedure Code.

With the new law on the Council, in addition to the chairperson, there are two other full-time members, which means that the prosecution offices are minus three active prosecutors. In addition to the vacancies vacated under the Law on Council members and the needs expressed by the basic prosecution offices, the State Prosecutor needs additional active prosecutors in reviewing cases. The addition of basic-level prosecutors will help in implementing the objectives of the State Prosecutor, which will not only be the efficiency of handling cases, but the focus will be on increasing the quality, namely the effectiveness of the work of prosecutors.

1.2. Reorganization of the administration of the Prosecutorial Council

The regulation on the internal organization of the Council's administration was approved in June 2023. According to this regulation, in addition to the current positions, additional positions must be provided due to the new organization and newly created units.

1.2.1. Professional and administrative positions

Due to the reorganization of the Council's administration and the need for additional positions, additional positions are needed at all professional and administrative levels for all organizational units, including new units.

The necessary positions that must be secured for the consolidation of organizational units and for the implementation of the legal functions of the Council's administration, in accordance with the internal organizational regulation, are: legal officer, human resources officer, finance officer, training and support staff for services, transportation, etc.

1.3. Reorganization of the State Prosecutor's administration

In April 2024, the internal regulation for the reorganization of the State Prosecutor's administration entered into force. According to this regulation, the positions required for the prosecution offices are positions according to legal acts and the needs for the implementation of the legal functions of the State Prosecutor. The following reflects all positions that are considered additional positions in relation to the current positions of the State Prosecutor's administration.

1.3.1. Completing the number of professional associates

The Law on the State Prosecutor requires that the number of professional associates, as an important category for the efficiency of the work of prosecutors, who provide direct professional support in the preparation of cases during the prosecution of criminal offenses, be equal to the number of prosecutors. Therefore, according to the law, each prosecutor must have at least one professional associate.

1.3.2. Mediation Officer

According to the laws in force, the State Prosecutor, through the basic prosecutor's offices in all regions, implements and applies the procedures for mediation cases. As a regular and applicable form in the cases of the State Prosecutor, the procedures for mediation require a responsible official in each prosecutor's office.

According to the plans made, each prosecutor's office should have an official who deals only with mediation cases. Currently, prosecutors' offices do not have such approved positions.

1.3.3. Completing the number of translation officials

Providing translations into the official languages of the Republic of Kosovo is a constitutional and legal obligation. All levels of the prosecutorial system need to have sufficient translators in order to guarantee access to justice.

Due to the sensitivity, confidentiality, and large volume of work in each prosecutor's office, the Council has assessed that the safest and most sustainable solution for translation,

especially of State Prosecutor's cases, should be done through internal staff in each prosecutor's office.

1.3.4. Supplementing the number of security staff

Security is one of the most important and necessary segments for the prosecutorial system, considering the function, legal responsibilities and sensitivity of the State Prosecutor. One of the main objectives for the next three years of the Council is to advance the security system. In addition to the security plan, rules and equipment, adequate and permanent security staff are also needed. Currently, security services for the entire system are provided through security companies contracted through procurement procedures and the Kosovo Police through relevant agreements. Therefore, by analyzing and assessing the current situation, it is very necessary to provide a position, a security officer, for each prosecutor's office so that these officials can ensure, supervise and control the level of security in all prosecutors' offices.

1.3.5. Staffing for the electronic case management system

Based on the Memorandum of Understanding dated 06.09.2013 No. 972/2013, between the Government of Kosovo, the KPC, the KJC and the Embassy of Norway regarding the financing and implementation of the Case Management and Information System (CMIS) Project for the Kosovo Judiciary, the KPC, the KJC and the Norwegian Embassy will co-finance the CMIS project, while the Government of Kosovo has committed to provide annual co-financing for the KPC and the KJC, as planned in the budget of this project. Considering this, within the framework of the ICT/CMIS project, it is envisaged to establish a call center, which will be shared with the KPC and the KJC.

The purpose of the call center is to assist the staff of the prosecutorial and judicial system in using the CMIS, as well as to be in constant contact with the staff regarding any eventual problems that may arise while working with the CMIS.

So far, this center has not been operationalized, as the required positions have not been approved. The project will end on December 31, 2025, when the officials who have been engaged in this project to support the prosecution staff for the use of CMIS will also leave. Based on the above-mentioned agreements, the Regulation on Case Management through CMIS in the prosecutorial system, as well as the Regulation on the Internal Organization and Functioning of the State Prosecutor, it is necessary to recruit CMIS officials in each prosecution, a senior applications officer, a senior electronic communications expert, and a senior administrator for the promotion of services.

The CMIS is being implemented in all prosecution offices of the Republic of Kosovo, including the electronic exchange of data with the Kosovo Police and the court. This means that all cases from the Police are received by the prosecution through the electronic system.

Prosecutors also send all documents/cases to the court through this system (CMIS). Therefore, it was seen as necessary to have CMIS officials who would continuously assist the prosecution staff so that there would be no obstacles in using CMIS, and so that citizens receive services on time. CMIS officials would also continuously monitor the data, in order to increase their quality in CMIS.

1.3.6. Filling the number of other professional and administrative positions

Other professional and administrative positions needed for the State Prosecutor for 2025 are positions that also provide professional support in the administration of the State Prosecutor's work, such as: legal officer, receptionist, clerk, document distribution officer, transportation officer, etc.

1.4. Reorganization of the Office for Victim Protection and Assistance

The mandate, functioning, structure and organization of the Office for Victim Protection and Assistance (OVPA) are regulated by the legal and sub-legal acts in force.

The Office of the Chief State Prosecutor operates as an independent office within the Office of the Chief State Prosecutor to provide services to victims of crime during legal proceedings and represent their interests in criminal, civil, administrative and other cases, as provided for by law.

The ZMVN treats as priority cases the provision of support and representation in the prosecution and courts of victims of domestic violence, human trafficking, criminal offenses against sexual integrity, and child abuse and mistreatment.

According to the regulation on the organization of the OVPA, the OVPA operates through the central office within the Office of the Chief State Prosecutor and the Regional Offices. The central office consists of: the OVPA Coordinator, the Head of the Regional Offices, the Head of the General Services Office and the Helpline Officer, while the regional offices of the victims' advocates are managed by the regional heads and are located in seven (7) regions.

Based on the amendment to the new regulation of the Victims' Ombudsman, which was approved by the KPC, due to the increased responsibilities of the Victims' Ombudsman with the Law on Protection from Domestic Violence, Violence against Women and Gender-Based Violence, the Criminal Procedure Code, the National Strategy for Handling Cases of Domestic Violence, the National Strategy against Trafficking in Human Beings, as well as other acts that charge the staff of the Victims' Ombudsman with additional duties and responsibilities, the need for victims' advocates has increased. According to the law, victims' advocates will have additional responsibilities in the assistance that will be provided to victims in fulfilling claims for compensation, therefore the strengthening of this unit is more than necessary and essential for the justice system and the fulfillment of EU criteria.

The main changes relate to the increase in staff based on the new law on protection from domestic violence, according to which, the staff of the OVPA is obliged to respond to cases 24/7, as well as to participate in each court session to represent and realize the rights of victims of crime, therefore the current number of staff does not cover the capacities for the responsibilities assigned to it in the new law on protection from domestic violence. The absence or non-participation of victims' advocates in a court session can be penalized by the court in the amount of up to €500.00.

All regional offices that currently operate 24 hours a day will continue to provide services and assistance to victims of all cases of domestic violence, human trafficking, mistreatment, abuse, murder, robbery, etc. Therefore, for the coordination and supervision of all cases throughout the territory of Kosovo for 2026, an increase in the number of OVPA officers is required, including office managers, victim advocates and professional officers.

All positions required for prosecutors and administrative staff for the Council and the State Prosecutor are reflected in table no. 3.

2. Allowances

Based on the legal and sub-legal acts in force, allowances for prosecutors and administrative staff have also been planned. Within the framework of these allowances that are planned with this budget request are the following: transitional allowances, for additional functions, for custody, for market conditions, for performance, as well as allowances for overtime work.

Covering these allowances is one of the Council's challenges, because they are never taken into account and no budget is allocated for these categories of allowances in the budget law. The market conditions allowances, despite the Council's decision for 2024 and the decision for 2025, have not yet been implemented, in the absence of budget approval for these allowances.
With the exception of market conditions and performance allowances, other allowances have almost every year been paid from the budget of vacant positions.

1. Planning for goods and services

According to the Budget Law for 2025, 3,450,000 euros have been allocated in the category of goods and services for 2025. Meanwhile, with Budget Circular 2026/01, 3,450,000 euros have been allocated for 2026, where the budget remains the same as that of 2025.

The Council has continuously requested financial support within the economic category of goods and services in order to repay obligations for experts and lawyers, expenses that are unavoidable and have a high cost, but not as high as the importance of these expertise in the handling of cases by the State Prosecutor.

Raising the level and advancing services, creating the necessary conditions and infrastructure with high standards are continuous requests from all prosecution offices that

have not yet reached the appropriate level due to the lack of sufficient budget. Meanwhile, taking over the powers for the management and maintenance of building C in the Palace of Justice is a new responsibility of the Council, which will be transferred from the Ministry of Internal Affairs from January 2026 and is planned, with this budget request, the cost of expenses for all systems and services that can be created during 2026.

Based on the strategic objectives of the Council and the State Prosecutor, budgetary funds have been planned for all economic subcategories which provide better conditions and opportunities in order to achieve the objectives set for the period 2026-2028.

In order to implement the legal mandate of the Council and the State Prosecutor, advance the quality and management of work, advance the conditions and services in the system and cover all obligations created within the fiscal year, additional budgetary funds in relation to the budgetary limits set by Budget Circular 2026/01 are mainly included for:

- expenses for judicial expertise and expenses for lawyers and mediators;
- expenses for maintenance of facilities, including building C in the Palace of Justice;
- expenses for professional development of prosecutors and support staff (workshops, roundtables, trainings and similar activities);
- maintenance costs for CMIS and other IT software systems;
- security services;
- Services for interns, etc.

Internship Program: One of the most important programs for the Council is the intern program, which involves full responsibility and willingness to continue their internship at the State Prosecutor's Office, working within 8 working hours. In order to facilitate the internship, the Council has deemed it necessary to compensate their work with a cost that covers their expenses such as travel and food during the internship.

2. Capital Investment Planning

Improving the infrastructure of the Council and the State Prosecutor is one of the main objectives for the next three years. Securing and improving the physical infrastructure, including the plot, renovation and construction of buildings; advancing the information technology system, software and hardware; the archive and security system, as well as securing means of transportation are the goals of the Council and the State Prosecutor for the next three years.

The capital expenditure category includes capital projects for the years 2026-2028. Capital projects are mainly ongoing projects and previously planned and estimated projects, which are also included in the PIP system.

The capital projects also include the construction of facilities for the Basic Prosecution Office in Pristina, the Basic Prosecution Office in Prizren and the Basic Prosecution Office in Mitrovica as priority projects for the next three years and which have influenced our additional budget request for capital investments for these three years.

3. Revenues

Based on the Law on the Code of Criminal Procedure, the State Prosecutor collects revenues from alternative measures cases in a special bank account of the Council. The revenue planning for 2026 is based on the revenue history. The revenues collected from these cases will be used in accordance with the law in force.

4. Contingent liabilities

Based on the instructions given, the first budget circular should also include contingent liabilities for 2026.

Because contingent liabilities may change during the legal process, this planning reflects the expenses on behalf of contingent liabilities according to current rulings.

The total value of contingent liabilities is currently around11, 740,683.76€, an amount that may change depending on processes and circumstances. The value reflected in this request is a value that will be variable at any time and this value is not included in the following budget tables.

VI. Budget planning according to budget programs and economic categories

Assessing the needs for 2026, based on the Strategic Plan and the needs of the prosecutorial system, as well as the real state of expenditures, the Council's budget request for expenditures in all economic categories is reflected in the following tables.

1. Salaries and allowances

Table 1 presents the expenditures for salaries and wages for the four budget programs of the Council. Within the framework of salary expenditures, the following are presented: the approved number, their salaries, allowances, as well as the additional number of prosecutors and administrative staff requested.

VII. Conclusion

The Council and the State Prosecutor as independent constitutional institutions still face numerous challenges as a result of the failure to fill positions for prosecutors and administrative personnel with necessary positions, as well as the lack of budgetary funds for salaries, wages, and goods and services.

Addressing and providing support in overcoming the challenges reflected in this document is direct state support for the regular functioning of the prosecutorial system without obstacles and without budgetary challenges. Moreover, state objectives for the Euro-integration processes and the strengthening of the rule of law determine the need to increase the efficiency of the prosecutorial system, which cannot be achieved without this budgetary support.

Success in fulfilling the legal mandate to prosecute persons accused of committing criminal offenses and other offenses as specified by law is also directly linked to budgetary support.

SMIL Project, Transition Phase of the Project

Following the successful completion of the three previous phases of the SMIL Project, the Norwegian Government, together with the Kosovo Judicial Council and the Kosovo Prosecutorial Council , have agreed to co-finance the Fourth Phase of the project, the Transition Phase. The sub-grant agreement for the co-financing of the SMIL project was signed on 1 June 2022, while period The timeframe for implementing this phase is DEFERRED BY THREE YEAR how it Was in advance , in five seven years months , respectively from June 1, 2022 to on December 31 , 2027. This extension IS done with approval THE DONOR WHEREAS will not this cost additional .

The main objectives of this phase of the project are:

- Effective and transparent courts and prosecutors' offices and the implementation of time limits for the completion of cases according to recognized human rights standards .
- CMIS functional and implemented in all courts and prosecutors' offices, adequately maintained and improved; Court and prosecutors' office staff are equipped with adequate computers and other equipment necessary for the use of CMIS;
- Increasing managerial capacities , performance and transparency through the use of statistical reports automatically generated by SMIL;
- Creation of an ICT organizational structure, with professionals who have the knowledge and skills to continue ICT support even after the completion of the Project.

Achievements to date in the development and implementation of CMIS in courts

So far, with the implementation of the project, it has been possible to develop the CMIS for all types of cases in the courts (misdemeanor, criminal, civil, administrative, economic, etc.) and it has been implemented in the three judicial instances, such as the Basic Courts, the Court of Appeal and the Supreme Court and the Commercial Court. As a result of the use of CMIS in the courts, the evaluation of the work performance of the courts and judges is done only with the statistical data generated by CMIS.

One of the main functions developed in the CMIS for courts is the automatic distribution of cases to judges, which is carried out based on criteria previously approved by the KJC and which has greatly increased efficiency and transparency.

The main functions of SMIL in the courts:

- Admission and registration of subjects
- Automatic assignment of judges/prosecutors, panel members, re-assignment,
- Review of the case,
- The judge's calendar
- Scheduling, postponing and canceling sessions
- Minutes
- Merging subjects
- Separation of subjects

- Conflict of competence
- Electronic case registers
- Statistical reports with all CEPEJ indicators for measuring the performance of courts and judges.

Interconnection of CMIS with other systems:

- The CMIS system in the court is interconnected with the CMIS in the Prosecutor's Office, in this case all data and case files are transferred electronically from the prosecutor's office to the court and vice versa.
- SMIL is connected to the Civil Registry System, the data of the parties in SMIL is obtained from the civil registry system in real time.
- The SMI is linked to the Business Registry System, in this case the data of businesses that are parties to the case are obtained in real time from the business registry.
- In the prosecution, SMIL is interconnected with the Kosovo Police system.

SMIL connection with the portal www.gjyqesori-rks.org

The SMIL system is linked to the KJC portal www.gjyqësori-rks.org , which publishes data on the work of the courts such as:

- Publication of the court hearing schedule, which presents real-time data on the schedule of court hearings held in courts throughout the country.
- Also on this portal is the developed tool "Case Tracking Mechanism", in which parties can track their case in court, the actions that have been taken, and the status of the case they have in court.
- Open data platform, which presents data and statistical reports on casework.

The CMIS is being used in all prosecution offices and courts. All cases received by the court and the prosecution are registered in the CMIS and all cases are further processed through the system. For the use of the CMIS in court, the KJC has approved Regulation No. 11/02023. With the approval of the regulations, the use of the CMIS is mandatory and its failure to use it in court constitutes grounds for initiating disciplinary measures.

The use of the CMIS is included as a specific criterion for the evaluation of the performance of judges, which means that during their regular evaluation (every three years) judges are, among other criteria, specifically assessed whether and how they use the CMIS. The commissions for the evaluation of the performance of judges also have access to the CMIS and all the cases they select for control, they request the data from the CMIS and this means that judges are assessed if they have entered all the data into the CMIS.

Improvement and development of CMIS for courts

Improving and advancing the CMS is one of the main activities in the IT department that ensures the continuity of the system's use and increases efficiency in work. The main activities related to the advancement of the CMS are:

The automatic distribution of cases in the Commercial Court is the main advancement achieved. For this purpose, on January 15, 2024, the KJC approved the criteria for the automatic distribution of cases through the CMIS for the Commercial Court. After approval, development, testing and implementation in the court were carried out from April 1, 2024. With the implementation of the automatic distribution of cases through the CMIS in the Commercial Court, it has been achieved that in the entire judiciary of the country, in the three judicial instances and for all areas , the automatic assignment of individual judges and the creation of panels through the CMIS.

Advancement of the liaison with the prosecution , in order to eliminate the sending of erroneous data and documents by the prosecution. For this purpose, a function has been developed in the SMIL that enables the court clerk to return the case in the SMIL to the prosecutor if the case has errors for the parties in the procedure or cases where important documents are missing in the case. This function has been developed and is being used and has had very positive results.

The advancement of the case separation function was carried out to simplify this function by making it easier for system users to perform. After analyzing the work process, the case separation task was redesigned, developed and is now in use in the system. After being put into operation, we have very good evaluations for the improvement of this function from users.

Court Audio and Video Recording Project - US Embassy/INL

The donor of this project is the US Department of State, and it is being implemented by the Office of International Narcotics and Justice (INL). The goal of this project is to modernize the courts in Kosovo, using audio and video systems for criminal hearings. This will be accomplished by providing equipment for simultaneous translation , audio and video recording, transcription equipment, and by increasing the capacities for the use of these equipment.

In order to implement this project, several activities are planned to be implemented:

1. Equipping all courtrooms in Kosovo with audio recording equipment, for which it is envisaged that 88 audio recording devices will be installed.
2. Equipping seven regional courtrooms (one courtroom for each Basic Court) with audio/video recording, simultaneous translation and video conferencing equipment, with the possibility of giving protected witness testimony audio and video remotely during court sessions. As well as with mobile video conferencing equipment that enables the court to send equipment to a party who, for some reason, cannot be present in the courtroom.
3. Equipping two chambers in the Court of Appeal in Pristina (1) and Mitrovica (1) with video conferencing.
4. Equipping the offices of judges handling criminal cases with transcription equipment, where 129 transcription devices are planned to be installed.
5. Equipping the conference room at the KJC with video conferencing and audio recording equipment, as well as transcription equipment.
6. Training of ten (10) IT technical personnel on system operation and maintenance.
7. Staff training on the use of equipment, 260 judges and administrative personnel need to be trained.

The systems have been installed and the systems are being used by the courts. The following is data for the year 2026 in the Basic Courts and the relevant Branches. The following report presents general data on the use of audio and video recordings during court hearings for the period January - April 2026, while for the purposes of monitoring use, the DTI prepares a detailed report with data for each court separately.

General information about the sessions held:

- **3,324 sessions (72.8%)** were conducted with audio recording, demonstrating the use of technology for audio documentation of sessions.
- **1,134 sessions (24.8%)** were conducted without audio recording, which indicates that there are still cases where the audio recording system was not used.
- **109 hearings (2.4%)** were held with audio and video recording, depending on the nature of the case and procedural needs.

Monthly data:

January 2026: 645 with audio recording, 154 without audio recording and 29 with audio and video recording.

February 2026: 813 with audio recording, 254 without audio recording and 22 with audio and video recording.

March 2026: 957 with audio recording, 283 without audio recording and 31 with audio and video recording.

April 2026: 909 with audio recording, 443 without audio recording and 27 with audio and video recording.

Data source: The reported data were collected and processed from monthly reports of court hearings and were prepared for the purposes of monitoring and reporting on the use of audio and video recordings in courts.

Council Strategy Kosovo Judiciary 2026–2028

The Kosovo Judicial Council Strategy for the period 2026–2028 has been drafted as a strategic guidance document, which defines the main directions of development of the judicial system over a three-year period. Unlike previous strategic plans, which were oriented towards five-year plans and contained detailed activities, this Strategy is conceived for a shorter period of time, with the aim of increasing institutional flexibility and the ability of the judiciary to adapt to dynamic changes in the legal, institutional and social environment.
This strategic approach reflects the need for more adaptive and realistic planning, enabling concrete priorities and activities to be defined and updated within the framework of the annual work plans of the Kosovo Judicial Council, its committees, the action plan for the implementation of this strategy and individual courts. The strategy, therefore, does not aim to replace annual operational planning , but to create a clear guiding framework on which concrete plans and actions are built.
The Strategy 2026–2028 represents a direct continuation of the vision, mission and core values set out in the Strategic Plan 2023–2025 of the Kosovo Judicial Council, while also reflecting the need to further strengthen institutional capacities and address the current challenges facing the judicial system. In this context, the Strategy is based on the fundamental principles of judicial independence, efficiency, transparency, accountability, equal access to justice and citizen orientation.

I.2 Budgetary programs of the Kosovo Judicial Council (KJC)

Within the Kosovo Judicial Council as a budgetary organization, there are currently a total of 12 budgetary programs: the KJC Secretariat , the Judicial Inspection Unit - former Judicial Performance

Review Unit, the Supreme Court and the Special Chamber, the Court of Appeal, the Commercial Court, the Basic Court of Pristina, the Basic Court of Prizren , the Basic Court of Gjilan, the Basic Court of Ferizaj , the Basic Court of Peja, the Basic Court of Gjakova and the Basic Court of Mitrovica.

Budget program Administrative Court

With the entry into force of Law No. 08/L-291 on the Administrative Court, the relevant code should be opened, as other courts have, as KJC budget programs.

Budget allocation IN CODE relevant to this court MUST THE Behe according to the current budget and the additional allocated budget foreseen for the establishment of this court and at the request of the KJC.

I.3 KJC budget limits according to Budget Circular 2027/01

According to Budget Circular 2027/01, the KJK budget limits for 2027 are **€40,922,727** divided into the following economic categories:

1. Salary and Allowances €29,804,863 for 2321 positions
2. Goods and Services €5,648,000
3. Municipal Expenditures €1,049,864
3. Subsidies and Transfers €500,000
4. Capital Expenditures €3,920,000

II. IMPLEMENTATION OF THE 2026 BUDGET

IMPLEMENTATION OF THE KJC BUDGET AND FORECAST OF EXECUTION UNTIL THE END OF 2026							
No.	Economic category	Staff number	Approved Budget 202 6	Budget spent	Budget spent %	Spending forecast until the end of the year	Expenditure forecast until the end of the year in %
1	Salary and allowances	321	28,251,055.00	14,166,185.13	50.14	28,251,055.00	100.00
2	Goods and services		5,193,000.00	2,267,902.57	43.67	5,193,000.00	100.00
3	Municipal expenses		650,000.00	246,737.56	37.96	650,000.00	100.00
4	Subsidies and transfers		500,000.00	494,988.00	99.00	500,000.00	100.00
5	Capital expenditures		3,920,000.00	861,597.13	21.98	3,620,000.00	100.00

	Total KJC	**2321**	**38,514,055.00**	**18,037,410.39**	**46.83**	**38,514,055.00**	**100.00**

As can be seen in the table, the KJC has so far spent the budget as planned and plans to spend it in full by the end of 2026 to reach a spending level of around 100% of the total amount for all economic categories .

In the category of salaries and allowances, we will have an overspend at the end of the year because, as you are informed, in the previous years 2018-2025 we had a budget shortage due to the insufficient allocation of the monetary amount in relation to the allowed-approved positions.

With the budget law for 2026, a total of €28,251,055.13 has been allocated to the KJC in the category of salaries and allowances for 2,321 positions.

With the entry into force of the new salary law from February 6, 2023 and according to the Judgment of the Constitutional Court, the calculation of salaries and allowances was made based on this law and judgment, where for all positions approved by the budget law for 2026 (a total of 2321 positions), the real budget for one year for these positions with all types of allowances should be €34,785,311.68, so if all positions allowed-approved with the 2026 budget were filled from the beginning of the year, the budget shortfall in the category of salaries and allowances would be a total of €6,534,256.68.

Even in previous years, the KJC has been allocated an insufficient budget in this category, the shortage of which has been continuously discussed in joint meetings and budget hearings in previous years, where we have been told that this shortage will be filled over the years in addition to filling vacant and unfilled positions.

Even in the category of goods and services, we currently have an overspend and will have a deficit during the year due to insufficient budget allocation this year, inflation - price increases , execution of obligations from last year which were also carried over due to the lack of budget from last year, as well as for the maintenance of the Palace of Justice.

Also in the category of subsidies and transfers we have overspending , in this category the budget allocated of €500,000.00 with the budget law for 2026 has been spent 100% since March 2026. The KJC's budget requests have also been for an additional €1,300,000.00 in this category but unfortunately have not been approved by the government and the parliament. Currently, according to the agreements signed by the competent KJC commission with the injured parties, we have unpaid obligations of around €500,000.00.

II I. ADDITIONAL BUDGET REQUESTS FOR 2027

The Kosovo Judicial Council, in order to achieve the mission through the objectives mentioned above, based on the rights set forth in the Constitution of the Republic of Kosovo, in the Law on Public Finance Management and Accountability, in Law No. 06/L-055 on the Kosovo Judicial Council and in Law No. 06/L - 054 on Courts, during the planning of the 2027-2029 budget, taking into account that in the last three years we have had budget and position cuts, and since we do not agree with these budget limits set forth in the budget circular 2027/01, we present the additional budget requests of the KJC with justifications and broken down as follows by economic categories:

III.1. SALARIES AND BENEFITS

According to the Budget Circular 2027/01, the budget limits in this category for the KJK are €29,804,863.00 for 2321 positions, no new additional positions have been allocated, and compared to the 2026 budget, we have an increase or budget increase of €1,553,807.87.

Below we present the additional budget request in this category, starting with the request for additional positions and the budgeting of these positions according to coefficients and ranks based on Law No. 08/L-196 on Salaries in the Public Sector and according to the Judgment of the Constitutional Court, as well as the request for correction of the current budget in accordance with the allowed positions.

III.1.1 Additional positions for judges

As you are aware, with the entry into force of the Law on the Commercial Court, which has begun to function since 2022, but for the full functioning of this court in terms of the number of judges, seven (7) additional positions of judges in the first instance are needed.

Since 2018, due to the lack of judge positions in the Court of Appeal and the Special Chamber of the Supreme Court, the KJC has, with separate decisions, transferred vacant judge positions from basic courts to these two courts. These positions should now be returned to the basic courts and other new positions should also be allowed, so a total of thirty (30) additional positions for basic court judges are needed.

III.1.2 Additional positions for professional associates

Law No. 06/L-054 on Courts, which entered into force on January 9, 2019, stipulates that each judge must have at least one professional associate, therefore, in order to achieve one associate per judge, we requested last year and have foreseen in the MTEF 2027-2029 that one hundred and sixty-six (166) additional positions be approved in 2027 in order to achieve the number of at least one associate per judge as required by Article 39.2 of Law No. 06/L-054 on Courts.

III.1.3 Additional positions for legal officer

With the increase in the number of judges, an increase in the number of legal officers in the courts is also necessary, therefore we request that forty-five (45) additional positions of legal officers in the courts be approved for 2027.

III.1.4 Additional positions for Senior Judicial Inspector

Three (3) additional positions of Senior Judicial Inspectors are needed for the Judicial Inspection Unit .

III.1.5 Budget correction in accordance with allowed items

With the budget law for 2026, in the category of salaries and allowances, the KJC has been allocated a total of €28,251,055.13 for 2321 positions, while the real budget needed in this category would be €34,785,311.68, if all approved positions, a total of 2321 positions, were filled from the beginning of the year, so an additional budget of €6,534,256.68 would be needed for 2026 (€6,048,256.68 for salaries and €486,000.00 for allowances).

With the budget limits of 2027 for 2321 positions, funds in the total amount of €29,804,863.00 have been foreseen, an amount that is not enough for salaries and various allowances for these positions, so the monetary amount divided by the budget limits is not enough. corresponds to the number of these positions, because with the calculation of salaries and various allowances foreseen according to the new salary law and the judgment of the Constitutional Court as well as the decisions of the KJC, the budget for salaries and allowances for a total of 2321 positions should be a total of €34,785,311.68, therefore an additional budget for salaries and allowances in a total of €4,980,448.68 is needed for the year 2027 (€4,494,448.68 for salaries and €486,000.00 for allowances).

III.1.6 Additional budgets for salary increases, compensations, rewards etc. according to Law No. 08/L-196 on Salaries in the Public Sector

According to Law No. 08/L-196 on Salaries in the Public Sector , the Constitutional Court Act , as well as the KJC Regulation and decisions on allowances, compensations, custody, overtime work , etc. , for allowances in salaries, compensations and rewards of members and KJC commissions , custody , night work and overtime work , etc. , an additional budget of €486,000.00 is needed **.**

Clarification: *The calculation of salaries for new positions , allowances and other compensations was made according to Law No. 08/L-196 on Salaries in the Public Sector, according to the Judgment of the Constitutional Court, according to the KJC Regulation on the Classification of Jobs and the Regulation on allowances , compensations, guardianship , overtime work , etc. approved by the KJC and according to the decisions of the KJC.*

The additional request for the category of Salaries and Allowances is for **251** additional positions mentioned in the above-mentioned table in the amount of **€3,494,012.68;** additional budget of **€4,494,448.68** for budget correction according to the 2027 limits, for the reasons mentioned above in point *III.1.5 Budget correction in accordance with allowed positions* ; additional budget of **€486,000.00** for salary increases, compensations and rewards of members and commissions of the KJC , caretaker, night work and overtime, etc.

The total additional request above the budget limits for the Salaries and Allowances category is €8,474,461.36 .

III.2. GOODS AND SERVICES

According to the budget circular 2027/01, the budget limits for the Goods and Services category are €5,648,000.00. Compared to the 2026 budget, we have an increase in the budget in this category of €455,000.00, this increase is for the maintenance of the Palace of Justice as well as due to the increase in prices and other expenses.

III.2.1 Additional budgets due to price increases, increased caseloads in courts, and increased number of judges and administrative staff

Although with the budget limits for 2027, we have a symbolic increase in the budget compared to 2026, this increase does not even remotely meet the urgent and necessary needs of the courts, to fulfill their legal obligations, nor to achieve the strategic objectives of the KJC .

Considering that in recent years we have had a general increase in prices which have influenced and reflected in the increase in expenses for various supplies, services and maintenance , then expenses for the supply of fuel for central heating , generators and court vehicles.

Likewise, the increase in expenses in this category in the courts due to the increase in the number of judges and other administrative staff, then the increase in the number of cases, consequently the burdening of judges with more cases at work is reflected in the increase in expenses for experts, court interpreters, etc.

For these reasons, an additional budget of **€282,400.00 is needed and requested** due to the increase in prices, the increase in the number of cases in the courts, and **€610,791.90** due to the increase in the number of judges and administrative staff, as well as new additional positions.

III.2.2 Additional budgets due to increased expenses for defense counsel at public expense AND postage costs

With the entry into force of the Criminal Procedure Code No. 08/L-032, mandatory defense with public funds is required for 176 criminal offenses, as well as due to the change in fees according to the KJC Administrative Instruction No. 06/2023 "On procedures for compensation of defense attorneys with public funds", therefore, for the engagement of defense attorneys and their compensation as well as postal expenses which are increasing due to the number of cases in progress, an additional budget will be needed according to requests from the courts in the amount of **€ 780,995.00 .**

III.2.3 Additional budgets for maintenance of CMIS and other IT systems

The costs of maintaining IT systems are constantly increasing, for which the Kosovo Judicial Council has undertaken to finance their maintenance and advancement. In addition to the Case Management Information System (CMIS), during the coming year the KJC has undertaken to maintain audio and video recording systems for courtrooms. Audio and Video Recording Systems were implemented in the courts with funding from the project implemented by the US Department of State, and implemented by the Office of International Narcotics and Justice (INL). The project financed the purchase and implementation of audio and video systems for all courtrooms in the Courts of the Republic of Kosovo.

The donor has also provided maintenance and warranty services for three (3) years, a period which expires in 2026. From the beginning of next year, KJC must plan a budget to contract system maintenance services.

The additional budget for 2027 for maintenance of IT systems for 2027 is:

- Maintenance of audio and video systems in courtrooms, the annual budget amount is € **380,000.00 .**
- Purchase of a license for the application system management at End Point Management . The annual budget amount required is **€20,000.00** per year.

III.2.4 Additional budgets for interns in the Courts of Kosovo

As you are aware, interns engaged in the courts are not compensated except in rare cases when they are compensated by various donors, therefore, taking into account that their engagement is continuous and mandatory, we request that an additional budget be approved in the amount of **€434,700.00** for **the 230** interns who are currently engaged in all courts of the Republic of Kosovo.

III.2.5 Additional budgets for maintenance of the Palace of Justice

The general maintenance of the Palace of Justice (PD) until last year was the responsibility of the Ministry of Internal Affairs (MIA).

According to the agreement between the KJK, the KPK and the MIA dated 04.09.2025, the KJK and the KPK have been transferred the management competencies of the Palace of Justice, in which agreement the transfer to the KJK and the KPK of a part of the budget in the category of goods and services and in the category of municipal expenses is also foreseen. Although the amount foreseen in the category of goods and services is symbolic (only €150,000.00 for 2026), this amount is not a transfer under the Law on Budget Allocations for 2026 .

In its budget request for 2026, in addition to the request for budget transfer according to the above-mentioned agreement, the KJC has also submitted a request for additional budget for the maintenance of the Palace of Justice, but unfortunately this request of the KJC has not been approved by the government and the parliament, so no additional budget has been allocated with the Law on Budget Allocations for 2026.

Although no budget has been allocated by the government and the parliament, and no budget has been transferred from the Ministry of Interior according to the aforementioned agreement, the KJC Secretariat has provided funds from the current 2026 budget in the category of goods and services. funds, over €200,000.00 for several procurement activities for the maintenance of the Palace of Justice.

Considering the working conditions and technical condition and lack of proper maintenance over the years in the Palace of Justice, the KJC requests that for the maintenance of the Palace of Justice in this category, in addition to the budget transfer from the Ministry of Internal Affairs foreseen under the aforementioned agreement, an additional budget be approved and allocated to us with the budget law for budget allocations for the year 2027, according to the KJC's preliminary estimates and calculations, as well as based on previous reports from the Ministry of Internal Affairs, in the amount of **€1,090,000.00.**

III.2.6 Additional budgets for inventory for new Court facilities

The renovation works of the Basic Court building in South Mitrovica are expected to be completed in 2026. After the completion of the works and the placement of staff in this building, it will also need

to be completed with inventory, therefore, since we do not have a budget for the supply of inventory for this building, we request that it be approved. additional budget in the amount of **€100,000.00** .

For the above reasons , with the limits foreseen in the budget circular 2027/01, the KJK will not be able to cover all expenses in this category, therefore we request an additional budget in the amount of **€ 3,698,886.00.** above the budget limits (of which **€282,400.00** due to price increases and increased expenses for supplies, services and maintenance; **€610,791.90** due to the increase in the number of judges and administrative staff as well as new additional positions; **€780,995.00** for the engagement of defense attorneys with public money and their compensation as well as for postal expenses; **€400,000.00** for maintenance of audio and video systems in courtrooms , advancement and further development of IT and the SMIL system as well as for the purchase of a license for the application system management at End Point Management ; **€434,700.00** (for **230** interns) for compensation of interns engaged in the Courts; **€1,090,000.00** for the maintenance of the Palace of Justice and **€100,000.00** for the supply of inventory for the renovated building of the Basic Court in Mitrovica-South).

The total additional request above the budget limits for the Goods and Services category is €3,698,886.00 .

III.3. MUNICIPAL EXPENSES

According to the Budget Circular 2027/01, the KJK budget limits for Municipal Expenditures are €1,049,864.00. Compared to the 2026 budget, we have an increase in the budget in this category of €399,864.00, this increase or this additional budget is to be transferred from the MIA according to the agreement dated 04.09.2025 between the KJK, KPK and MIA for the municipal expenses of the Palace of Justice.

The additional budget above the budget limits in this category that will be transferred in the amount of €399,864.00 from the MIA is based on the expenditures of previous years and as such has been planned and calculated by the MIA itself.

The total additional request of the KJC above the budget limits for the category of municipal expenditures according to requests from the courts is €111,000.00.

II I.4. SUBSIDIES AND TRANSFERS

According to Budget Circular 2027/01, the KJC's budget limits for Subsidies and Transfers are €500,000.00, this budget is divided by revenues after collection from the courts and allocation from the Treasury. Compared to the 2026 budget but also from previous years, the budget amount has not changed, so we have no budget increase in this category.

This category compensates persons convicted or arrested without reason, but considering that in recent years the number of requests for compensation at the KJC and through lawsuits in the courts has increased significantly, the KJC has drafted and approved a new regulation which, among other things, changes the compensation fees for these persons with the aim of increasing the number of

compensations through agreements (compromises) with the competent commission of the Council and reducing lawsuits by them in the courts.

In cases where lawsuits are executed according to final court decisions, the compensation amounts are much higher than the fees provided for in the KJC Regulation.
Regarding the expenses from this category, as requested in the budget circular 2027/01, we inform you that we have approximately 580 lawsuits in courts of this nature with very high values, over 30 million euros, specifically €30,110,801.00, where the KJC is the defendant.

In accordance with the requirements of Budget Circular 2027/01 and the ongoing recommendations of the National Audit Office (NAO) regarding the careful planning of contingent liabilities, an analysis of the lawsuits filed against the Kosovo Judicial Council has been carried out, as well as a preliminary assessment by the Department for Legal Affairs, namely the Division for Judicial Representation, on the possibility of their materialization into financial obligations.

After analyzing the active court cases, the nature of the lawsuits, the judicial practice to date, the procedural stage of the cases, and the potential financial exposure of the institution, it has been assessed that there is a significant risk that some of these lawsuits will result in financial obligations for the KJC during the budget years 2027–2029.

Therefore, based on this assessment, as well as in order to implement the principle of fiscal prudence and sustainable budget planning, the Department of Legal Affairs proposes that the budget category "Subsidies and Transfers" include an amount of €6,500,000 for the three-year period 2027–2029, respectively approximately €1,600,000.00 for each year, including 2026, in order to cover potential liabilities that may arise from final court decisions, eventual court agreements, or the execution of financial obligations towards the plaintiffs.

This provision is made with the aim of avoiding the creation of unpaid obligations, maintaining the budgetary stability of the KJC and avoiding additional costs that may arise from late payment interest and enforcement procedures.

It is worth noting that the above assessment is preliminary and based on the current status of active court cases, while the financial exposure may change depending on the development of the procedures and the decision-making of the competent courts.
Regarding the epilogue of these lawsuits at this stage, we cannot prejudge because this issue depends on court decisions regarding the amount of compensation for these cases in order to predict a more accurate or approximate expense in the future. However, based on judicial practice for all the aforementioned lawsuits, the estimated value of compensation cannot exceed six million (€6,500,000.00). It is also worth noting that some of these lawsuits are cases inherited from EULEX.

Regarding the compensation of persons convicted or arrested without reason, the amount of €500,000.00 allocated by the budget law for 2026 has been spent 100% since March 2026, we currently have around €500,000.00 in unpaid obligations according to agreements signed with the

parties by the competent committee of the Council from last year. This year, the committee has not handled any cases due to the absence of a committee member.

It is worth noting that the budget in this category for compensation for persons convicted or arrested without reason is allocated from KJC revenues collected by the courts, which compared to last year have increased by about 30% this year, therefore we consider that based on this fact and the aforementioned reasons, an additional budget should be allocated for KJC according to the following amount.

The total additional request above the budget limits for the Subsidies and Transfers category is €1,600,000.00.

III.5. CAPITAL EXPENDITURES

According to Budget Circular 2027/01, the KJC budget limits for Capital Expenditures are €3,920,000.00. Compared to the 2026 budget, there is no increase in this category.

Capital projects for implementation according to budget limits are as follows:

1. Repair and maintenance of Court facilities in the amount of €200,000.00.
2. Palace of Justice-BMS – Building Management System /Update of servers, licenses, DDC panels, sensors , actors, KNX/ BACnet integrations in the amount of €200,000.00.
3. Design and construction of the Basic Court building in Prizren in the amount of €1,435,000.00.
4. Supply of photocopiers, printing and scanning equipment, in the amount of €100,000.00.
5. Construction of the Basic Court building in Pristina, branch in Drenas, in the amount of €400,000.00.
6. Design and construction of the Basic Court building in Peja in the amount of €1,100,000.00.
7. Purchase of equipment for the court computer network : Switch, router, UPS etc., in the amount of €85,000.00
8. Supply and installation of security devices for entry and exit to facilities - Akces Check in the amount of €100,000.00.
9. Expropriation of the former Pristina Municipal Court building in the amount of €300,000.00.

The additional budget above the budget limits for capital projects is as follows:

III.5.1. Purchase of equipment at the Palace of Justice, in the amount of €500,000.00.

The total additional request above the budget limits for the Capital Expenditures category is €500,000.00.

IV. ADDITIONAL REQUEST AND GENERAL BUDGET REQUEST OF KJC 2027

The additional request above the budget limits foreseen in the budget circular 2027/01 is for **14,092,353.26 €** and for the category of Salaries and Allowances **€8,474,461.36;** Goods and Services **€3,517,891.90;** Subsidies and Transfers **€1,600,000.00;** Capital Expenditures **€500,000.00.**

The KJC's overall budget request for 2027 is **€53,900,928.**

V. BUDGET AND ADDITIONAL COSTS FOR THE ADMINISTRATIVE COURT

With the entry into force of Law No. 08/L-291 on the Administrative Court, which has begun to function since May 5, 2026, but no positions and budget have been allocated for this court with the Law on Budgetary Allocations for 2026.

For the full functionality of this court in terms of the number of judges, eleven (11) additional positions of judges are needed, one of them for the president of the court, as well as forty-nine (49) positions of administrative staff.

The additional annual cost for these positions is **€830,119.48.**

For the goods and services category , the additional annual cost is **€284,661.00.**

For the category of utility expenses , the additional annual cost is **€52,884.00.**

Based on the concept document of the working group (commission) established by the Ministry of Justice, the budget cost has been prepared , as well as the budget impact assessment by the Ministry of Finance and the Ministry of Justice, however, this cost and budget impact assessment have not been included, respectively, no budget has been allocated for this court with the Law on Budget Allocations for 2026.

For the functionalization of this court, the KJC, in addition to the positions transferred from the Administrative Department of the Basic Court of Pristina and the Fiscal and Administrative Department of the Commercial Court, has transferred the vacant positions for judges and administrative staff from other courts which should be returned to these courts after their separation with the Law on Budgetary Allocations for 2027.

The KJC budget request for 2027 and additional costs for positions and additional budget for all economic categories for this court is presented in the following table:

BUDGET AND ADDITIONAL COSTS FOR THE ADMINISTRATIVE COURT

After the law for this court enters into force and the 2027 budget is approved, the relevant code should be opened, as other courts have, as KJC budget programs.

VI. COURT REVENUES

As you know, the Kosovo Judicial Council, through the courts, generates judicial revenues with which it contributes to the Budget of the Republic of Kosovo. A part of these revenues from 2007 to 2012, based on the Memorandums of Understanding with the Minister of Finance, were used by the KJC to create better working conditions for employees in the Kosovo Judicial System, as well as to compensate persons convicted and arrested without reason , while from 2012 to 2023, according to the instructions and annual budget laws over the years, a part of these revenues were included in regular budget allocations in the category of salaries and allowances and in the category of subsidies and transfers , and were used by the KJC for the purposes mentioned above , while from 2023, with the entry into force of the Law on Salaries, a part of the funds from the revenues are allocated only for the category of subsidies and transfers .

Judicial revenues generated by the KJC , respectively by the Courts, in 2025 increased by 8.11% compared to 2024, and in 2026 we also have a trend of increasing revenues , while for 2027, the KJC plans to generate revenues in total of €13,446,000.00.

SUBJECT: 2026 BUDGET REQUEST OF THE KOSOVO JUDICIAL COUNCIL IN ACCORDANCE WITH BUDGET CIRCULAR 2026/01 AND ADDITIONAL BUDGET REQUEST

DATE: 25 June 2025 **REF. NO.:**

Dear Minister Murati,

Pursuant to the instructions set forth in Budget Circular 2026/01, we hereby submit the budget request of the Kosovo Judicial Council (KJC) for 2026, together with the budget estimates for 2027 and 2028.

I. INTRODUCTION

As a constitutional institution, the Kosovo Judicial Council (KJC) carries out its mandate pursuant to the Constitution of the Republic of Kosovo as an independent body and serves as the institution responsible for managing and administering the judicial institutions of the third branch of government of the Republic of Kosovo, as stipulated in Article 4 *Form of Government and Separation of Powers* of the Constitution of the Republic of Kosovo.

The KJC was initially established pursuant to UNMIK Regulations No. 2001/8 and 2005/52, while its continuity has subsequently been ensured through later legislation, including Law No. 03/L-123 on the Temporary Composition of the Kosovo Judicial Council, Law No. 03/L-223 on the Kosovo Judicial Council, which entered into force on 3 May 2011, and Law No. 06/L-055 on the Kosovo Judicial Council, which entered into force on 9 January 2019.

I.1 Achievements in the Implementation of Objectives, Targets under the 2026–2028 Budget Allocations, Existing Policies and New Activities

The Kosovo Judicial Council is currently in the phase of implementing the new judicial legislation that entered into force in January 2019, namely: Law No. 06/L-055 on the Kosovo Judicial Council, Law No. 06/L-054 on Courts, and Law No. 06/L-057 on the Disciplinary Liability of Judges and Prosecutors.

In implementing these laws, the KJC has undertaken timely measures and actions to address all challenges arising from the legal reforms. In this regard, it has envisaged the issuance of a series of regulations, administrative instructions, strategic plans, action plans and work plans, the implementation of which contributes to the achievement of the KJC's objectives.

During 2024, the KJC finalized and commenced the implementation in 2025 of the following:

During 2024, the KJC adopted the following secondary legislation:

7. Memorandum of Understanding between the Kosovo Judicial Council (KJC) and the State Archives Agency of Kosovo, October 2024;

8. Memorandum of Understanding between the Kosovo Judicial Council (KJC) and the State Archives Agency of Kosovo, November 2024;

9. Memorandum of Understanding between the Kosovo Judicial Council (KJC) and the Kosovo Privatization Agency (KPA);

10. Cooperation Memorandum between the Kosovo Judicial Council and the Humanitarian Law Center Kosovo;

11. Standard Letter of Agreement between the United Nations Development Programme (UNDP) and the Kosovo Judicial Council (KJC) regarding the implementation of Activity 1.1, Result 1.1.1, namely the engagement of a team of sixteen (16) legal officers to complete the systematization of archived court cases, with UNDP serving as the implementing entity.

Memoranda of Understanding / Agreements during 2025 (January–June):

1. Cooperation Memorandum between the Kosovo Judicial Council and the Chamber of Private Enforcement Agents of Kosovo;

2. Cooperation Memorandum between the Kosovo Judicial Council and the Group for Legal and Political Studies (GLPS), together with the authorization of the Chairperson of the KJC to sign this memorandum;

3. Cooperation Memorandum between the Constitutional Court of the Republic of Kosovo, the Kosovo Judicial Council and the Kosovo Prosecutorial Council, together with the authorization of the Chairperson of the KJC to sign this memorandum;

4. Cooperation Agreement between the Kosovo Judicial Council and the Kosovo Academy for Public Safety.

Other significant activities undertaken within the framework of the Council's mandate during 2024–2025 include:

1. Activity of the Advisory Committee on Judicial Ethics – During 2024, the Advisory Committee on Judicial Ethics issued an Advisory Opinion entitled: "Advisory Opinion on Applicable Ethical Standards Governing Judges' Conduct Outside the Office, with Particular Emphasis on Participation in Various Prize-Based Games and Activities."

2. Activity of the Commission for Monitoring, Evaluation and Reporting on the Strategic Plan for Improving Access to Justice 2022–2025 and the Strategic Plan for the Efficient Resolution of Corruption and Organized Crime Cases 2022–2024. Following the monitoring and oversight of these strategies during the reporting period, the Commission prepared reports containing recommendations regarding:

- Old cases in the Civil Division of the Court of Appeals of Kosovo;
- Cases remanded for retrial by the Supreme Court of Kosovo and the Court of Appeals of Kosovo;
- Terrorism cases handled by the Special Department of the Basic Court in Prishtina.

The Commission also visited all courts and court branches during this period and analyzed the status of enforcement cases before the Court of Appeals for each judge as of the end of April 2025, preparing the relevant notification/report.

3. Activity of the Commissioner for the Oversight of the Communications Interception Process

The function of the Commissioner is closely linked to the mandate of the Liaison Unit, which operates under the administration and supervision of the Office of the Chief State Prosecutor. In order to fulfill its purpose and mission, throughout 2024 the Commissioner maintained continuous contact with and conducted visits to this Unit, meeting with its Head and responsible staff members. At the same time, the Commissioner was directly informed of the challenges and progress of the Unit and assessed various aspects of its operations and the performance of its personnel.

In this context, the Commissioner reviewed the special register for the activation of communications interceptions and the manner in which data are recorded in the registration logbook, including information relating to:

- Sequential number;
- Full name;
- Identification number;
- Time, date, month and year of receipt;
- The respective court/prosecution office that issued the order;
- Order number;
- Telecommunications operator;
- Identification code; and
- Classification of the document.

In addition, important matters were verified, in particular the consistency between the time and date of receipt of the interception order and the time and date of the commencement of the interception.

Furthermore, based on the report received from this Unit, the Commissioner concluded that during the period January–December 2024, the Unit received a total of 607 orders from authorized institutions, as follows:

- 40 orders for the purposes of criminal proceedings through the Kosovo Police Monitoring Centre;
- 7 orders from the Prosecution Office; and
- 197 orders for the security needs of the Republic of Kosovo issued by the Kosovo Intelligence Agency.
- Working Group for Drafting Functional Requirements for the Judicial Electronic File System ("E-File") – Development of the Judicial E-File System for use in recruitment, performance evaluation, professional development, promotion and disciplinary proceedings, implemented through the EUKOJUST Project. With regard to Regulation No. 13/2023 on the Use of the Judicial Electronic File Management System, the same was adopted in 2023.
- Working Group for Drafting the Action Plan for the Implementation of the Law on the Commercial Court – With the support of the USAID Commercial Justice Project, the Court developed the Commercial Court Strategy for 2024–2025 and the corresponding Action Plan, which forms an integral part of the Strategy. The Action Plan specifically sets out all activities envisaged to achieve the intended objectives, the implementation timeline, the units and individuals responsible for each activity, the respective budgetary implications, and the outputs expected from each activity.
- Working Group for Drafting Normative Acts for the Implementation of the Audio-Video Recording Project – The KJC approved the relevant regulation on audio and audio-video recording of court hearings and undertook all necessary technical measures for the implementation of this project (Regulation No. 14/2024 on Audio Recording and Audio-Video Recording of Court Hearings).

During 2024, the Commission for the Evaluation of Judges' Performance held seven (7) plenary sessions during which a total of one hundred and sixteen (116) judges' performance evaluation reports were approved, covering:

- 10 judges with permanent mandates evaluated for promotion purposes;
- 3 judges following the completion of their mandate as members of the Commission for the Evaluation of Judges' Performance;
- 50 judges selected from the Random List 2021–2023;
- 13 Supervising Judges;
- 11 judges serving in the Electoral Panel for Complaints and Appeals (ECAP);
- 29 judges following the completion of the twelve-month Initial Training Programme at the Academy of Justice.

Total: 161 (one hundred and sixty-one) evaluations.

Performance Evaluation of Court Presidents and Supervising Judges pursuant to Regulation No. 13/2022

- During 2024, six (6) Court Presidents were scheduled for evaluation. The Commission for the Evaluation of Court Presidents' Performance completed the evaluation of three (3) Court Presidents. The evaluation process for the remaining three (3) Court Presidents is in its final stage and has been carried forward to 2025.

According to the Work Plan for 2025–2027, the following activities are planned:

- Performance evaluation of Court Presidents and Supervising Judges pursuant to Regulation No. 13/2022.

For 2025, it is planned that six (6) Court Presidents and one (1) Supervising Judge will be evaluated.

- Performance evaluation of judges holding permanent mandates, in accordance with the sequence determined through the lottery method pursuant to Article 10 of Regulation No. 01/2021, for the evaluation periods 2023, 2024 and 2025.

A list comprising sixty (60) judges has been approved.

- Final performance evaluation of judges holding initial mandates, upon completion of the twelve-month Initial Training Programme at the Academy of Justice, pursuant to Article 16 of Regulation No. 01/2021.

Total: fifteen (15) judges.

- Performance evaluation of judges holding initial mandates for the purpose of reappointment, pursuant to Article 17 of Regulation No. 01/2021.

Total: forty-five (45) judges.

- Performance evaluation of judges holding permanent mandates for promotion purposes, pursuant to Article 19 of Regulation No. 01/2021.

The exact number of candidates/judges will not be known until the vacancy announcement is published.

Based on available data, the number of judges subject to annual performance evaluation may reach up to 150 judges.

During 2024, the Kosovo Judicial Council completed the following appointment and recruitment processes for judges and administrative staff:

- Re-elected the Chairperson of the Kosovo Judicial Council;

- Elected the Deputy Chairperson of the Kosovo Judicial Council;

- Promoted twenty-two (22) judges, including:

  Five (5) judges to the Supreme Court;
  Two (2) judges to the Special Chamber of the Supreme Court – Appellate Panels as a second-instance level;
  Two (2) judges to the Special Chamber of the Supreme Court; and
  Thirteen (13) judges to the Court of Appeals;

- Selected sixty-eight (68) judges with initial mandates [for fifteen (15) of them, the recruitment procedure had been completed in 2023, while their appointment by Presidential Decree took place on 15 January 2024];

- Through external recruitment procedures, a total of one hundred and forty-seven (147) employees were recruited into the Judicial System Administration, including:

  Sixty-four (64) Professional Associates;
  Sixty-eight (68) Legal Officers; and
  Fifteen (15) other professional administrative employees.

- Through internal recruitment procedures, a total of fifty-one (51) employees were recruited into the Judicial System Administration, including:

  Three (3) Heads of the Office for Common Services;
  Three (3) Judicial Inspectors;
  Two (2) Certification Officers;
  Twenty-six (26) Administrative Clerks;
  Eight (8) Senior Archivists; and
  Nine (9) other professional administrative employees.

- A total of sixty-four (64) fixed-term employees engaged for the implementation of specific projects were employed within the Judicial System Administration, including:

  Twelve (12) employees under the KJC/CMIS Project;
  Twenty (20) Legal Officers under the KJC/KPA Project;
  Sixteen (16) Legal Officers under the KJC/UNDP Project; and
  Sixteen (16) Legal Consultants engaged in courts and the KJC under a KJC Project.

Termination of Employment Relationship

A total of one hundred and seventy (170) employees in the Kosovo judiciary ended their employment relationship, including:

- Retirement – one hundred and ten (110) cases, comprising:

  Twenty-four (24) judges; and
  Eighty-six (86) other employees.

- Resignation – fifty-one (51) cases, comprising:

  Four (4) judges;
  Nineteen (19) Professional Associates; and
  Twenty-eight (28) other employees.

- Death – nine (9) cases.

During 2025 (January–June), the following appointment and recruitment processes for judges and administrative staff were completed:

- Two (2) members of the Kosovo Judicial Council were elected;

- Twelve (12) judges were promoted, including:

  Two (2) judges to the Supreme Court;
  One (1) judge to the Special Chamber of the Supreme Court;
  Seven (7) judges to the Court of Appeals; and
  Two (2) judges to the Second-Instance Panels of the Commercial Court.

- During this period, twenty (20) judges holding initial mandates were selected.

During 2025 (January–June), a total of eighty-five (85) employees were recruited into the Judicial System Administration through external recruitment procedures, including:

- Thirty-four (34) Professional Associates;
- Thirty-two (32) Administrative Clerks and Archivists; and
- Nineteen (19) other professional administrative employees.

Termination of Employment Relationship

During 2025 (January–June), a total of sixty-eight (68) employees in the Kosovo judiciary ended their employment relationship, including:

- Retirement – fifty-three (53) cases, comprising:

  Fifteen (15) judges; and
  Thirty-eight (38) other employees.

- Resignation – eleven (11) cases, comprising:

  Zero (0) judges; and
  Eleven (11) other employees.

- Death – four (4) cases.

CMIS Project – Transitional Phase

Following the successful completion of the previous three phases of the CMIS Project, the Government of Norway, together with the Kosovo Judicial Council and the Kosovo Prosecutorial Council, agreed to co-finance the fourth phase of the project, namely the Transitional Phase. The sub-grant agreement for the co-financing of the CMIS Project was signed on 1 June 2022, while the implementation period for this phase was three years, specifically from 1 June 2022 to 31 May 2025.

The main objectives of this phase of the project are:

- Effective and transparent courts and prosecution offices, and compliance with case disposition timelines in accordance with recognized human rights standards;

- A functional and fully operational CMIS implemented in all courts and prosecution offices, properly maintained and continuously upgraded; court and prosecution staff equipped with adequate computers and other necessary equipment for the effective use of CMIS;

- Enhancement of management capacities, performance and transparency through the use of statistical reports automatically generated by CMIS;

- Establishment of an ICT organizational structure staffed by professionals possessing the knowledge and skills necessary to continue providing ICT support following the completion of the Project.

Achievements to Date in the Development and Implementation of CMIS in Courts

Through the implementation of the Project, CMIS has been successfully developed for all categories of court cases (misdemeanor, criminal, civil, administrative, commercial, etc.) and has been deployed across all three judicial instances, namely the Basic Courts, the Court of Appeals, the Supreme Court and the Commercial Court. As a result of the use of CMIS in the courts, the assessment of court and judicial performance is conducted exclusively on the basis of statistical data generated by CMIS.

One of the principal functions developed within CMIS for courts is the automatic allocation of cases to judges. This process is carried out based on criteria previously approved by the KJC and has significantly enhanced both efficiency and transparency.

The main CMIS functions in courts include:

- Case intake and registration;
- Automatic assignment and reassignment of judges/prosecutors and panel members;
- Case review and processing;
- Judicial calendar management;
- Scheduling, postponement and cancellation of hearings;
- Minutes of proceedings;
- Consolidation of cases;
- Severance of cases;
- Templates for all case-related documents;
- Decisions and judgments;
- Distribution of summonses and notices;
- Finality of decisions;
- Procedural costs management;
- Enforcement;
- Archiving;
- Jurisdictional conflict management;
- Electronic case registers; and
- Statistical reports containing all CEPEJ indicators for measuring court and judicial performance.

Interconnection of CMIS with Other Systems

- The CMIS system used by the courts is interconnected with the CMIS system used by the Prosecution Offices, enabling all case data and documents to be transferred electronically from the prosecution offices to the courts and vice versa.

- CMIS is interconnected with the Civil Registry System, enabling party-related data to be retrieved from the Civil Registry in real time.

- CMIS is interconnected with the Business Registration System, enabling business data relating to parties involved in proceedings to be retrieved from the Business Registry in real time.

- Within the prosecution system, CMIS is interconnected with the Kosovo Police information system.

Interconnection of CMIS with the Portal www.gjyqesori-rks.org

The CMIS system is interconnected with the KJC portal, www.gjyqesori-rks.org, through which information on the work of the courts is published, including:

- Publication of court hearing schedules, providing real-time information on hearings taking place in courts throughout the country;

- A dedicated tool entitled “Case Tracking Mechanism”, through which parties may monitor their court cases, review actions taken in relation to their cases, and track the status of proceedings before the courts;

- An Open Data Platform, through which data and statistical reports concerning case management and court performance are published.

CMIS is currently being used in all prosecution offices and courts. All cases received by courts and prosecution offices are registered in CMIS, and all subsequent case-processing activities are carried out through the system.
For the use of CMIS in courts, the KJC has adopted Regulation No. 11/2023. Pursuant to this Regulation, the use of CMIS is mandatory, and failure to use the system constitutes grounds for the initiation of disciplinary measures.

The use of CMIS has also been incorporated as a specific criterion in the performance evaluation of judges. This means that during their regular evaluations (conducted every three years), judges are assessed not only against other performance criteria, but also specifically on whether and how they use CMIS.
The commissions responsible for evaluating judges’ performance are granted access to CMIS and obtain all relevant information directly from the system for the cases selected for review. Consequently, judges are also assessed on whether all required case-related information has been accurately entered into CMIS.

Enhancement and Development of CMIS for Courts

The enhancement and further development of CMIS is one of the key activities of the Information Technology Department, ensuring the continued use of the system and contributing to increased operational efficiency.

The principal activities related to the advancement of CMIS include:

Automatic Case Allocation in the Commercial Court The implementation of automatic case allocation in the Commercial Court represents the most significant enhancement achieved. For this purpose, on 15 January 2024, the KJC approved the criteria for the automatic allocation of cases through CMIS in the Commercial Court. Following approval, the functionality was developed, tested and deployed in the Court as of 1 April 2024. Through the implementation of automatic case allocation in the Commercial Court, the judiciary of Kosovo has achieved fully automated assignment of individual judges and the formation of judicial panels across all judicial instances and all areas of jurisdiction through CMIS.

Enhancement of Interconnection with the Prosecution System An additional enhancement was implemented to strengthen interconnection with the prosecution system and eliminate the transmission of incorrect data and documents from prosecution offices. For this purpose, a functionality was developed within CMIS enabling court clerks to return a case electronically to the prosecution office through the system whenever errors are identified regarding the parties to the proceedings or where important case documents are missing. This functionality has been successfully developed, implemented and is currently in use, yielding highly positive results.

Enhancement of the Case Severance Function The case severance function was improved in order to simplify the process and make it easier for system users to perform. Following an analysis of workflow processes, the case severance task was redesigned, developed and fully integrated into the system. Since its implementation, users have provided very positive feedback regarding the improvement of this functionality.

Updating of CMIS Training Manuals As part of activities aimed at increasing the level of CMIS utilization and improving data quality within the system, the Department of Information Technology updated ten (10) user manuals during 2024. These include:

- Manual No. 1 – Case Intake and Registration;
- Manual No. 2 – Decision-Making and Hearing Scheduling;
- Manual No. 3 – Severance and Consolidation of Proceedings; Jurisdictional Conflicts;
- Manual No. 5 – Receipt, Registration and Transfer of Appeals through System Interconnection;
- Manual No. 6 – Return of Incorrectly Assigned Tasks through System Interconnection;
- Manual No. 7 – Case Severance in Criminal and Civil Proceedings;
- Manual No. 8 – Post-Enforcement Procedures in the Court of Appeals;
- Manual No. 9 – Enforcement of Criminal Sentences;
- Manual No. 10 – Service and Delivery of Court Documents.

Activities of the CMIS User Working Group (UWG)

Following the establishment of the CMIS User Working Group (UWG) for the courts, five (5) meetings of the UWG were held. The first meeting following the establishment of the new User Working Group, corresponding to the regular sequence of UWG meetings since its inception (the 48th meeting), was held on 13 June 2024. Given the newly appointed composition of the UWG, the agenda included only two items: informing the members of the UWG about the role and responsibilities of the Working Group, and presenting the ICT/CMIS Project (Transitional Phase) in order to familiarize the members with the CMIS Project.

The second (49th) UWG meeting (a joint meeting with the Prosecution Office and the donor) was held on 4 October 2024. The meeting was attended by Mr. Audun Hognes Berg, Senior Adviser, NCAJ, and Ms. Amra Jasarevic, Senior Adviser, NCAJ. In accordance with the agenda, discussions focused on the purpose of the CMIS Functional Analysis and on the guidelines relating to the steps required for correcting errors in the exchange of data between the Prosecution Offices and the Courts through CMIS.

During the third (50th) UWG meeting, held on 21 February 2025, discussions focused on the assessment of system improvement needs, the identification and prioritization of proposed changes and new functionalities for the future enhancement of CMIS, and the presentation for approval of questionnaires prepared for court staff.

During this meeting, priorities were assigned to each proposed system modification, including: twenty (20) change requests relating to the Basic Courts; fifteen (15) change requests relating to the Court of Appeals; seven (7) change requests relating to the Supreme Court; and fifteen (15) proposed new functionalities. Based on the priorities established by the UWG, the implementation of these requests is expected to contribute significantly to the further improvement of the system.

At the fourth (51st) UWG meeting, held on 25 April 2025, the agenda focused on the review of the analysis report of questionnaires completed by CMIS users across all courts.

All proposals identified through this process were carefully analyzed by the UWG and, based on the priority assigned to each user request, were incorporated into the CMIS Project work plans for future system enhancement and development.

At the fifth (52nd) UWG meeting, held on 2 June 2025, the agenda focused on the review of the Two-Year Action Plan for Improving Data Quality in CMIS.

During this meeting, all activities envisaged for the successful implementation of the Action Plan over the next two years were discussed and approved. The Plan is expected to have a significant impact on improving data quality within the system through two parallel streams: Verification of data quality by case type; and Verification of data quality for specific categories of cases.

Audio and Video Recording Project for Courts – U.S. Embassy / INL

This project is funded by the United States Department of State and is being implemented by the Bureau of International Narcotics and Law Enforcement Affairs (INL).

The objective of the project is to modernize the courts of Kosovo through the introduction of audio and video recording systems for criminal proceedings. This objective will be achieved through the provision of simultaneous interpretation equipment, audio and video recording systems, transcription equipment, and through strengthening institutional capacities for the effective use of such equipment.

In order to implement this project, the following activities have been planned:

1. Equipping all courtrooms throughout Kosovo with audio recording equipment, with a total of eighty-eight (88) audio recording systems planned for installation.

2. Equipping seven regional courtrooms (one courtroom in each Basic Court) with audio-video recording systems, simultaneous interpretation equipment, and videoconferencing facilities, including the capability to enable protected witnesses to provide testimony remotely through audio and video links during court hearings. In addition, mobile videoconferencing equipment will be provided, enabling courts to deliver equipment to parties who, for any reason, are unable to be physically present in the courtroom.

3. Equipping two facilities of the Court of Appeals, one in Prishtina and one in Mitrovica, with videoconferencing systems.

4. Equipping the offices of judges handling criminal matters with transcription equipment, with a total of one hundred and twenty-nine (129) transcription units planned for installation.

5. Equipping the conference room of the Kosovo Judicial Council with videoconferencing, audio recording, and transcription equipment.

6. Training ten (10) ICT technical staff members on the operation and maintenance of the system.

7. Training court personnel in the use of the equipment, including 260 judges and administrative staff members.

The activities successfully completed to date include:

Basic Court in Gjilan and its Branches in Kamenica and Viti
The procurement, installation, testing and commissioning of courtroom equipment have been completed.

At the Basic Court in Gjilan, equipment has been installed in the main courtroom, including audio, video and simultaneous interpretation systems. Audio recording equipment has been installed in ten (10) smaller courtrooms, while transcription equipment has been installed in thirteen (13) judges' offices.
At the Basic Court in Gjilan – Kamenica Branch, audio recording equipment has been installed in two (2) courtrooms and transcription equipment in two (2) judges' offices.
At the Basic Court in Gjilan – Viti Branch, audio recording equipment has been installed in two (2) courtrooms and transcription equipment in three (3) judges' offices.
At the Basic Court in Gjilan – Novobërdë Branch, audio recording equipment has not yet been installed because the court building is not ready. These devices have instead been installed in Fushë Kosovë.

Basic Court in Prishtina
Equipment has been installed in the main courtroom, including audio, video and simultaneous interpretation systems. Audio recording equipment has been installed in sixteen (16) smaller courtrooms, while transcription equipment has been installed in thirty-five (35) judges' offices.

At the Basic Court in Prishtina – Gračanica Branch, audio recording equipment has been installed in three (3) courtrooms and transcription equipment in two (2) judges' offices.
At the Basic Court in Prishtina – Podujeva Branch, audio recording equipment has been installed in three (3) courtrooms.
At the Basic Court in Prishtina – Lipjan Branch, audio recording equipment has been installed in two (2) courtrooms.
At the Basic Court in Prishtina – Fushë Kosovë Branch, audio recording equipment has been installed in one (1) courtroom.
At the Basic Court in Prishtina – Drenas Branch, audio recording equipment has been installed in one (1) courtroom.

Basic Court in Ferizaj

Equipment has been installed in the main courtroom, including audio, video and simultaneous interpretation systems. Audio recording equipment has been installed in eight (8) smaller courtrooms.

At the Basic Court in Ferizaj – Kaçanik Branch, audio recording equipment has been installed in two (2) courtrooms.

At the Basic Court in Ferizaj – Shtërpcë Branch, audio recording equipment has been installed in one (1) courtroom.

Basic Court in Peja

Equipment has been installed in the main courtroom, including audio, video and simultaneous interpretation systems. Audio recording equipment has been installed in four (4) smaller courtrooms.

At the Basic Court in Peja – Klina Branch, audio recording equipment has been installed in two (2) courtrooms.
At the Basic Court in Peja – Istog Branch, audio recording equipment has been installed in two (2) courtrooms.
At the Basic Court in Peja – Deçan Branch, audio recording equipment has been installed in two (2) courtrooms.

At the Basic Court in Gjakova, equipment has been installed in the main courtroom, including audio, video and simultaneous interpretation systems. Audio recording equipment has been installed in seven (7) smaller courtrooms.

At the Basic Court in Gjakova – Malisheva Branch, audio recording equipment has been installed in two (2) courtrooms.
At the Basic Court in Gjakova – Rahovec Branch, audio recording equipment has been installed in two (2) courtrooms.

Basic Court in Prizren

At the Basic Court in Prizren, equipment has been installed in the main courtroom, including audio, video and simultaneous interpretation systems. Audio recording equipment has been installed in four (4) smaller courtrooms.

At the Basic Court in Prizren – Suhareka Branch, audio recording equipment has been installed in two (2) courtrooms.
At the Basic Court in Prizren – Dragash Branch, audio recording equipment has been installed in two (2) courtrooms.

Basic Court in Mitrovica

At the Basic Court in Mitrovica, equipment has been installed in the main courtroom, including audio, video and simultaneous interpretation systems. Audio recording equipment has been installed in four (4) smaller courtrooms.

Basic Court in Mitrovica – South Mitrovica Facility: 0 courtrooms equipped, as the building is not yet ready. One courtroom had been planned, but the equipment has been installed in Vushtrri instead.

At the Basic Court in Mitrovica – Vushtrri Branch, audio recording equipment has been installed in one (1) courtroom.

At the Basic Court in Mitrovica – Skenderaj Branch, audio recording equipment has been installed in one (1) courtroom.
Leposavić Branch: 0 courtrooms equipped, as the building remains closed. One courtroom had been planned, but the equipment has not yet been installed.
Zubin Potok Branch: 0 courtrooms equipped, as the building remains closed. One courtroom had been planned, but the equipment has not yet been installed.

As part of the KJC's contribution to the implementation of the Audio and Video Recording Project, a number of important supporting activities have been carried out, including equipment procurement, preparation of courtrooms with the necessary furniture and infrastructure, and other related measures.

Procurement of New Computers for Criminal Division Judges
During this year, all criminal division judges whose computers required replacement were provided with new computers purchased through the KJC budget specifically for the implementation of the audio recording project. In total, more than 140 computers were replaced.

In addition, ICT staff in the courts are currently working to improve the performance of computers used by Legal Officers in order to facilitate the installation and effective use of transcription equipment.

Through the Department of Logistics, interventions are being carried out as necessary to ensure an adequate power supply in courtrooms where new equipment is being installed and to provide air-conditioning where required. The Department of Logistics is also responsible for procuring furniture and inventory, including chairs, desks and other necessary items.

Preparation and Approval of the Regulation on the Use of Audio and Video Systems in Courts
Through this Regulation, the KJC has defined the roles and responsibilities relating to the use of audio and video systems within the courts. The Regulation was approved by the KJC in September of this year.

With the installation of equipment, the completion of training activities, and the approval of the Regulation governing the use of these systems, courts are expected, as of the beginning of 2025, to make maximum efforts to ensure the use of audio and video systems in all criminal hearings.

Implementation of the National Central Criminal Records System (NCCRS)

During 2024, the National Central Criminal Records System (NCCRS) was fully consolidated. During the year, a total of 15,195 new criminal cases were entered into the system, bringing the total number of criminal records registered in the NCCRS to 356,301 cases.

During the same period, the issuance of criminal record certificates continued through the e-Kosova platform as well as physically through all first-instance courts across the country. As of 31 December 2024, a total of 497,861 criminal record certificates had been issued.

In addition to certificates issued for natural persons, since 1 June 2023 the system has also enabled the issuance of criminal record certificates for legal entities. During the reporting period, a total of 366 certificates were issued for legal entities.

Furthermore, the process of issuing criminal record extracts for domestic institutions and foreign authorities for the purpose of verifying the criminal background of natural and legal persons has been fully operationalized. During the reporting period, a total of 1,707 criminal record extracts were issued, covering 11,120 individuals.

During 2024, the regular process of legal rehabilitation (ex officio expungement of criminal convictions) continued. As of 31 December 2024, a total of 161,772 convictions had been expunged.

During 2024, as a result of the entry into force of the new Law on the Criminal Records System, the KJC approved two regulations deriving from this Law. Regulation No. 19/2024 on the National Central Criminal Records System (NCCRS) and Regulation No. 18/2024 on the Registers of Persons Convicted of Criminal Offences against Sexual Integrity were adopted.

With the adoption of Regulation No. 18/2024, two separate registers for perpetrators of criminal offences against sexual integrity were established within the NCCRS. These registers are scheduled to become operational in June 2025.

As a result of the operationalization of the NCCRS, the process of international legal assistance in the field of criminal records has commenced with other countries, as has the exchange of criminal record data with foreign states in accordance with the Law on International Legal Cooperation.

Strategic Plan of the Judiciary 2023–2025

The Kosovo Judicial Council has adopted the Strategic Plan of the Judiciary 2023–2025. The achievement of the objectives set forth therein will be pursued through the following strategic goals:

Goal 1: An Independent, Efficient and Transparent Judiciary

A functional judicial system provides the citizens of Kosovo with an organized, effective and efficient system focused on serving all individuals who seek recourse to the courts for the resolution of disputes and the administration of justice in a timely manner, in accordance with the Constitution, the laws of Kosovo, and the general expectations of the public.

The three descriptive elements reflected in this goal are essential for achieving a judiciary that is both credible and functional. Parties appearing before the courts in all matters must be treated with dignity and respect, while judicial decisions must be respected and enforced.

The judiciary must be perceived as an objective and independent system, free from political influence. Judicial procedures should be clear, concise, readily understandable and effectively implementable. Without these elements, public confidence in the judicial system cannot be achieved.

Furthermore, a strong and trusted judiciary is essential for building a robust economy and is indispensable for the development of a thriving democracy. Effective management of available financial and human resources must be achieved, and, to the greatest extent possible, the

judiciary should continue to benefit from the resources, expertise and knowledge of its international partners.

Strategic Objectives

1.1 Promote the concept of the Judicial System as an independent constitutional institution and a branch of government equal to the other branches, placing citizens at its center and committed to serving all citizens of Kosovo fairly and in full compliance with the Constitution and the laws of the Republic of Kosovo.

1.2 Strengthen the institutional structure and functions of the Kosovo Judicial Council in order to better meet the needs of the judicial system and adapt to changing circumstances.

1.3 Secure adequate financial resources through the budgetary procedures of the Assembly of the Republic of Kosovo and ensure continued support from international partners.

1.4 Regulate the allocation of human and material resources according to actual needs in order to ensure maximum efficiency, while adapting these efforts to increased use of technology in support of court functions.

1.5 Improve internal communication between the KJC and courts throughout Kosovo, as provided for in the Communication Strategy.

1.6 Strengthen the role of the Court Administration Committee and Court Presidents in monitoring the implementation of the Strategic Plan and Annual Work Plan.

1.7 Ensure the timely processing of cases and achieve the full implementation of case management practices, as envisaged by the Strategic Plan for Access to Justice referred to above.

1.8 Promote alternative dispute resolution mechanisms.

1.9 Increase public reporting and disclosure of relevant information concerning the activities of the judiciary.

1.10 Ensure the timely publication of judicial decisions, rulings and judgments.

1.11 Monitor the alignment of the Strategic Objectives of this Strategic Plan with the activities envisaged in the Annual Work Plans and other strategic documents.

Goal 2: Quality, Accountability and Professionalism of the Judiciary

Goal 2 is closely linked to Goal 1 outlined above. The two goals are mutually dependent and essential to one another. The key components of this Goal consist of a combination of effective recruitment, vetting, training, quality control monitoring, accountability and discipline.

Particular attention to the effective and timely recruitment of judicial, professional and administrative personnel within the KJC, as well as throughout the judiciary as a whole, is essential for ensuring a responsive and consistent justice system.

Continuous and ongoing training of all judicial personnel is necessary to meet the needs of court users and to promote the concept of a "people-centered" justice system.

Performance standards, many of which are recognized by the international community, should be continuously assessed, adapted to local needs, implemented and monitored. Furthermore, initiatives aimed at achieving excellence should be undertaken, while monitoring and disciplinary functions should be recognized as essential elements of high-quality professional and administrative performance.

Continuous cooperation with the Academy of Justice of Kosovo should be maintained in order to meet the training needs of judicial and administrative personnel and to ensure the delivery of work products of the highest quality and professional competence.

Strategic Objectives

2.1 Institutional commitment to serving the citizens of Kosovo through a people-centered approach focused on quality service, integrity, and dedication to justice and equality.

2.2 Continuous review and development of relevant specialized training opportunities for judicial and administrative personnel, in close coordination with the Academy of Justice of Kosovo and international partners. Particular attention should be devoted to ethics and management training for relevant court personnel.

2.3 Development of career advancement opportunities for both judicial and administrative personnel.

2.4 Greater consistency in judicial decisions and in the reasoning supporting rulings and judgments.

2.5 Review of performance evaluation standards and their revision where necessary.

2.6 Review and strengthening of quality control and monitoring mechanisms for all judicial and administrative personnel. Relevant legislation and regulations should be monitored and amended where necessary.

2.7 Improvement and strengthening of internal disciplinary processes for both judicial and administrative personnel, supported by appropriate legislation and regulations where necessary.

Goal 3: Access to Justice

A citizen-centered justice system prioritizes the provision of accessible, secure, orderly and high-quality judicial services to the public.

The KJC is committed to ensuring access to justice for all citizens of Kosovo, regardless of economic status, ethnicity, age, gender or any other personal characteristic. Achievement of this Goal on Access to Justice will inevitably contribute to the achievement of Goal 4 (Public Confidence).

Courts and court services must be user-friendly and accessible. The concept of "access to justice" should be understood to encompass both physical access and procedural access.

This Goal requires that all persons have physical access to court facilities. Courts must provide safe and orderly environments for the public as well as for all court personnel in order to facilitate the effective performance of their duties.

Procedural access includes clear and straightforward procedures that reduce delays and minimize costs for litigants. The judiciary of Kosovo should also support and encourage the provision of legal services for individuals who are unable to secure legal representation, whether in civil or criminal proceedings.

Strategic Objectives

3.1 Strengthen outreach and engagement with the public, as envisaged in the Communication Strategy referred to above.

3.2 Ensure the construction of new facilities and the renovation of existing facilities, as appropriate, in order to promote and facilitate public access to court premises.

3.3 Ensure physical accessibility and appropriate accommodation for court users with disabilities.

3.4 Provide suitable, safe and orderly facilities for all court personnel and members of the public.

3.5 Improve access to justice, with a particular focus on reducing delays, lowering costs and simplifying procedures.

3.6 Eliminate language barriers by providing high-quality translation and interpretation services whenever required.

3.7 Develop and expand virtual access mechanisms where appropriate.

3.8 Facilitate and support programs that provide access to justice for persons receiving social assistance during judicial proceedings.

Goal 4: Public Trust and Satisfaction

Public trust and satisfaction in the judicial system are achieved through the fair and proper resolution of cases in accordance with the Constitution and the laws of the Republic of Kosovo.

The elements of the five goals established in this Strategic Plan are essential for gaining and strengthening public confidence in this vital pillar of the judiciary. Progress toward achieving the five interconnected goals of this Strategic Plan will ultimately contribute to building public trust and satisfaction in the judiciary, which is essential for maintaining a strong, independent and highly respected judicial institution.

Strategic Objectives

Promote public awareness and understanding of the role and functions of the judiciary. Emphasize judicial transparency as a priority value in building public trust and satisfaction.

4.1 Implement the Communication Strategy with regard to public engagement and interaction with the media, civil society, schools at all levels, including law faculties, the Chamber of Advocates, and other relevant stakeholders.

4.2–4.3 Emphasize the importance of consistency in judicial reasoning and decision-making (as set forth in Strategic Objective 2.4 above).

4.5 Establish and maintain a questionnaire on the KJC portal to enable citizens to express their level of satisfaction with the judiciary. Reports on the survey results should be prepared on a regular basis and subsequently made available to the public.

Goal 5: Technology in Support of Judicial Functions and Access to Courts

The development of Information and Communication Technology (ICT) has significantly influenced the manner in which the KJC as an institution, and the judiciary in general, are managed and operate.

The KJC clearly recognizes the advantages and efficiencies that technology offers across numerous aspects of judicial operations, including case management, archiving, human resources management, and the facilitation of remote interaction with court users as well as with other branches and institutions of government.

Accordingly, the KJC acknowledges that advances in ICT provide opportunities to enhance efficiency in many aspects of case management and other judicial functions. This has a substantial impact on the key elements of Goal 1 of this Strategic Plan, particularly with respect to the overall efficiency of the courts.

Training of personnel, monitoring the use of ICT processes, and ensuring system security and integrity will be essential for achieving these efficiencies.

Strategic Objectives

Develop, enhance and maintain a fully functional ICT system for Case Management and Criminal Records, while expanding the interconnection of the court case management system with other systems within the rule of law sector.

5.1 Ensure the deployment and integration of audio and video systems into judicial proceedings.

5.2 Enhance the security of court information systems and electronic data.

5.3 Strengthen the capacities of ICT staff in the management and operation of ICT systems.

5.4 Provide selected virtual services for court users.

Pursuant to the Constitution of the Republic of Kosovo (Article 108, paragraph 5), the Law on Public Financial Management and Accountability (Articles 63.2 and 66.1), and Law No. 06/L-055 on the Kosovo Judicial Council (Articles 11.2.5, 4.1.11 and 17.1.2), the Kosovo Judicial Council is responsible for drafting and managing the annual budget of the Judicial System of the Republic of Kosovo.

I.2 Budget Programmes of the Kosovo Judicial Council (KJC)

Within the Kosovo Judicial Council as a budget organization, there are currently a total of twelve (12) budget programmes: the KJC Secretariat, the Judicial Inspection Unit (formerly the Judicial Performance Review Unit), the Supreme Court and the Special Chamber, the Court of Appeals, the Commercial Court, the Basic Court in Prishtina, the Basic Court in Prizren, the Basic Court in Gjilan, the Basic Court in Ferizaj, the Basic Court in Peja, the Basic Court in Gjakova, and the Basic Court in Mitrovica.

Budget Programme – Administrative and Labour Court

With the entry into force of the Law on the Administrative and Labour Court, a separate budget code should be established for this Court, in the same manner as for the other courts operating as budget programmes under the KJC.

The allocation of budget funds under the respective budget code for this Court should be made in accordance with the financial impact assessment of both the current budget and the additional budget required for the establishment of this Court.

I.3 KJC Budget Ceilings under Budget Circular 2026/01

According to Budget Circular 2026/01, the budget ceiling allocated to the KJC for 2026 amounts to €38,514,055.13, distributed across the following economic categories:

Salaries and Allowances ..... €28,251,055.13 for 2,321 positions
Goods and Services €5,193,000.00
Utilities €650,000.00
Subsidies and Transfers €500,000.00
Capital Expenditures €3,920,000.00

II. IMPLEMENTATION OF THE 2025 BUDGET

IMPLEMENTATION OF THE KJC BUDGET AND PROJECTED EXECUTION UNTIL THE END OF 2025

No.	Economic category	Staff no.	Approved budget 2025	Budget expended	Budget expended %	Projected expenditure by Year-End (€)	Projected Year-End Execution %
1	Salaries and allowances	2321	26,099,871.00	11,415,918.55	43.74	26,099,871.00	100.00
2	Goods and services		5,193,000.00	2,000,195.93	38.52	5,193,000.00	100.00
3	Utilities		650,000.00	232,334.63	35.74	650,000.00	100.00
4	Subsidies and transfers		500,000.00	498,139.46	99.63	500,000.00	100.00
5	Capital expenditures		3,620,000.00	908,131.20	25.09	3,620,000.00	100.00
	Total KJC	**2321**	**36,062,871.00**	**15,054,719.77**	**41.75**	**36,062,871.00**	**100.00**

As reflected in the table above, the KJC has thus far executed its budget in accordance with planned projections and expects to fully utilize its allocated budget by the end of 2025, achieving an overall execution rate of approximately 100% across all economic categories.

In the category of Salaries and Allowances, an over-expenditure is expected by year-end because, as you have been informed during the period 2018–2024, the KJC has continuously faced budget shortfalls due to the insufficient allocation of the wage bill in relation to the number of authorized and approved positions.

Under the Law on Budget Appropriations for 2025, the KJC was allocated a total of €26,099,871.00 under the category of Salaries and Allowances for 2,321 positions.

Following the entry into force of the new Law on Salaries on 6 February 2023, and in accordance with the Judgment of the Constitutional Court, salaries and allowances were recalculated based on the provisions of the Law and the Court's Judgment. The calculation demonstrated that, for all positions approved under the 2025 Budget Law (a total of 2,321 positions), the actual annual budget required to cover salaries and all applicable allowances amounts to €34,431,092.45.

Accordingly, had all authorized and budgeted positions been filled from the beginning of 2025, the budget shortfall in the category of Salaries and Allowances would have reached a total of €8,331,221.45.

The KJC has also been allocated insufficient funding in this category in previous years. This issue has been continuously raised and discussed during joint meetings and budget hearings in

previous years, during which assurances were provided that the shortfall would gradually be addressed as vacant positions were filled.

Similarly, the category of Goods and Services is currently experiencing over-expenditure and is expected to face a budget shortfall during the year due to insufficient budget allocations, inflationary pressures and price increases, as well as the settlement of outstanding obligations carried over from the previous fiscal year as a result of earlier budget shortages.

Likewise, the category of Subsidies and Transfers is experiencing over-expenditure. The budget allocation of €500,000.00 approved under the 2025 Budget Law for this category had already been fully utilized by May 2025.

III. ADDITIONAL BUDGET REQUESTS FOR 2026

In order to fulfill its mission through the objectives outlined above, and based on the rights and responsibilities established by the Constitution of the Republic of Kosovo, the Law on Public Financial Management and Accountability, Law No. 06/L-055 on the Kosovo Judicial Council, and Law No. 06/L-054 on Courts, the Kosovo Judicial Council, during the preparation of the 2026–2028 budget, has taken into account the fact that budget allocations and staffing positions have been reduced over the last three years.

Given that the KJC does not agree with the budget ceilings established under Budget Circular 2026/01, it hereby submits its additional budget requests, together with the relevant justifications, broken down by economic categories as follows:

III.1 SALARIES AND ALLOWANCES

According to Budget Circular 2026/01, the budget ceiling allocated to the KJC under this category amounts to €28,251,055.13 for 2,321 positions. No additional positions have been allocated, while compared to the 2025 budget, the allocation reflects an increase of €2,151,184.

Below, we present the KJC's additional budget request under this category, beginning with the request for additional positions and the budgeting of those positions in accordance with the coefficients and grades established under Law No. 08/L-196 on Salaries in the Public Sector and the Judgment of the Constitutional Court, as well as the request for adjustment of the current budget in line with the authorized positions.

III.1.1 Additional Judicial Positions

As you are aware, following the entry into force of the Law on the Commercial Court, which began operating in 2022, six (6) additional first-instance judge positions are still required in order to ensure the full operationalization of this Court.

Since 2018, due to the shortage of judicial positions in the Court of Appeals and the Special Chamber of the Supreme Court, the KJC has, through separate decisions, transferred vacant judicial positions from the Basic Courts to these two courts. These positions should now be returned to the Basic Courts, and additional new positions should also be approved.

Accordingly, a total of thirty (30) additional judicial positions are required for the Basic Courts.

III.1.2 Additional Positions for Professional Associates

Law No. 06/L-054 on Courts, which entered into force on 9 January 2019, stipulates that each judge shall be supported by at least one Professional Associate.

Therefore, in order to achieve the objective of having one Professional Associate for each judge, as required by Article 39.2 of Law No. 06/L-054 on Courts, the KJC requested in the previous budget cycle and has again included in the 2026–2028 Medium-Term Expenditure Framework (MTEF) the approval of one hundred and fifty-one (151) additional positions for Professional Associates in 2026.

III.1.3 Additional Positions for Legal Officers and Other Court Staff

The increase in the number of judges also requires a corresponding increase in the number of Legal Officers and other court personnel.

Accordingly, the KJC requests the approval of fourteen (14) additional positions for Legal Officers and other court staff for 2026.

III.1.4 Additional Positions for Senior Judicial Inspectors

The Judicial Inspection Unit requires three (3) additional Senior Judicial Inspector positions.

III.1.5 Adjustment of the Budget in Line with Authorized Positions

Under the 2025 Budget Law, the KJC was allocated a total of €26,099,871.00 under the category of Salaries and Allowances for 2,321 positions.

However, the actual budget required under this category should amount to €34,431,092.45, assuming that all 2,321 authorized positions had been filled from the beginning of the year.

Consequently, an additional budget allocation of €8,331,221.45 would have been required for 2025, consisting of:

* €7,845,221.45 for salaries; and
* €486,000.00 for allowances.

Under the 2026 budget ceilings, funding in the amount of €28,251,055.13 has been allocated for 2,321 positions. This amount is insufficient to cover salaries and allowances for these positions. In other words, the wage bill allocated under the budget ceilings does not correspond to the number of authorized positions.

Based on the calculation of salaries and allowances in accordance with the new Law on Salaries and the Judgment of the Constitutional Court, the total budget required for salaries and allowances for all 2,321 positions amounts to €34,431,092.45.

Accordingly, an additional budget allocation of €6,180,037.32 is required under the category of Salaries and Allowances for 2026, consisting of:

* €5,694,037.32 for salaries; and
* €486,000.00 for allowances.

III.1.6 Additional Budget for Salary Supplements, Allowances, Compensation and Other Benefits Pursuant to Law No. 08/L-196 on Salaries in the Public Sector

Pursuant to Law No. 08/L-196 on Salaries in the Public Sector, the Judgment of the Constitutional Court, as well as the KJC Regulations and Decisions governing salary supplements, compensation, on-call duty payments, overtime work and related benefits, an additional budget of €486,000.00 is required to cover salary supplements, compensation and remuneration for KJC members and commissions, on-call duty payments, night work, overtime work and other related benefits.

ADDITIONAL BUDGETARY COSTS FOR THE SALARIES AND ALLOWANCES CATEGORY – 2026		
Position title	**No. of positions**	**Budget (annual salaries)**
Judge of first instance chamber of Commercial Court	6	194,409.72 €
Basic Court Judge	30	777,638.88 €
Professional Associate in the Supreme Court, Court of Appeals and Commercial Court	38	538,467.60 €
Professional Associate in the Basic Courts	113	1,372,003.51 €
Legal Officers and Other Officials in the Courts and the KJC/KJC Secretariat	14	142,224.06 €
Senior Judicial Inspector in the Judicial Inspection Unit	3	53,127.36 €
Total for New Additional Positions	**204**	**3,077,871.13 €**
Budget Adjustment for Salaries Based on Authorized and Approved Positions		**6,180,037.32 €**
Additional Budget for Salary Supplements, Compensation and Remuneration for KJC Members and Commissions, On-Call Duty Payments, Night Work, Overtime Work, etc., pursuant to the Law on Salaries in the Public Sector and the relevant KJC Regulations governing supplements, compensation, on-call duty and overtime work		**486,000.00 €**
TOTAL ADDITIONAL POSITIONS AND BUDGET REQUEST		**9,743,908.45 €**

Clarification: *The calculation of salaries for new positions, salary supplements and other compensation has been carried out in accordance with Law No. 08/L-196 on Salaries in the Public Sector, the Judgment of the Constitutional Court, the KJC Regulation on the Classification of Positions, the KJC Regulation on Salary Supplements, Compensation, On-Call Duty and Overtime Work, as well as the relevant decisions of the KJC.*

The additional request under the Salaries and Allowances category consists of: **€3,077,871.13** for the **204** additional positions listed in the table above;
€6,180,037.32 for adjustment of the budget under the 2026 budget ceilings, for the reasons explained in Section III.1.5 "Adjustment of the Budget in Line with Authorized Positions"; and
€486,000.00 for salary supplements, compensation and remuneration for KJC members and commissions, on-call duty payments, night work, overtime work and related benefits.

Accordingly, the total additional request above the established budget ceilings for the Salaries and Allowances category amounts to €9,743,908.45.

III.2 GOODS AND SERVICES

According to Budget Circular 2026/01, the budget ceiling for the Goods and Services category amounts to €5,193,000. Compared to the 2025 budget, there has been no increase in funding under this category.

III.2.1 Additional Budget Due to Price Increases, Growth in the Number of Court Cases, and Increase in the Number of Judges and Administrative Staff

Under the 2026 budget ceilings, no increase in funding has been provided compared to 2025.

Taking into account the increase in market prices (inflation), which has directly affected expenditures for supplies, services and various maintenance needs, as well as increased costs for fuel used for central heating systems, generators and court vehicles, additional funding is required.

Furthermore, expenditures under this category have increased due to the growth in the number of judges and administrative personnel, as well as the increase in the number of cases handled by the courts. Consequently, judges are managing larger caseloads, resulting in higher expenditures for expert witnesses, court interpreters and other related services.

For these reasons, an additional budget allocation of **€265,680.00** is required due to price increases and the growing number of court cases, while an additional **€566,062.20** is required as a result of the increase in the number of judges, administrative staff and newly requested positions.

III.2.2 Additional Budget Due to Increased Costs for Court-Appointed Defence Counsel Funded from Public Funds and Postal Services

Following the entry into force of Criminal Procedure Code No. 08/L-032, mandatory legal defence funded from public funds is required for 176 criminal offences.

In addition, due to amendments to the applicable fee structure under KJC Administrative Instruction No. 06/2023 on "Procedures for the Compensation of Defence Counsel Funded from Public Funds", additional resources are required for the engagement and compensation of defence counsel.

Furthermore, postal expenditures continue to increase as a result of the growing number of cases in the courts.

Accordingly, an additional budget allocation of no less than **€400,000.00** will be required to cover the costs of publicly funded defence counsel and increased postal service expenditures.

III.2.3 Additional Budget for ICT Maintenance and the CMIS System

The costs associated with the maintenance of the CMIS system continue to increase. The Kosovo Judicial Council has assumed responsibility for financing the maintenance and further enhancement of the system.

The co-financing obligations arise from two documents signed by the donor of the CMIS Project, the Ministry of Foreign Affairs of Norway, and the institutions of the Republic of Kosovo, namely the Government of Kosovo, the Kosovo Judicial Council and the Kosovo Prosecutorial Council:

- Memorandum of Understanding between the Government of Kosovo, the KJC, the KPC and the Ministry of Foreign Affairs of Norway on the co-financing of the implementation of the CMIS Project, November 2018;
- Grant Agreement between the Ministry of Foreign Affairs of Norway and the KJC, Ref. KOS-18/0006.

For the maintenance, enhancement and further development of ICT infrastructure and the CMIS system, an additional budget allocation of **€500,000.00** is required.

III.2.4 Additional Budget for Interns in the Courts of Kosovo

As you are aware, interns engaged in the courts are generally not compensated, except in rare cases where their compensation is covered by various donors.
Given that their engagement is continuous and necessary, we request the approval of an additional budget allocation in the amount of **€440,370.00** for the **233** interns currently engaged across all courts of the Republic of Kosovo.

III.2.5 Additional Budget for the Cleaning and Maintenance Services of the Palace of Justice

The overall maintenance of the Palace of Justice falls within the responsibility of the Ministry of Internal Affairs and Public Administration (MIAPA).

However, we have been informed by the Ministry, and discussions are currently ongoing, that beginning next year the KJC and the KPC will assume responsibility for the management of the Palace of Justice and will be required to plan and provide the budget necessary for its maintenance, as the Ministry has not foreseen the continuation of maintenance services nor budget planning for this purpose.

As the KJC currently has no budget allocation for these services and in order to avoid any interruption of maintenance services at the Palace of Justice, we request that, for the next three years, either the relevant budget be transferred from the MIAPA or that an additional budget allocation be approved, based on the preliminary calculations prepared by the Ministry, as follows: **€550,000.00** for 2026; €650,000.00 for 2027; and €750,000.00 for 2028.

III.2.6 Additional Budget for Furniture and Equipment for New Court Facilities

During 2026, the renovation works of the Basic Court in South Mitrovica are expected to be completed.

Following the completion of the renovation works and the relocation of court staff to the facility, the building will need to be fully equipped with furniture and other inventory items. As no budget has been allocated for this purpose, we request the approval of an additional budget allocation of **€100,000.00.**

For the reasons outlined above, the budget ceilings established under Budget Circular 2026/01 will not enable the KJC to cover all expenditures under this category.

Therefore, we request an additional budget allocation of **€2,822,112.20** above the established budget ceilings, consisting of:

€265,680.00 due to inflation and increased expenditures for supplies, services and maintenance;
€566,062.20 due to the increase in the number of judges, administrative staff and newly requested positions;
€400,000.00 for the engagement and compensation of defence counsel funded from public funds, as well as increased postal expenditures;
€500,000.00 for the maintenance, enhancement and further development of ICT infrastructure and the CMIS system;
€440,370.00 (for 233 interns) for compensation of interns engaged in the courts;
€550,000.00 for the maintenance of the Palace of Justice; and
€100,000.00 for furnishing and equipping the renovated building of the Basic Court in South Mitrovica.

Accordingly, the total additional request above the budget ceilings for the Goods and Services category amounts to €2,822,112.20.

III.3 UTILITIES

According to Budget Circular 2026/01, the budget ceiling allocated to the KJC under the Utilities category amounts to €650,000.00. Compared to the 2025 budget, no increase has been allocated under this category.

This allocation is insufficient because, beginning next year, and pursuant to a request from the Ministry of Internal Affairs and Public Administration (MIAPA), the Palace of Justice will no longer be maintained by the Ministry.

Therefore, we request that, for the next three years, the relevant budget either be transferred from the MIAPA or that an additional budget allocation be approved based on calculations and projections prepared by the Ministry, as follows: **€450,000.00** for 2026; €500,000.00 for 2027; €550,000.00 for 2028; as well as an additional **€70,852.65** related to the newly requested positions.

Accordingly, the total additional request above the established budget ceilings under the Utilities category amounts to €520,852.65.

III.4 SUBSIDIES AND TRANSFERS

According to Budget Circular 2026/01, the KJC budget ceiling under the Subsidies and Transfers category amounts to €500,000.00, to be financed from revenues collected by the courts and subsequently allocated through the Treasury.

Compared to the 2025 budget, the allocation under this category remains unchanged and no increase has been provided.

This category is used to compensate individuals who have been wrongfully convicted or unlawfully arrested. However, given the significant increase in compensation claims submitted to the KJC and through court proceedings in recent years, the KJC has drafted and approved a new regulation which, among other things, revised the compensation rates applicable to such cases. The objective of these amendments is to increase the number of settlements reached through agreements with the competent KJC Commission and to reduce the number of lawsuits filed before the courts.

In cases where claims are enforced pursuant to final court judgments, the compensation amounts awarded are substantially higher than the compensation rates provided under the KJC Regulation.

With regard to expenditures under this category, as requested in Budget Circular 2026/01, we would like to inform you that there are currently approximately 509 lawsuits of this nature pending before the courts, with a total claimed value exceeding €85 million, specifically €85,123,799.80, in which the KJC is the respondent party.

At this stage, it is not possible to predict the outcome of these cases, as the final compensation amounts depend on judicial decisions. Consequently, it is difficult to provide a precise estimate of future expenditures. Nevertheless, based on current judicial practice, the projected compensation value for all of the above-mentioned lawsuits is not expected to exceed €6,000,000.00.

It should also be noted that some of these cases were inherited from EULEX.

With respect to compensation for persons wrongfully convicted or unlawfully arrested, the amount of €500,000.00 allocated under the 2025 Budget Law was fully utilized as early as May 2025, while the total amount reviewed by the Commission during the period January–June 2025 reached €860,847.40.

Accordingly, the total additional request above the budget ceilings under the Subsidies and Transfers category amounts to €1,300,000.00.

III.5 CAPITAL EXPENDITURES

According to Budget Circular 2026/01, the KJC budget ceiling under the Capital Expenditures category amounts to €3,920,000.00. Compared to the 2025 budget, this category has received an increase of €300,000.00.

The capital projects planned for implementation within the approved budget ceilings are as follows:

1. Repair and maintenance of court facilities – €250,000.00;
2. Design and construction of the Basic Court building in Prizren – €952,000.00;
3. Procurement of photocopying, printing and scanning equipment – €250,000.00;
4. Construction of the Basic Court building in Gjilan, Viti Branch – €500,000.00;
5. Construction of the Basic Court building in Prishtina, Drenas Branch – €400,000.00;
6. Procurement and installation of heat pumps in court branch facilities – €250,000.00;
7. Design and construction of the Basic Court building in Peja – €800,000.00;
8. Digitization of court archives nationwide and installation of mobile rail shelving systems – €170,000.00;
9. Procurement of computer network equipment for the courts, including switches, routers, UPS devices, etc. – €148,000.00;
10. Procurement and installation of security access control systems for entrances and exits to court facilities – €250,000.00.

Additional Capital Budget Request Above the Budget Ceilings

III.5.1 Improvement of Physical Infrastructure and Construction and Renovation Works at the Palace of Justice

An additional allocation of €1,000,000.00 is requested for the improvement of physical infrastructure and for construction and renovation works at the Palace of Justice.

Accordingly, the total additional request above the budget ceilings under the Capital Expenditures category amounts to €1,000,000.00.

IV. ADDITIONAL REQUESTS AND THE OVERALL KJC BUDGET REQUEST FOR 2026

The additional budget request above the budget ceilings established under Budget Circular 2026/01 amounts to €15,386,873.30, allocated as follows:

Salaries and Allowances: **€9,743,908.45;**
Goods and Services: **€2,822,112.20;**
Utilities: **€520,852.65;**
Subsidies and Transfers: **€1,300,000.00;**
Capital Expenditures: **€1,000,000.00.**

The overall budget request of the Kosovo Judicial Council for 2026 amounts to **€53,900,928.**

V. BUDGET AND ADDITIONAL COSTS FOR THE ADMINISTRATIVE AND LABOUR COURT

The working group (commission) established by the Ministry of Justice has drafted the Concept Document for the establishment of the Administrative and Labour Court.
The Concept Document includes an assessment of the budgetary impact, according to which the current budget and the additional budget required for the establishment of this Court are presented in the table below:

BUDGET AND ADDITIONAL COSTS FOR THE ADMINISTRATIVE AND LABOUR COURT

Kosovo Judicial Council	Current Budget Allocations 2023	Additional cost	Total Budgetary Cost for the Administrative and Labour Court
Number of Positions	39	64	103
Salaries and Allowances	457,934.40	723,663.36	1,181,597.76
Goods and Services	31,000.00	271,000.00	302,000.00
Utilities	2,000.00	8,000.00	10,000.00
Subsidies and Transfers			
Capital Expenditures			
Total	**490,934.40**	**1,002,663.36**	**1,493,597.76**

Upon the entry into force of the Law on the Administrative and Labour Court and the approval of the corresponding budget, a separate budget code should be established for this Court, in the same manner as for the other courts operating as budget programmes under the KJC.

VI. JUDICIAL REVENUES

As you are aware, through the courts, the Kosovo Judicial Council generates judicial revenues that contribute to the Budget of the Republic of Kosovo.

A portion of these revenues was utilized by the KJC from 2007 to 2012, based on Memoranda of Understanding concluded with the Minister of Finance, to improve working conditions for employees within the Judicial System of Kosovo and to compensate persons who were wrongfully convicted or unlawfully arrested.

From 2012 until 2023, pursuant to annual budget laws and relevant budgetary instructions, a portion of these revenues was incorporated into the regular budget allocations under the categories of Salaries and Allowances and Subsidies and Transfers, and was used by the KJC for the purposes outlined above.

However, following the entry into force of the Law on Salaries in 2023, a portion of the revenue-generated funds has been allocated exclusively to the category of Subsidies and Transfers.

Judicial revenues generated by the KJC, namely by the courts, increased by 6.03% in 2024 compared to 2023. A continued upward trend in revenue generation is also being recorded during 2025.

For 2026, the KJC projects total judicial revenues in the amount of €13,174,401.00.

Attached herewith are:

1. The table on the implementation of the 2025 budget and the projected execution until year-end;
2. PCF tables (forms) generated from the BDMS System;
3. The Capital Projects table (form) generated from the PIP System;
4. The Gender-Responsive Budgeting Table – Annex 1;
5. The Performance Indicators Table – Annex 2.

TOPICS/SUBJECTS:	Announcement of the Administrative Personnel Plan for 2026

Dear all,

In accordance with Article 4, paragraph 2 of Regulation No. 04/2024 on Personnel Planning, I hereby inform you of the Personnel Plan for 2026 as follows:

The staffing plan was drafted in accordance with the provisions of Regulation No. 04/2024 on Staffing Planning. Initially, all heads of administration of the organizational units of the prosecutorial system were requested to submit their plans for the necessary staff for each prosecutor's office. All this data was included in the staffing plan as well as in the budget request. However, this request was not approved by the Law on the Budget for 2026.

Within the Budget Request, a total of 207 positions have been requested, of which 31 for prosecutors and 176 for support staff (including positions created under the new regulations for the reorganization of the administration of the prosecutorial system), but none of these positions have been approved for 2026.

Currently, the number of vacant positions is 43, we have 72 new positions created according to the reorganization regulations, but they have not been approved with a budget request from the Ministry of Finance, Labor and Transfers, while 10 positions are in the recruitment process, while the number of officials who are expected to retire during 2026 is 10.

The personnel plan is harmonized with the approved budget for 2026.

This plan aims to ensure adequate personnel, with the knowledge, skills and competencies necessary for the sustainable functioning of the institution and the provision of high-quality services.

The Secretariat will decide on the method of organizing personnel, as well as on the announcement of internal or external competitions, based on the current situation of the staff, and on the fulfillment of the criteria set out in the legislation in force.

With respect,

Republic of Kosovo

REPUBLIC OF KOSOVO
KOSOVO JUDICIAL COUNCIL

KJC No. 33/2026
Date: 20 January 2026

THE KOSOVO JUDICIAL COUNCIL (KJC), pursuant to Article 108 of the Constitution of the Republic of Kosovo, as well as Articles 7 and 34 of Law No. 06/L-055 on the Kosovo Judicial Council, at its 360th meeting held on 20 January 2026, hereby issues the following:

DECISION

I. The General Staffing Plan for Judges and the Judicial Administration for the year 2026 is hereby approved, encompassing all levels of courts/branches, the Secretariat of the Kosovo Judicial Council, and the Judicial Inspection Unit.

II. The Director General of the Secretariat of the Kosovo Judicial Council is hereby authorized to undertake all necessary actions for the initiation and implementation of procedures for the announcement of internal and external vacancies, in accordance with the Annual Personnel Plan for Judges and the Judicial Administration for the year 2026.

III. This Decision shall enter into force on 20 January 2026.

Reasoning

The Kosovo Judicial Council was informed by the Department for Human Resources Management of the proposal for the General Staffing Plan for Judges and the Judicial Administration for the year 2026, including approved, filled, and vacant positions.

The Council reviewed and discussed the proposal submitted by the Department for Human Resources Management concerning the analysis of the current situation within the judicial system. Furthermore, the Council assessed the data provided by the Department for Human Resources Management, which confirms that the implementation of this Decision contributes to the overall improvement of performance and does not present any budgetary difficulties.

Following the review of the proposal, the Council decided as set forth in the operative part of this Decision.
